DEPARTMENT OF HOMELAND SECURITY

Customs and Border Protection

Modification of Test Program Regarding Electronic Foreign Trade Zone Admission Applications

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: General notice.

SUMMARY: This document announces modifications to U.S. Customs and Border Protection's (CBP's) test program

for submitting electronic Foreign Trade Zone (FTZ) admission applications. Specifically, this notice announces that the zone identification number is being expanded from seven to nine digits and that test participants will now have the ability to submit "replace" requests to modify parts of an admission while retaining the original filing date, submit post-admission correction requests, and cancel permit to transfer transactions. Further, for ease of reference, this notice also reproduces the current test requirements in full.

DATES: As of September 26, 2020, the modifications to the test announced in this notice, with the exception of the expanded nine-digit zone identification number, will become operational. The expanded zone identification number will be implemented as of January 25, 2021. This test will continue until concluded by way of announcement in the **Federal Register**.

ADDRESSES: Comments concerning this notice and any aspect of this test may be submitted at any time during the test via email to Cargo & Conveyance Security, Office of Field Operations, U.S. Customs and Border Protection, at FTZe214Test@cbp.dhs.gov, with a subject line identifier reading "Comment on Electronic FTZ Admission Application FRN."

FOR FURTHER INFORMATION CONTACT: For operational questions, contact Lydia Jackson, Cargo & Conveyance Security, Office of Field Operations, U.S. Customs and Border Protection, at 202–344–3055 or FTZe214Test@cbp.dhs.gov. For technical questions, contact Arnold Buratty, Cargo Systems Program Directorate, Office of Information and Technology, U.S. Customs and Border Protection, at 571–468–5309 or Arnold.Buratty@cbp.dhs.gov.

SUPPLEMENTARY INFORMATION:

I. Background

A. National Customs Automation Program Test

The National Customs Automation Program (NCAP) was established by Subtitle B of Title VI—Customs Modernization in the North American Free Trade Agreement (NAFTA) Implementation Act (Customs Modernization Act) (Pub. L. 103–182, 107 Stat. 2057, 2170, December 8, 1993) (19 U.S.C. 1411). Through NCAP, the thrust of customs modernization was on trade compliance and the development of the Automated Commercial Environment (ACE), the planned successor to the Automated Commercial System (ACS), as the electronic data interchange (EDI) system authorized by

U.S. Customs and Border Protection (CBP). ACE is an automated and electronic system for commercial trade processing, which is intended to streamline business processes, facilitate growth in trade, ensure cargo security, and foster participation in global commerce, while ensuring compliance with U.S. laws and regulations and reducing costs for CBP and all of its communities of interest. The ability to meet these objectives depends on successfully modernizing CBP's business functions and the information technology that supports those functions.

CBP's modernization efforts are accomplished through phased releases of ACE component functionality designed to replace specific legacy ACS functions and add new functionality. Section 101.9(b) of title 19 of the Code of Federal Regulations (19 CFR 101.9(b)) provides for the testing of NCAP components. See T.D. 95–21, 60 FR 14211 (March 16, 1995).

B. Electronic Foreign Trade Zone (FTZ) Admission Application Test

On August 19, 2005, CBP published a notice in the Federal Register (70 FR 48774) announcing an NCAP test concerning the electronic submission of FTZ admission data. The test notice provided that participants would electronically submit data contained in the "Application for Foreign-Trade Zone Admission and/or Status Designation" (CBP Form 214; the electronic version of the form is referred to as e214). The notice described the test program in detail, identified the regulatory provisions suspended for the test, and set forth the test commencement date as no earlier than September 30, 2005, with a test period of approximately 6 months. The test notice also set forth the prototype procedures and listed the required data elements that must be provided to CBP when filing an electronic FTZ admission application. Participants were required to participate in an evaluation of this test to take place at the end of the 6-month period.

Due to low participation in the test program and insufficient data collected, CBP announced that the test would be run again, in the **Federal Register** (72 FR 14128) on March 26, 2007. The newly announced test program was intended to encourage greater participation by the trade and thereby provide more meaningful data to CBP to assess the feasibility of implementing the test program on a permanent basis. CBP made certain clarifications regarding required data elements and announced that ACE would be the only
