## FARM CREDIT ADMINISTRATION

### Sunshine Act Meeting; Farm Credit Administration Board

**AGENCY:** Farm Credit Administration.

**ACTION:** Notice, Regular Meeting.

**SUMMARY:** Notice is hereby given, pursuant to the Government in the Sunshine Act, of the forthcoming regular meeting of the Farm Credit Administration Board.

**DATES:** The regular meeting of the Board will be held October 8, 2020, from 9:00 a.m. until such time as the Board may conclude its business. *Note: Because of the COVID-19 pandemic, we will conduct the board meeting virtually. If you would like to observe the open portion of the virtual meeting, see instructions below for board meeting visitors.*

**Attendance:** To observe the open portion of the virtual meeting, go to [FCA.gov](http://FCA.gov), select “Newsroom,” then “Events.” There you will find a description of the meeting and a link to “Instructions for board meeting visitors.” See **SUPPLEMENTARY INFORMATION** for further information about attendance requests.

**FOR FURTHER INFORMATION CONTACT:** Dale Aultman, Secretary to the Farm Credit Administration Board (703) 883-4009. TTY is (703) 883-4056.

**SUPPLEMENTARY INFORMATION:** Parts of his meeting of the Board will be open

to the public, and parts will be closed. If you wish to observe the open part, follow the instructions above in the “Attendance” section at least 24 hours before the meeting. If you need assistance for accessibility reasons or if you have any questions, contact Dale Aultman, Secretary to the Farm Credit Administration Board, at (703) 883-4009. The matters to be considered at the meeting are as follows:

#### Open Session

##### A. Approval of Minutes

- September 10, 2020

##### B. Reports

- *SOFR vs LIBOR: Key Differences and Resulting Challenges for a LIBOR Transition*

#### Closed Session

- Office of Secondary Market Oversight Periodic Report <sup>1</sup>

Dated: September 29, 2020.

**Dale Aultman,**

Secretary, Farm Credit Administration Board.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[30Day-20-20IT]

#### Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled Understanding Long-term Respiratory Morbidity in Former Styrene-Exposed Workers: Medical Survey to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on February 28, 2020 to obtain comments from the public and affected agencies. CDC received one public comment related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

<sup>1</sup> Session Closed-Exempt provisions to 5 U.S.C. Section 552b(c)(8) and (9).

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain) Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

#### Proposed Project

Understanding Long-term Respiratory Morbidity in Former Styrene-Exposed Workers: Medical Survey—New—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

#### Background and Brief Description

Styrene is used in the production of automobile parts, boats, computer housings, food containers, wind energy components, and many other products. An estimated 90,000 U.S. workers are potentially exposed to styrene at more than 5,000 U.S. manufacturing plants. Occupational exposure to styrene has been associated with deleterious health effects, including changes in color vision, mucous membrane irritation, hearing loss, and neurocognitive impairment. Workplace exposure to

styrene has also been associated with cases of non-malignant respiratory disease (NMRD), including COPD and obliterative bronchiolitis. However, little is understood about the long-term respiratory effects on styrene-exposed workers.

The goal of this project is to understand the prevalence of long-term respiratory morbidity in styrene-exposed workers. The objectives of the proposed study are: (1) To characterize work exposures by acquiring job histories and comparing with historical exposure levels obtained from a past industrial hygiene survey, (2) to examine prevalence of respiratory morbidity by duration and level of styrene exposure and other characteristics, (3) to apply research biomarkers of lung injury to a styrene-exposed workforce, and (4) to describe the prevalence of color vision

impairment with the presence of respiratory morbidity. Our hypothesis is that workers previously exposed to high concentrations of styrene (≥5 ppm), even those with short tenure (<1 year), will have a higher prevalence of respiratory symptoms and lung function abnormalities compared with workers exposed to low concentration of styrene (<5ppm).

We will conduct face-to-face interviews with members of a cohort of workers from two reinforced plastic boatbuilding plants that closed in 1989 and 1993. The purpose of the interviews is to collect demographic information, detailed job history during and after the worker’s tenure at the boatbuilding plant, upper and lower respiratory symptoms, physician diagnoses of respiratory diseases, cigarette smoking history, and medication use. A NIOSH employee will conduct the interviews.

We will also conduct several lung function tests including: Exhaled nitric oxide, impulse oscillometry, multiple-breath washout, spirometry, and bronchodilator reversibility testing.

The purpose of the lung function testing is to identify small and large airway abnormalities that are consistent with NMRD. NIOSH technicians will perform the lung function testing. We will collect blood to analyze for biomarkers associated with lung injury caused by obliterative bronchiolitis. A NIOSH phlebotomist will collect the blood samples. Finally, we will assess cohort members for color vision abnormalities using the Lanthony D–15 Color Test. Color vision assessment will be completed by a NIOSH technician.

The only cost to boatbuilder cohort members is local travel to the medical survey site and their time. The total estimated burden hours are 712.

**ESTIMATED ANNUALIZED BURDEN HOURS**

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Boatbuilder Cohort Members .....	Questionnaire and medical survey consent form.	676	1	15/60
Boatbuilder Cohort Members .....	Questionnaire .....	676	1	45/60
Boatbuilder Cohort Members .....	Exhaled Nitric Oxide—no form .....	676	1	5/60
Boatbuilder Cohort Members .....	Impulse Oscillometry—no form .....	676	1	10/60
Boatbuilder Cohort Members .....	Spirometry—no form .....	676	1	10/60
Boatbuilder Cohort Members .....	Bronchodilator Test—no form .....	50	1	20/60
Boatbuilder Cohort Members .....	Multiple-Breath Washout—no form .....	676	1	30/60
Boatbuilder Cohort Members .....	Color vision test—no form .....	676	1	5/60
Boatbuilder Cohort Members .....	Blood test—no form .....	676	1	5/60

**Jeffrey M. Zirger,**

Lead, Information Collection Review Office, Office of Scientific Integrity, Office of Science, Centers for Disease Control and Prevention.

BILLING CODE 4163–18–P

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**Centers for Disease Control and Prevention**

[60Day–20–1278; Docket No. CDC–2020–0101]

**Proposed Data Collection Submitted for Public Comment and Recommendations**

**AGENCY:** Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

**ACTION:** Notice with comment period.

**SUMMARY:** The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public

burden and maximize the utility of government information, invites the general public and other Federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled “Online training for law enforcement to reduce risks associated with shift work and long work hours.” This study will develop and pilot test a new, online, interactive training program tailored for the law enforcement community that relays the health and safety risks associated with shift work, long work hours, and related workplace sleep issues, and presents strategies for managers and officers to reduce these risks.

**DATES:** CDC must receive written comments on or before November 30, 2020.

**ADDRESSES:** You may submit comments, identified by Docket No. CDC–2020–0101 by any of the following methods:

- **Federal eRulemaking Portal:** *Regulations.gov*. Follow the instructions for submitting comments.

- **Mail:** Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS–D74, Atlanta, Georgia 30329.

**Instructions:** All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to *Regulations.gov*.

**Please note:** Submit all comments through the Federal eRulemaking portal (*regulations.gov*) or by U.S. mail to the address listed above.

**FOR FURTHER INFORMATION CONTACT:** To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and
