BILLING CODE 3410-34-P

DEPARTMENT OF AGRICULTURE

**Submission for OMB Review;
Comment Request**

September 21, 2020.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are required regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by October 26, 2020 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Farm Service Agency

Title: Transfer of Farm Records between Counties.

OMB Control Number: 0560-0253.

Summary of Collection: Farm Service Agency (FSA) programs are administered on the basis of "farm". For

program purposes, a farm is a collection of tracts of land that have the same owner and the same operator. Land with different owners may be considered to be a farm if all the land is operated by one person and additional criteria are met. A farm is typically administered in the FSA county office where the farm is physically located. A farm can be transferred from the physical location county office if the principal dwelling of the farm operator has changed, a change has occurred in the operation of the land, or there has been a change that would cause the receiving administrative county office to be more accessible. FSA-179, "Transfer of Farm Record between Counties," is used as the request for a farm transfer from one county to another initiated by the producer.

Need and Use of the Information: The information collected on the FSA-179 is collected only if a farm transfer is being requested and is collected in a face-to-face setting with county office personnel. The information is used by county office employees to document which farm is being transferred, what county it is being transferred to, and why it is being transferred. The FSA-179 assists county committees in determining why the farm transfer is being requested and that it is not being requested for the purpose of increased program benefits, avoiding payment reductions, establishing eligibility to transfer base acres, or for circumventing any other programs provision. Without the information county offices will be unable to determine whether the producer desires to transfer a farm.

Description of Respondents: Farms.

Number of Respondents: 21,240.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 3,540.

Ruth Brown,

Departmental Information Collection Clearance Officer.

Food Safety and Inspection Service

[Docket No. FSIS-2020-0016]

Availability of FSIS Import Guidance

AGENCY: Food Safety and Inspection Service, Agriculture (USDA).

ACTION: Notice of availability and response to comments.

SUMMARY: In July 2017, FSIS published and requested comment on guidance for

importing meat, poultry, and egg products into the United States. FSIS is announcing updates to this guidance and responding to comments received on the guidance. FSIS intends for this guidance to help U.S. importers, customs brokers, official import inspection establishments, and other interested persons understand and comply with FSIS import requirements. The guidance represents current FSIS thinking, and FSIS will update it as necessary to reflect comments received and any additional information that becomes available.

ADDRESSES: A downloadable version of the FSIS import guidance is available to view and print at <https://www.fsis.usda.gov/wps/portal/fsis/topics/regulatory-compliance/guidelines>. No hard copies of the compliance guideline have been published.

FOR FURTHER INFORMATION CONTACT:

Rachel Edelstein, Assistant Administrator, Office of Policy and Program Development by telephone at (202) 205-0495.

SUPPLEMENTARY INFORMATION:

Background

The U.S. Department of Agriculture's (USDA) Food Safety and Inspection Service (FSIS) is the public health regulatory agency responsible for ensuring that domestic and imported meat, poultry, and egg products are safe, wholesome, and correctly labeled and packaged. FSIS inspects imported meat, poultry, and egg products under the authority of the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451 *et seq.*), and the Egg Products Inspection Act (EPIA) (15 U.S.C. 1031 *et seq.*). Imported meat, poultry, and egg products must originate from eligible countries and from establishments or plants (for egg products) that are certified to export to the United States (21 U.S.C. 620, 466, and 1046). A country becomes eligible following an equivalence determination process completed by FSIS in coordination with the country's central competent authority (CCA). Foreign establishments or plants become eligible when the CCA certifies to FSIS that the establishments or plants meet requirements that are equivalent to FSIS requirements. All imported shipments of meat, poultry, and egg products must be presented to FSIS for inspection, with certain exceptions, as detailed in the guidance (*i.e.*, a meat, poultry, or dried egg products shipment that does not exceed 50 pounds, or a liquid egg products shipment that does not exceed
