

### Public Availability of Comments

Before including your address, phone number, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—might be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

### Next Steps

Issuance of an incidental take permit is a Federal proposed action subject to compliance with NEPA and section 7 of the ESA. We will evaluate the application, associated documents, and any public comments we receive as part of our NEPA compliance process to determine whether the application meets the requirements of section 10(a) of the Act. If we determine that those requirements are met, we will conduct an intra-Service consultation under section 7 of the ESA for the Federal action for the potential issuance of an ITP. If the intra-Service consultation confirms that issuance of the ITP will not jeopardize the continued existence of any endangered or threatened species, or destroy or adversely modify critical habitat, we will issue a permit to the applicant for the incidental take of the covered species.

### Authority

We publish this notice under the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321–4347 *et seq.*), and its implementing regulations at 40 CFR 1500–1508, as well as in compliance with section 10(c) of the Endangered Species Act (16 U.S.C. 1531–1544 *et seq.*) and its implementing regulations at 50 CFR 17.22 and 17.32.

### Michael Senn,

*Acting Field Supervisor, Sacramento Fish and Wildlife Office, U.S. Fish and Wildlife Service, Sacramento, California.*

[FR Doc. 2020–21738 Filed 9–30–20; 8:45 am]

BILLING CODE 4333–15–P

## DEPARTMENT OF THE INTERIOR

### Office of the Secretary

[201D0102DM/DS6CS00000/  
DLSN00000.000000/DX6CS25]

### Statement of Findings: Pechanga Band of Luiseño Mission Indians Water Rights Settlement Act

AGENCY: Office of the Secretary, Interior.

### ACTION: Notice of statement of findings.

**SUMMARY:** The publication by the Secretary of the Interior (Secretary) of this notice causes the settlement agreement executed in accordance with Section 3402 of the Pechanga Band of Luiseño Mission Indians Water Rights Settlement Act (Settlement Act) to become enforceable and causes waivers and releases of claims executed pursuant to Section 3407 of the Settlement Act to take effect.

**DATES:** This notice takes effect on October 1, 2020.

### FOR FURTHER INFORMATION CONTACT:

Address all comments and requests for additional information to Douglas Garcia, Chair, Pechanga Settlement Implementation Team, Department of the Interior, Bureau of Indian Affairs, Pacific Regional Office, 2800 Cottage Way, Sacramento, CA 95685, (916) 978–6052, *Douglas.Garcia@bia.gov*.

**SUPPLEMENTARY INFORMATION:** Congress enacted the Settlement Act as Title III, Subtitle D of the Water Infrastructure Improvements for the Nation Act, Public Law 114–322. The Settlement Act was enacted to resolve the water right claims of the Pechanga Band of Luiseño Mission Indians (Pechanga Band) subject to an adjudication in the U.S. District Court (Adjudication Court) in *United States v. Fallbrook Public Utility District, et al.*, Case No. 51–01247–GPC–RBB (S.D. Cal.). The Settlement Parties include the Pechanga Band, Rancho California Water District, and the United States. The Eastern Municipal Water District and Metropolitan Water District of Southern California are parties to various sub-agreements to the Pechanga Settlement Agreement (Settlement Agreement).

The Settlement Act and Settlement Agreement quantify and define the Pechanga Band's rights to water, including surface and groundwater within the Santa Margarita River watershed, that will be satisfied with local groundwater, imported recycled water, and imported potable water. The Settlement Agreement and various sub-agreements include the arrangements and infrastructure necessary to make this water available to the Pechanga Band. The United States contributed funding for imported water and infrastructure development.

### Statement of Findings

In accordance with Section 3407(e) of the Settlement Act, I find as follows:

(1) The Adjudication Court has issued a judgment and decree approving the conformed Settlement Agreement consistent with the Settlement Act;

(2) All amounts authorized by the Settlement Act have been deposited into the Pechanga Settlement Fund;

(3) The waivers and releases authorized in Section 3407(a) of the Settlement Act have been executed by the Pechanga Band and the Secretary;

(4) The Extension of Service Area Agreement (ESAA) has been executed by the parties to that agreement and takes effect and is enforceable in accordance with its terms; and

(5) The ESAA Water Delivery Agreement has been executed by the parties to that agreement and takes effect and is enforceable in accordance with its terms.

Dated: September 22, 2020.

**David L. Bernhardt,**

*Secretary of the Interior.*

### Deepwater Horizon Oil Spill, Louisiana Trustee Implementation Group; Final Phase 2 Restoration Plan #1.2 and Environmental Assessment: Barataria Basin Ridge and Marsh Creation Project, Spanish Pass Increment and Lake Borgne Marsh Creation Project Increment One; and Finding of No Significant Impact

AGENCY: Department of the Interior.

ACTION: Notice of availability.

