

taken; and (3) supplemental information requested by the Commission or Bureau with respect to a certification.

Needs and Uses: This is a renewal of an information collection necessary to ensure that all Americans have access to reliable and resilient 911 communications, particularly in times of emergency, by requiring certain 911 service providers to certify implementation of key best practices or reasonable alternative measures. The information will be collected in the form of an electronically-filed, annual certification from each covered 911 service provider, as defined in the Commission’s 2013 *Report and Order*, in which the provider will indicate whether it has implemented certain industry-backed best practices. Providers that are able to respond in the affirmative to all elements of the certification will be deemed to satisfy the “reasonable measures” requirement in Section 9.19(b) of the Commission’s rules. If a provider does not certify in the affirmative with respect to one or more elements of the certification, it must provide a brief explanation of what alternative measures it has taken, in light of the provider’s particular facts and circumstances, to ensure reliable 911 service with respect to that element(s). Similarly, a service provider may also respond by demonstrating that a particular certification element is not applicable to its networks and must include a brief explanation of why the element(s) does not apply.

The information will be collected by the Public Safety and Homeland Security Bureau, FCC, for review and analysis, to verify that covered 911 service providers are taking reasonable measures to maintain reliable 911 service. In certain cases, based on the information included in the certifications and subsequent coordination with the provider, the Commission may require remedial action to correct vulnerabilities in a service provider’s 911 network if it determines that (a) the service provider has not, in fact, adhered to the best practices incorporated in the FCC’s rules, or (b) in the case of providers employing alternative measures, that

those measures were not reasonably sufficient to mitigate the associated risks of failure in these key areas. The Commission delegated authority to the Bureau to review certification information and follow up with service providers as appropriate to address deficiencies revealed by the certification process.

The purpose of the collection of this information is to verify that covered 911 service providers are taking reasonable measures such that their networks comply with accepted best practices, and that, in the event they are not able to certify adherence to specific best practices, that they are taking reasonable alternative measures. The Commission adopted these rules in light of widespread 911 outages during the June 2012 derecho storm in the Midwest and Mid-Atlantic states, which revealed that multiple service providers did not take adequate precautions to maintain reliable service.

FEDERAL DEPOSIT INSURANCE CORPORATION

[OMB No. 3064–0092; and 0198]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Federal Deposit Insurance Corporation (FDIC).

ACTION: Agency Information Collection Activities: Submission for OMB Review; comment request.

SUMMARY: The FDIC, as part of its obligations under the Paperwork Reduction Act of 1995, invites the general public and other Federal agencies to take this opportunity to comment on the renewal of the existing information collections described below. The FDIC published notices in the **Federal Register** requesting comment for 60 days on a proposal to

renew these information collections. No comments were received. The FDIC hereby gives notice of its plan to submit to OMB a request to approve the renewal of these information collections, and again invites comment on the renewal.

DATES: Comments must be submitted on or before October 26, 2020.

ADDRESSES: Interested parties are invited to submit written comments to the FDIC by any of the following methods:

- <https://www.FDIC.gov/regulations/laws/federal>.
- *Email:* comments@fdic.gov. Include the name and number of the collection in the subject line of the message.
- *Mail:* Manny Cabeza, Regulatory Counsel, MB–3128, Federal Deposit Insurance Corporation, 550 17th Street NW, Washington, DC 20429.
- *Hand Delivery:* Comments may be hand-delivered to the guard station at the rear of the 17th Street NW building (located on F Street), on business days between 7:00 a.m. and 5:00 p.m.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

General Description of Collection: The Community Reinvestment Act regulation requires the FDIC to assess the record of banks and thrifts in helping meet the credit needs of their entire communities, including low- and moderate-income neighborhoods, consistent with safe and sound operations; and to take this record into

account in evaluating applications for mergers, branches, and certain other corporate activities.

There is no change in the method or substance of the collection. The overall decrease in burden hours is a result of the decrease in the estimated number of respondents.

2. *Title:* Generic Information Collection for Qualitative Research.
OMB Number: 3064–0198.

Affected Public: General public including FDIC insured depository institutions.

Burden Estimate:

SUMMARY OF ANNUAL BURDEN

Information collection description	Type of burden	Obligation to respond	Estimated number of respondents	Estimated frequency of responses	Estimated time per response (minutes)	Estimated annual burden (hours)
Occasional Qualitative Surveys	Reporting	Voluntary	500	20	60	10,000

Total Estimated Annual Burden: 10,000 hours.

General Description of Collection: The FDIC is requesting renewal of this approved collection to use occasional qualitative surveys to gather information from the public to inform qualitative research. While the subject and nature of the surveys to be deployed under this information collection are yet to be determined, based on prior experience it is expected that the number or respondents will range from a few to, at times, several thousands, but, in general, these surveys are expected to involve an average of 500 respondents. Likewise, the time to respond to the surveys can range from a few minutes to several hours, but, it is expected that the average time to respond to a survey is approximately one hour. These surveys are completely voluntary in nature. FDIC estimates that approximately 20 such surveys will be conducted in any given year.

Currently, the FDIC has a variety of methods to collect quantitative information from consumers and institutions (e.g., Call Reports, FDIC National Survey of Unbanked and Underbanked Households, etc.). Qualitative data would provide complementary information on insights, opinions, and perceptions that will inform how the FDIC approaches its mission to safeguard financial stability of the banking system and promote consumer protection and economic inclusion. This clearance would allow the FDIC to engage with consumers and other relevant stakeholders through qualitative research methods such as focus groups, in-depth interviews, cognitive testing, and/or qualitative virtual methods.

The purpose of the surveys is, in general terms, to obtain anecdotal information about regulatory burden, problems or successes in the bank supervisory process (including both safety-and-soundness and consumer-related exams), the perceived need for regulatory or statutory change, and similar concerns. The information in these surveys is anecdotal in nature, that is, samples are not necessarily random, the results are not necessarily representative of a larger class of potential respondents, and the goal is not to produce a statistically valid and

reliable database. Rather, the surveys are expected to yield anecdotal information about the particular experiences and opinions of members of the public, primarily staff at respondent banks or bank customers. The collection is non-controversial and does not raise issues of concern to other Federal agencies; with the exception of information needed to provide remuneration for participants of focus groups and cognitive laboratory studies, personally identifiable information (PII) is collected only to the extent necessary and is not retained.

Participation in this information collection will be voluntary and conducted in-person, by phone, or using other methods, such as virtual technology. The types of collections that this generic clearance covers include, but are not limited to: small discussion groups; focus groups of consumers, financial industry professionals, or other stakeholders; cognitive laboratory studies, such as those used to refine questions or assess usability of a website; qualitative customer satisfaction surveys (e.g., post-transaction surveys; opt-out web surveys); and in-person observation testing (e.g., website or software usability tests).

Request for Comment

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the FDIC's functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collection, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
