SUPPLEMENTARY INFORMATION: On June 3, 2020, the U.S. Copyright Office issued a notice of inquiry ("NOI") commencing a policy study on state sovereign immunity from copyright infringement suits.1 Congress has requested that the Office "research this issue to determine whether there is sufficient basis for federal legislation abrogating State sovereign immunity when States infringe copyrights." ² To assist Congress in making that assessment, the Office solicited public comment on several issues concerning the degree to which copyright owners face infringement from state actors today, whether such infringement is based on intentional or reckless conduct, and what remedies, if any, are available to copyright owners under state law.

On June 24, 2020, the Office issued an additional notice providing for a second round of written comments to permit interested parties the opportunity to address any comments submitted in response to the NOI and to allow parties engaged in empirical research to complete and submit their findings.³ To ensure that members of the public have sufficient time to comment, and to ensure that the Office has the benefit of

a complete record, the Office is extending the deadline for the submission of additional comments and/or empirical research to 11:59 p.m. Eastern Time on October 22, 2020.

Notice of Permit Modification Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation. **ACTION:** Notice of permit modification request received and permit issued.

SUMMARY: The National Science
Foundation (NSF) is required to publish
a notice of requests to modify permits
issued to conduct activities regulated
and permits issued under the Antarctic
Conservation Act of 1978. NSF has
published regulations under the
Antarctic Conservation Act in the Code
of Federal Regulations. This is the
required notice of a requested permit
modification and permit issued.

FOR FURTHER INFORMATION CONTACT:

Nature McGinn, ACA Permit Officer, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; 703– 292–8224; email: ACApermits@nsf.gov.

SUPPLEMENTARY INFORMATION: The National Science Foundation (NSF), as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95–541, 45 CFR 671), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas a requiring special protection.

NSF issued a permit (ACA 2016–020) to Laura K.O. Smith, Owner, Operator Quixote Expeditions, on December 23, 2015. The issued permit allows the permit holder to conduct waste management activities associated with the operation of the "Ocean Tramp," a reinforced ketch rigged sailing yacht in the Antarctic Peninsula region. Activities to be conducted by Quixote include: Passenger landings, hiking, photography, wildlife viewing, and possible station visits.

A modification to this permit, dated November 22, 2017, permitted coastal camping activities in select locations and resupply of fresh food to the Quixote Expeditions vessel as part of fly/cruise operations. Another modification, dated November 6, 2018, allowed the permit holder to add a

second vessel to support Quixote Expeditions activities, to conduct shipto-ship fuel transfers, to release comminuted food waste (excepting poultry) at sea, and to operate a remotely piloted aircraft for educational and commercial purposes. A recent modification to this permit, dated November 20, 2019, permitted the conduct waste management activities similar to prior seasons during the 2019–2020 field season.

On September 17, 2020, the permit holder submitted an update of provided NSF an update based on planned activities for the 2020–2021 field season and to request an extension of the permit expiration date. Quixote's proposed activities are similar as those detailed in the original permit and earlier modifications. The Environmental Officer has reviewed the modification request and has determined that the amendment is not a material change to the permit, and it will have a less than a minor or transitory impact.

Dates of Permitted Activities: September 23, 2020–March 30, 2021. The permit modification was issued on September 23, 2020.