**SUMMARY:** In accordance with the Oil Pollution Act of 1990 (OPA), the National Environmental Policy Act of 1969 (NEPA), the Final Programmatic Damage Assessment Restoration Plan/Final Programmatic Environmental Impact Statement (PDARP/PEIS), and the Consent Decree, the Federal and State natural resource trustee agencies for the Louisiana Trustee Implementation Group (LA TIG) have prepared a *Louisiana Trustee Implementation Group Final Restoration Plan/Environmental Assessment #1.2: Barataria Basin Ridge and Marsh Creation Project Spanish Pass Increment and Lake Borgne Marsh Creation Project Increment One* (Phase 2 RP/EA #1.2), and *Finding of No Significant Impact* (FONSI). The Phase 2 RP/EA #1.2 approves construction activities for the restoration of wetlands, coastal, and nearshore habitats injured in the Louisiana Restoration Area as a result of the *Deepwater Horizon* (DWH) oil spill. The Phase 2 RP/EA #1.2 analyzes restoration project design

alternatives for two projects which are components of larger marsh restoration strategies, and were approved for engineering and design (E&D) in a previous restoration plan. In the final Phase 2 RP/EA #1.2, the LA TIG selected and approved a design alternative for construction of each project, at a total construction cost of approximately \$203,182,000. The

purpose of this notice is to inform the public of the availability of the final Phase 2 RP/EA #1.2 and FONSI.

**ADDRESSES: Obtaining Documents:** You may download the final Phase 2 RP/EA #1.2 from either of the following websites:

- <https://www.doi.gov/deepwaterhorizon>

- <https://www.gulfspillrestoration.noaa.gov/restoration-areas/louisiana>

Alternatively, you may request a CD of the final Phase 2 RP/EA #1.2 (see **FOR FURTHER INFORMATION CONTACT**). A hard copy of the final Phase 2 RP/EA #1.2 is also available to view at 16 repositories located across the region. Locations are listed in the following table.

#### SUPPLEMENTARY INFORMATION:

##### Introduction

On April 20, 2010, the mobile offshore drilling unit *Deepwater Horizon*, which was being used to drill a well for BP Exploration and Production, Inc. (BP), in the Macondo prospect (Mississippi Canyon 252—MC252), experienced a significant explosion, fire, and subsequent sinking in the Gulf of Mexico, resulting in an unprecedented volume of oil and other discharges from the rig and from the wellhead on the seabed. The DWH oil spill is the largest offshore oil spill in U.S. history, discharging millions of barrels of oil over a period of 87 days. In addition, well over 1 million gallons of dispersants were applied to the waters of the spill area in an attempt to disperse the spilled oil. An undetermined amount of natural gas was also released into the environment as a result of the spill.

The Trustees conducted the natural resource damage assessment (NRDA) for the DWH oil spill under the Oil Pollution Act 1990 (OPA; 33 U.S.C. 2701 *et seq.*). Pursuant to OPA, Federal and State agencies act as trustees on behalf of the public to assess natural resource injuries and losses and to determine the actions required to

compensate the public for those injuries and losses. The OPA further instructs the designated trustees to develop and implement a plan for the restoration, rehabilitation, replacement, or acquisition of the equivalent of the injured natural resources under their trusteeship to baseline (the resource quality and conditions that would exist if the spill had not occurred). This includes the loss of use and services provided by those resources from the time of injury until the completion of restoration.

The DWH Trustees are:

- U.S. Department of the Interior (DOI), as represented by the National Park Service, U.S. Fish and Wildlife Service, and Bureau of Land Management;
- National Oceanic and Atmospheric Administration (NOAA), on behalf of the U.S. Department of Commerce;
- U.S. Department of Agriculture (USDA);
- U.S. Environmental Protection Agency (EPA);
- State of Louisiana Coastal Protection and Restoration Authority, Oil Spill Coordinator's Office, Department of Environmental Quality, Department of Wildlife and Fisheries, and Department of Natural Resources;
- State of Mississippi Department of Environmental Quality;
- State of Alabama Department of Conservation and Natural Resources and Geological Survey of Alabama;

- State of Florida Department of Environmental Protection and Fish and Wildlife Conservation Commission; and
- State of Texas: Texas Parks and Wildlife Department, Texas General Land Office, and Texas Commission on Environmental Quality.

On April 4, 2016, the United States District Court for the Eastern District of Louisiana entered a Consent Decree resolving civil claims by the Trustees against BP arising from the DWH oil spill: *United States v. BXPX et al., Civ. No. 10–4536*, centralized in *MDL 2179, In re: Oil Spill by the Oil Rig "Deepwater Horizon" in the Gulf of Mexico*, on April 20, 2010 (E.D. La.) (<http://www.justice.gov/enrd/deepwater-horizon>). Pursuant to the Consent Decree, restoration projects in the Louisiana Restoration Area are chosen and managed by the LA TIG. The LA TIG is composed of the following Trustees: State of Louisiana Coastal Protection and Restoration Authority; Oil Spill Coordinator's Office; Departments of Environmental Quality; Wildlife and Fisheries; and Natural Resources; DOI; NOAA; EPA; and USDA.

##### Background

The Final PDARP/PEIS provides for TIGs to propose phasing restoration projects across multiple restoration plans. A TIG may propose conceptual projects to fund for an information-gathering and planning phase, such as E&D, in a restoration plan (phase 1).

