### III. Submission Instructions

All submissions must be in English and sent electronically via *Regulations.gov*. To submit comments, locate the docket (folder) by entering the docket number USTR–2020–0035 in the ‘Enter Keyword or IP’ window at the *Regulations.gov* homepage and click ‘search.’ The site will provide a search-results page listing all documents associated with this docket. Locate the reference to this notice by selecting ‘notice under ‘document type’ on the left side of the search-results page, and click on the link entitled ‘comment now!’ You should provide comments in an attached document, and name the file according to the following protocol, as appropriate: Commenter Name or Organization\_2020 Notorious Markets. Please include the following information in the ‘type comment’ field: 2020 Review of Notorious Markets for Counterfeiting and Piracy. USTR prefers submissions in Microsoft Word (.docx) or Adobe Acrobat (.pdf) format. If the submission is in another file format, please indicate the name of the software application in the ‘type comment’ field. For further information on using *Regulations.gov*, please select ‘how to use Regulations.gov’ on the bottom of any page.

Please do not attach separate cover letters to electronic submissions. Instead, include any information that might appear in a cover letter in the comments themselves. Similarly, to the extent possible, please include any exhibits, annexes, or other attachments in the same file as the comment itself, rather than submitting them as separate files.

For any comment submitted electronically that contains business

confidential information (BCI), the file name of the business confidential version should begin with the characters ‘BCI’. Any page containing BCI must be clearly marked “BUSINESS CONFIDENTIAL” on the top of that page and the submission should clearly indicate, via brackets, highlighting, or other means, the specific information that is business confidential. A filer requesting business confidential treatment must certify that the information is business confidential and that they would not customarily release it to the public. Additionally, the submitter should type ‘Business Confidential 2020 Review of Notorious Markets for Counterfeiting and Piracy’ in the ‘comment’ field.

Filers of comments containing BCI also must submit a public version of their comments. The file name of the public version should begin with the character ‘P’. The non-business confidential version will be placed in the docket at *Regulations.gov* and be available for public inspection.

As noted, USTR strongly urges submitters to file comments through *Regulations.gov*. You must make any alternative arrangements in advance of the relevant deadline and before transmitting a comment by contacting Jacob Ewerdt at *Notorious Markets@ustr.eop.gov* or (202) 395–4510 before transmitting a comment and in advance of the relevant deadline.

USTR will post comments in the docket for public inspection, except properly designated BCI. You can view comments on *Regulations.gov* by entering docket number USTR–2020–0035 in the search field on the home page.

### Federal Aviation Administration

#### Burlington International Airport, South Burlington VT; FAA Approval of Noise Compatibility Program

**AGENCY:** Federal Aviation Administration, DOT.

**ACTION:** Notice.

---

**SUMMARY:** The Federal Aviation Administration (FAA) announces its findings on the noise compatibility program submitted by the City of

Burlington, Vermont under the provisions of Title I of the Aviation Safety and Noise Abatement Act of 1979 and FAA regulations. These findings are made in recognition of the description of federal and non-federal responsibilities in Senate Report No. 96–52 (1980). On August 27, 2020, the Airports Division Manager approved the Burlington International Airport noise compatibility program. All of the proposed program elements were approved.

**DATES:** The date of the FAA’s approval of the Burlington International Airport noise compatibility program is August 27, 2020.

**FOR FURTHER INFORMATION CONTACT:** Richard Doucette, Federal Aviation Administration, New England Region, Airports Division, 1200 District Avenue, Burlington, Massachusetts 01803, Telephone (781) 238–7613, Email: *richard.doucette@faa.gov*.

Documents reflecting this FAA action may be obtained from the same individual. The Noise Compatibility Plan and supporting information can also be found at *www.btvsound.com*.

**SUPPLEMENTARY INFORMATION:** This notice announces that the FAA has given its overall approval to the Burlington International Airport noise compatibility program, effective August 27, 2020.

Under Section 104 (a) of the Aviation Safety and Noise Abatement Act of 1979 (hereinafter the Act), an airport operator who has previously submitted a noise exposure map may submit to the FAA a noise compatibility program which sets forth the measures taken or proposed by the airport operator for the reduction of existing non-compatible land uses and prevention of additional non-compatible land uses within the area covered by the noise exposure maps.

The Act requires such programs to be developed in consultation with interested and affected parties including local communities, government agencies, airport users, and FAA personnel.

Each airport noise compatibility program developed in accordance with 14 CFR part 150 is a local program, not a federal program. The FAA does not substitute its judgment for that of the airport proprietor with respect to which measures should be recommended for action. The FAA’s approval or disapproval of the Part 150 program recommendations is measured according to the standards expressed in Part 150 and the Act, and is limited to the following determinations:

(a) The noise compatibility program was developed in accordance with the provisions and procedures of FAR Part 150;

(b) Program measures are reasonably consistent with achieving the goals of reducing existing non-compatible land uses around the airport and preventing the introduction of additional non-compatible land uses;

(c) Program measures would not create an undue burden on interstate or foreign commerce, unjustly discriminate against types or classes of aeronautical uses, violate the terms of airport grant agreements, or intrude into areas preempted by the federal government; and

(d) Program measures relating to the use of flight procedures can be implemented within the period covered by the program without derogating safety, adversely affecting the efficient use and management of the navigable airspace and air traffic control systems, or adversely affecting other powers and responsibilities of the Administrator as prescribed by law.

Specific limitations with respect to FAA's approval of an airport noise compatibility program are delineated in Part 150, Section 150.5. Approval is not a determination concerning the acceptability of land uses under Federal, state, or local law. Approval does not by itself constitute a FAA implementing action. A request for Federal action or approval to implement specific noise compatibility measures may be required, and an FAA decision on the request may require an environmental assessment of the proposed action.

Approval does not constitute a commitment by the FAA to financially assist in the implementation of the program nor a determination that all measures covered by the program are eligible for grant-in-aid funding from the FAA under the Airport and Airway Improvement Act of 1982. Where Federal funding is sought, requests for project grants must be submitted to the FAA Regional Office in Burlington, Massachusetts.

The Burlington International Airport study contains a proposed noise compatibility program comprised of actions designed for implementation by airport management and adjacent jurisdictions from the date of study completion to beyond the year 2011. The Burlington International Airport, South Burlington, Vermont requested that the FAA evaluate and approve this material as a noise compatibility program as described in Section 104 (b) of the Act. The FAA began its review of the program on April 15, 2020, and was required by a provision of the Act to

approve or disapprove the program within 180 days (other than the use of new flight procedures for noise control). Failure to approve or disapprove such a program within the 180-day period shall be deemed to be an approval of such a program.

The submitted program contained 9 noise mitigation measures, including 2 to be removed. The FAA completed its review and determined that the procedural and substantive requirements of the Act and Part 150 have been satisfied. The Airports Division Manager therefore approved the program effective August 27, 2020.

All 7 recommended measures were approved, and 2 recommended for removal were approved for removal. The new program will de-emphasize land acquisition in lieu of sound insulation, as the primary noise mitigation measure.

FAA's determinations are set forth in detail in a Record of Approval endorsed by the Airports Division Director on August 27, 2020. The Record of Approval, as well as other evaluation materials and the documents comprising the submittal, are available for review at the FAA office listed above and at the administrative offices of Burlington International Airport, South Burlington, Vermont.

Issued in Burlington, Massachusetts on August 27, 2020.

*Airports Division Deputy Director, FAA New England Region.*
