Federal Register

Vol. 85, No. 188

Monday, September 28, 2020

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

September 23, 2020.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by October 28, 2020 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Food and Nutrition Service

Title: WIC Breastfeeding Award of Excellence.

OMB Control Number: 0584–0591.

Summary of Collection: The Healthy, Hunger-Free Kids Act of 2010 (HHFKA) (Pub. L. 111–296, Sec 231) requires the U.S. Department of Agriculture (USDA) to implement a program to recognize exemplary breastfeeding support practices at Women, Infants, and Children (WIC) local agencies and clinics. The WIC program, of which the breastfeeding award of excellence is a part, is authorized by the Child Nutrition Act of 1966 (42 U.S.C. 1787). The award program for breastfeeding excellence was originally titled the Loving Support Award of Excellence, consistent with the former WIC breastfeeding campaign, Loving Support Makes Breastfeeding Work. In 2018, the WIC breastfeeding campaign was updated and rebranded as WIC Breastfeeding Support so the name of the award program was changed as well.

Need and Use of the Information: While HHFKA mandates that the USDA provide a program to recognize exemplary breastfeeding support practices, it is voluntary for the WIC local agencies and clinics to apply for an award. Information is collected from the WIC local agencies to apply for an award and used by the WIC state agencies to evaluate the applications. The award application period is open once annually, and has been designed to allow local WIC agencies at different stages of progress in breastfeeding promotion and support program development to apply for an award. The information collection will meet the HHFKA requirement to implement a program to recognize exemplary breastfeeding support practices at WIC local agencies and clinics. The information collected through this program will be used to evaluate components of existing breastfeeding programs and support within WIC local agencies, to recognize local WIC agencies that provide exemplary breastfeeding programs and support services, and to provide examples of model programs to motivate local agencies and clinics to strengthen their breastfeeding promotion and support activities.

Description of Respondents: State, Local, or Tribal Government.

Number of Respondents: 269.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 574.

Ruth Brown,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

September 23, 2020.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by October 28, 2020 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to

the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: National Veterinary Accreditation Program Application Form.

OMB Control Number: 0579–0297.

Summary of Collection: The Animal Health Protection Act, (APHA) of 2002 is the primary Federal law governing the protection of animal health. The APHA is contained in 7 U.S.C. 8301, *et. seq.*, and were created the Farm Security and Rural Investment Act of 2002. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. The Animal and Plant Health Inspection Service (APHIS) is the agency charged with carrying out this disease prevention mission. For APHIS to conduct all its disease prevention tasks, it utilizes APHIS-certified private veterinarians to work cooperatively with Federal and State animal health authorities on the Agency's behalf. These veterinarians obtain their certification through the APHIS National Veterinary Accreditation Program (NVAP) which has an application and renewal process.

Need and Use of the Information: APHIS will use VS form 1–36A, National Veterinary Accreditation Program Application Form to collect information to certify private veterinarians to work Federal and State animal health authorities to prevent disease and carry out disease surveillance on USDA's behalf. Applicants may appeal denial, revocation, or suspension of accredited status. The written appeal is prepared in letter format and signed by the denied veterinarian. If information from accredited veterinarians was collected less frequently or not collected, APHIS would lose access to professional and demographic data for more than 100,000 cooperators, and APHIS coverage of veterinary, plant, and agricultural activities would be proportionately reduced.

Description of Respondents: Business or other for-profit.

Number of Responses: 23,800.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 11,901.

Animal and Plant Health Inspection Service

Title: Phytophthora Ramorum; Quarantine and Regulations.

OMB Control Number: 0579–0310.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture, either independently or in cooperation with the States, is authorized to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pest new to the United States or not widely distributed throughout the United States. Under "Subpart X—Phytophthora Ramorum" (7 CFR 301.92 through 301.92–12, referred to as the regulation), USDA's Animal and Plant Health Inspection Service (APHIS) restricts the interstate movement of certain regulated and restricted articles from quarantined areas and regulated establishments to prevent the artificial spread of *Phytophthora ramorum*, the pathogen that causes the plant disease commonly known as sudden oak death, ramorum leaf blight, and ramorum dieback.

Need and Use of the Information: To control the spread of *P. ramorum*, APHIS enters into a compliance agreement with State plant health agencies and businesses, conducts inspections of facilities and records, and requires plant testing. It also issues emergency action notifications. Without these activities, *P. ramorum* would potentially spread to unaffected forests, adversely impacting the ecosystem balances, foreign/domestic nursery stocks, and lumber markets.

Description of Respondents: State plant health officials; Business or other for-profit.

Number of Respondents: 43.

Frequency of Responses: Reporting; Recordkeeping: On occasion.

Total Burden Hours: 224.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

September 23, 2020.

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13 on or after the date of publication of this notice. Comments are requested regarding: (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding these information collections are best assured of having their full effect if received by October 28, 2020. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service (NASS)

Title: Agricultural Resource Management and Chemical Use Surveys—Substantive Change.

OMB Control Number: 0535–0218.

Summary of Collection: General authority for these data collection activities is granted under U.S. Code Title 7, Section 2204 which specifies that "The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain . . . by the collection of statistics . . .". The primary objective of the National Agricultural Statistics Service (NASS) is to provide data users with timely and reliable agricultural production and economic statistics, as well as environmental and specialty agricultural related statistics. To accomplish this objective, NASS relies on the use of diverse surveys that show changes within the farming industry over time.

Using the Agricultural Resource Management Survey (ARMS) and the Vegetable Chemical Use Survey, NASS collects environmental data, which
