Notice of a Change in Status of the Extended Benefit (EB) Program for Kentucky

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

This notice announces a change in benefit period eligibility under the EB program for Kentucky.

The following changes has occurred since the publication of the last notice regarding the States' EB status:

Based on the data released by the Bureau of Labor Statistics on August 21, 2020, the seasonally-adjusted total unemployment rate for Kentucky fell below the 8.0% threshold necessary to remain "on" a high unemployment period in EB, and effective September 13, 2020, the maximum potential entitlement for claimants in Kentucky in the EB program will decrease from 20 weeks to 13 weeks.

The trigger notice covering state eligibility for the EB program can be found at: *http://ows.doleta.gov/ unemploy/claims_arch.as.*

Information for Claimants

The duration of benefits payable in the EB program, and the terms and conditions on which they are payable, are governed by the Federal-State Extended Unemployment Compensation Act of 1970, as amended, and the operating instructions issued to the states by the U.S. Department of Labor. In the case of a state beginning an EB period, the State Workforce Agency will furnish a written notice of potential entitlement to each individual who has exhausted all rights to regular benefits and is potentially eligible for EB (20 CFR 615.13(c)(1)).

Persons who believe they may be entitled to EB, or who wish to inquire about their rights under the program, should contact their State Workforce Agency.

SUPPLEMENTARY INFORMATION:

I. Abstract

The NASA Universal Registration and Data Management System is a comprehensive tool designed to allow learners (*i.e.*, students and educators) to apply to NASA STEM engagement opportunities (e.g., internships, fellowships, challenges, educator professional development, experiential learning activities, etc.) in a single location. NASA personnel manage the selection of applicants and implementation of engagement opportunities within the Universal **Registration and Data Management** System. Additionally, NASA can deploy evaluation surveys through the Universal Registration and Data Management System to collect shortand intermediate-outcome data by surveying learners (i.e., students and educators) in NASA STEM engagement

activities. Results from evaluation surveys information collected will be used by the NASA Office of STEM Engagement (OSTEM) to establish better defined goals, outcomes, and standards for measuring progress and also to evaluate the outcomes of NASA's STEM Engagement programs and activities. This process of improvement will enhance NASA's strategic planning, performance planning, and performance reporting efforts as required by the GPRA Modernization Act of 2010 and Evidence-Based Policymaking Act of 2018.
