### Federal Energy Regulatory Commission

[Docket Nos. CP14–347–000; CP19–19–000; CP14–511–000]

#### Magnolia LNG, LLC; Kinder Morgan Louisiana Pipeline LLC; Notice of Request for Extension of Time

Take notice that on September 11, 2020, Magnolia LNG, LLC (Magnolia) and Kinder Morgan Louisiana Pipeline LLC (KMLP) (collectively, Applicants) requested that the Federal Energy Regulatory Commission (Commission) grant an extension of time, until April 15, 2026, to construct and place into service the Magnolia LNG and Lake Charles Expansion Projects, as authorized in the April 15, 2016 Order Granting Authorization Under Section 3 of the Natural Gas Act and Issuing Certificates (April 15, 2016, Order).<sup>1</sup> The April 15th Certificate Order required the Applicants to complete construction and make the facilities available for service within five years of issuance, or by April 15, 2021.<sup>2</sup>

Magnolia states that global market conditions have impacted Magnolia's ability to secure long-term offtake contracts and achieve a final investment decision (FID) and that it is confident that it will execute commercial agreements that will support a positive FID within the requested timeframe. KMLP states that construction of the Lake Charles Expansion Project is dependent upon Magnolia achieving FID for the Magnolia LNG Project.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on the Applicants' request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10).<sup>3</sup>

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for Natural Gas Act facilities when such requests are contested before order issuance. For those extension requests that are contested,<sup>4</sup> the Commission will aim to issue an order acting on the request within 45 days.<sup>5</sup> The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.<sup>6</sup> The Commission will not consider arguments that re-litigate the issuance of the April 15th Certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act.<sup>7</sup> At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.<sup>8</sup> The OEP Director, or his or her designee, will act on those extension requests that are uncontested.
