Notice of Lodging of Proposed Consent Decree Under the Clean Air Act

On September 14, 2020, the Department of Justice lodged a proposed consent decree with the United States District Court for the District of Columbia in *United States v. Daimler AG and Mercedes-Benz USA, LLC*, Civil Action No. 1:20-cv-2564.

The United States filed a complaint under Clean Air Act Sections 204 and 205, 42 U.S.C. 7523 and 7524, and regulations promulgated under Clean Air Act Section 202, 42 U.S.C. 7521, and codified at 40 CFR part 86, seeking injunctive relief and civil penalties for the Defendants’ sale of over 250,000 diesel vans and passenger cars that the United States contends contain undisclosed auxiliary emission control devices and “defeat devices” installed in the vehicles’ complex emission control systems to circumvent emissions testing. The United States simultaneously lodged a consent decree that would settle these claims and claims in a separate civil complaint filed by the California Resources Board (CARB) on the same day.

Under the proposed decree, the Defendants will have to (1) recall and repair, at no cost to consumers, at least 85 percent of the affected vans and at least 85 percent of the affected passenger cars to remove the defeat devices and bring the vehicles into compliance with applicable emissions standards; (2) perform a project to mitigate excess nitrogen oxides emitted from the affected vehicles in all states except the State of California; (3) pay \$110,000 to CARB to fund mitigation projects in California; (4) reform corporate compliance measures to try to prevent future emissions cheating; and (5) pay an \$875 million civil penalty. Of this amount, the Defendants must pay \$743,750,000 to the United States and \$131,250,000 to CARB.