Approval of a Phase 1 restoration plan and projects within, allows the TIG to develop information needed to fully consider design alternatives in a later restoration plan (phase 2). In the final Phase 1 RP #1, the LA TIG selected six conceptual projects for E&D, using funds as provided for in the DWH Consent Decree. Two of those projects selected to undergo E&D were the Barataria Basin Ridge and Marsh Creation Project Spanish Pass Increment (Spanish Pass project) and the Lake Borgne Marsh Creation Project Increment One (Lake Borgne project). Upon development of E&D alternatives for the two projects, a phase 2 restoration plan was drafted and an OPA and NEPA analysis were conducted on the design alternatives. Notice of availability of the draft Phase 2 RP/EA #1.2 was published in the **Federal Register** on October 18, 2019 (84 FR 55976). Public comment was encouraged and accepted until November 20, 2019. The LA TIG hosted a public webinar on October 28, 2019 to facilitate public review and comment. The LA TIG considered the public comments received and finalized the Phase 2 RP/EA #1.2, selecting construction designs for implementation of both projects. A summary of the public comments received and the LA TIG's responses to those comments are presented in the final Phase 2 RP/EA #1.2.

#### Overview of the LA TIG Final Phase 2 RP/EA #1.2

The Phase 2 RP/EA #1.2 is being released in accordance with OPA NRDA regulations found in the Code of Federal Regulations (CFR) at 15 CFR part 990, NEPA and its implementing regulations found at 40 CFR parts 1500–1508, the Final PDARP/PEIS, and the Consent Decree. The Phase 2 RP/EA #1.2 provides OPA and NEPA analyses for a reasonable range of design alternatives for the Spanish Pass and Lake Borgne projects, and identifies the LA TIG's selected design alternatives, those which the LA TIG believes best meet the objectives of the Spanish Pass and Lake Borgne projects. In accordance with NEPA, as part of the final Phase 2 RP/EA #1.2, the Trustees issued a FONSI. The FONSI is available in Appendix F of the Phase 2 RP/EA #1.2.

The Spanish Pass project is a component of an overall large-scale restoration strategy for the Barataria Basin that would reestablish, through multiple increments, ridge and intertidal marsh habitats degraded due to sea level rise, land subsidence, diminished sediment supply, and storm events. The total construction cost for

the Spanish Pass project is approximately \$101,359,000 which will be funded from the Wetlands, Coastal, and Nearshore Habitats restoration type allocation provided for in the Consent Decree.

The Lake Borgne project is a component of an overall large-scale restoration strategy for the southwestern shoreline of Lake Borgne that would reestablish, through multiple increments, the bay rim and intertidal marsh habitat. The estimated total construction cost for this increment is \$101,823,000 will be funded also from the Wetlands, Coastal, and Nearshore Habitats restoration type allocation. Additional restoration planning for the Louisiana Restoration Area will continue.

#### Administrative Record

The documents comprising the Administrative Record for the Phase 2 RP/EA #1.2 can be viewed electronically at <https://www.doi.gov/deepwaterhorizon/adminrecord>.

#### Authority

The authority for this action is the Oil Pollution Act of 1990 (33 U.S.C. 2701 *et seq.*), its implementing Natural Resource Damage Assessment regulations found at 15 CFR part 990, and the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*) and its implementing regulations found at 40 CFR parts 1500–1508.

Mary Josie Blanchard,

*Director of Gulf of Mexico Restoration,  
Department of Interior.*

#### Notice of Inventory Completion: Santa Barbara Museum of Natural History, Santa Barbara, CA

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

**SUMMARY:** The Santa Barbara Museum of Natural History has completed an inventory of human remains and associated funerary objects, in consultation with the appropriate Indian Tribes or Native Hawaiian organizations, and has determined that there is a cultural affiliation between the human remains and associated funerary objects and present-day Indian Tribes or Native Hawaiian organizations. Lineal

descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request to the Santa Barbara Museum of Natural History. If no additional requestors come forward, transfer of control of the human remains and associated funerary objects to the lineal descendants, Indian Tribes, or Native Hawaiian organizations stated in this notice may proceed.

**DATES:** Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains and associated funerary objects should submit a written request with information in support of the request to the Santa Barbara Museum of Natural History at the address in this notice by November 2, 2020.

**ADDRESSES:** Luke Swetland, President and CEO, Santa Barbara Museum of Natural History, 2559 Puesta del Sol, Santa Barbara, CA 93105, telephone (805) 682–4711.

**SUPPLEMENTARY INFORMATION:** Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects under the control of the Santa Barbara Museum of Natural History, Santa Barbara, CA. The human remains and associated funerary objects were removed from Santa Barbara, Ventura, San Luis Obispo, and Los Angeles Counties, CA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

#### Consultation

A detailed assessment of the human remains was made by the Santa Barbara Museum of Natural History professional staff in consultation with representatives of the Santa Ynez Band of Chumash Mission Indians of the Santa Ynez Reservation, California and other Chumash representatives of non-federally recognized Indian groups.
