

NMFS is providing notification that the agency is not identifying additional fisheries to observe on the 2021 AD, pursuant to its authority under the ESA. NMFS is not identifying additional fisheries at this time given lack of dedicated resources to implement new observer programs or expand existing observer programs to focus on sea turtles. The two fisheries identified on the 2018 AD (see Table 1) will remain on the AD for a 5-year period and are therefore required to carry observers upon NMFS' request until December 31, 2022. The four fisheries identified on the 2020 AD (see Table 1) will remain on the AD for a 5-year period and are therefore required to carry observers upon NMFS' request until September 29, 2025.

TABLE 1—STATE AND FEDERAL COMMERCIAL FISHERIES INCLUDED ON THE 2018 AND 2020 ANNUAL DETERMINATIONS

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

The Patent Law Treaties Implementation Act of 2012 (PLTIA)

amends the patent laws to implement the provisions of the Geneva Act of the Hague Agreement Concerning International Registration of Industrial Designs (hereinafter “Hague Agreement”) in title 1, and the Patent Law Treaty (PLT) in title 2. The Hague Agreement is an international agreement that enables an applicant to file a single international design application which may have the effect of an application for protection for the design(s) in countries and/or intergovernmental organizations that are Parties to the Hague Agreement (the “Contracting Parties”) designated in the applications. The United States is a Contracting Party to the Hague Agreement, which took effect with respect to the United States on May 13, 2015. The Hague Agreement is administered by the International Bureau (IB) of World Intellectual Property Organization (WIPO) located in Geneva, Switzerland.

This collection covers information filed by U.S. applicants for the prosecution of international design applications “indirectly” through the United States Patent and Trademark Office (USPTO), which will forward the applications to the IB or “directly” with the IB. The IB ascertains whether the international design application complies with formal requirements, registers the international design in the International register, and publishes the international registration in the International Designs Bulletin. The international registration contains all of the data of the international application, any reproduction of the industrial design, date of the international registration, number of the international registration, and relevant class of the International Classification.

The IB will provide a copy of the publication of the international registration to each Contracting party designated by the applicant. A designated Contracting Party may perform a substantive examination of the design application. The USPTO will perform a substantive examination for patentability of the international design application, as in the case of regular U.S. design applications. The industrial design or designs will be eligible for protection in all the Contracting Parties designated by applicants.

In addition, this collection covers the various fees related to the processing of International design applications, such as the: (1) Basic fee; (2) standard designation fee(s); (3) individual designation fee(s); and (4) publication fee. Also, an additional fee is required where the applications contain a description that exceeds 100 words, and a transmittal fee is required for

international design applications filed through an office of indirect filing. The fees required by the IB may be paid either directly to the IB or through the USPTO as an office of indirect filing in the amounts specified on the WIPO website. If applicants want to pay the required fees through USPTO as an office of indirect filing, the fees must be paid no later than the date of payment of the transmittal fee. The fees will then be forwarded to the IB.

The Hague Agreement enables applicants from Contracting Parties to obtain protection of their designs with minimal formalities and expenses in multiple countries and/or regions. The Hague Agreement is administered by the IB, which simplifies the management of an industrial design registration. For example, through the IB, applicants can record changes of their representatives or changes in ownership, and renew their international registration.

**II. Method of Collection**

Most of the items in this information collection can either be submitted electronically through Electronic Filing

System-Web (EFS-Web) or mailed to the USPTO.

**III. Data**

Type of Review: Revision of a currently approved information collection.

Affected Public: Private sector; individuals and households.

Estimated Number of Respondents: 1,406 respondents per year.

Estimated Number of Responses: 1,706 responses per year.

Estimated Time per Response: The USPTO estimates that it will take the public between 15 minutes (0.25 hours) and 6 hours to complete a response, depending upon the complexity of the situation. This includes the time to gather the necessary information, prepare the appropriate documents, and submit the completed request to the USPTO.

Estimated Total Response Burden Hours: 2,301 hours.

Estimated Total Annual Respondent (Hourly) Cost Burden: \$1,279,400.

The USPTO estimates that around 20% (31) of the respondents that file international design applications through the USPTO as an office of indirect filing designate the United States for design protection. The costs for preparing the drawings associated with these applications are estimated to be \$400 per application. Overall the costs associated with submitting these drawing are estimated to be \$12,400.

Although the USPTO prefers that the items in this information collection be submitted electronically, the items may be submitted by mail through the United States Postal Service (USPS). The USPTO estimates that the average postage cost for a mailed submission, using a Priority Mail 2-day flat rate legal envelope, will be \$8.05. The USPTO estimates that 1 paper submission will be mailed annually.

The USPTO estimates that the total annual (non-hour) respondent cost burden for this information collection in the forms of filing fees, drawing costs, and postage costs is estimated to be approximately \$3,389,280 per year (\$3,376,872 in filing fees, \$12,400 in drawing costs, and \$8 in postage costs).

*Respondents's Obligation:* Required to obtain or retain benefits.

**IV. Request for Comments**

The USPTO is soliciting public comments to:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including

whether the information will have practical utility;

(b) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected; and

(d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

All comments submitted in response to this notice are a matter of public record. USPTO will include or summarize each comment in the request to OMB to approve this information collection. Before including an address, phone number, email address, or other personal identifying information in a comment, be aware that the entire comment—including personal identifying information—may be made publicly available at any time. While you may ask in your comment to withhold personal identifying information from public view, USPTO

cannot guarantee that it will be able to do so.
