

Appendix 2—Statement of Commissioner Dan M. Berkovitz

The part 190 rulemaking supplemental notice of proposed rulemaking (“Supplemental NPRM”) addresses a potential unintended outcome of the original NPRM identified in a number of comments on the proposal. These comments stated that certain provisions in the original proposed rule related to the bankruptcy of a derivatives clearing organization (“DCO”) could have significant, unintended and detrimental impacts on various market participants with contracts cleared at the DCO. The Supplemental NPRM presents new, alternative provisions governing DCO bankruptcy that are intended to avoid these impacts. In issuing the Supplemental NPRM, the Commission seeks public comment on these alternative provisions.

I support the issuance of this Supplemental NPRM because it will provide all interested persons with an opportunity to comment on the alternative provisions formulated by the Commission. This alternative approach was not set forth in the proposal. Providing the public with notice and opportunity to comment on rules being considered by the Commission is not only a basic legal requirement for agency rulemaking, but it is sound public policy as well. Public input from all interested persons is critical to sound regulation.

Under the Administrative Procedure Act, the provisions in a final rule must be reasonably foreseeable and a logical outgrowth of the provisions in the proposal.¹ The NPRM must contain more than a passing reference or question about an issue; the proposal must be sufficiently descriptive for members of the public to evaluate and comment on the approach being considered. The Supplemental NPRM meets that standard.

I look forward to reviewing all perspectives on these alternative provisions.

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

We invite your comments on this proposed rulemaking.

II. Background, Purpose, and Legal Basis

On July 22, 2020, MCM Management Corp notified the Coast Guard that it will be conducting a demolition from 7 a.m. to 9 a.m. on October 16, 2020, as part of the process to remove the structures of the Beckjord Power Plant. The demolition will occur to structures on and close to the waterway. Hazards from demolition include low visibility from the smoke and or noise hazards from the implosion. The Captain of the Port Sector Ohio Valley (COTP) has determined that potential hazards associated with the demolition would be a safety concern for anyone within the two mile river closure.

The purpose of this rulemaking is to ensure the safety of vessels and the navigable waters from Mile Marker 452.0 to 454.0 before, during, and after the scheduled event. The Coast Guard is proposing this rulemaking under authority in 46 U.S.C. 70034 (previously 33 U.S.C. 1231).

III. Discussion of Proposed Rule

The COTP is proposing to establish a safety zone from 7 a.m. to 9 a.m. on October 16, 2020. The safety zone would cover all navigable waters from Mile Marker 452.0 to 454.0 on the Ohio River bank to bank. The duration of the zone is intended to ensure the safety of vessels and these navigable waters before, during, and after the scheduled 7 a.m. to 9 a.m. demolition. No vessel or person would be permitted to enter the safety zone without obtaining permission from the COTP or a designated representative. The regulatory text we are proposing appears at the end of this document.

IV. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. Executive Order 13771 directs agencies to control regulatory costs through a budgeting process. This NPRM has not been designated a “significant regulatory action,” under Executive Order 12866. Accordingly, the NPRM has not been reviewed by the Office of Management and Budget (OMB), and pursuant to OMB guidance it is exempt from the requirements of Executive Order 13771.

This regulatory action determination is based on the size, location, duration, and time-of-day of the safety zone. Entry into the regulated area will be prohibited from 7 a.m. to 9 a.m. on October 16, 2020, from Ohio River MM 452.0 to MM 454.0, unless authorized by the Captain of the Port Sector Ohio Valley (COTP) or a designated representative. Moreover, the Coast Guard will issue written Local Notice to Mariners and Broadcast Notice to Mariners via VHF–FM marine channel 16 about the temporary safety zone that is in place.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations

¹ See, e.g., *Idaho Farm Bureau Fed’n v. Babbitt*, 58 F.3d 1392, 1402–03 (9th Cir. 1995).

that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the regulated area may be small entities, for the reasons stated in section IV.A above, this proposed rule would not have a significant economic impact on any vessel owner or operator.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

C. Collection of Information

This proposed rule would not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132 (Federalism), if it has a substantial direct effect on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this proposed rule does not have tribal implications under Executive Order 13175 (Consultation and Coordination with Indian Tribal Governments) because it would not have a substantial direct effect on one or

more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this proposed rule has implications for federalism or Indian tribes, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this proposed rule under Department of Homeland Security Directive 023–01, Rev. 1, associated implementing instructions, and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves a safety zone lasting 2 hours that would prohibit entry into the regulated area. Normally such actions are categorically excluded from further review under paragraph L60a of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places, or vessels.

V. Public Participation and Request for Comments

Specific Requests for Comment: The Department is particularly interested in comments on Proposed Priority 4—Serving Students from Low-Income Families. We are interested in feedback about how well this priority would assist in the determination of whether a proposed project would predominantly serve students from low-income families as well as whether the proposed priority would be challenging or burdensome for applicants to meet and, if so, how the proposed priority could be revised. In addition, we invite comment about the appropriateness of the proposed data sources applicants may use to demonstrate that the proposed project will serve students from low-income families.

We are also interested in comments about whether there are important aspects of innovative CTE projects or the likelihood of project success that the proposed selection criteria for the I and M competition do not assess. We are interested in feedback about whether there is ambiguity in the language of the proposed selection criteria that will make it difficult for applicants to respond to the criteria and for peer reviewers to evaluate applications with respect to the selection criteria.
