

off-cycle credits using the alternative demonstration methodology pathway for the following technologies: high efficiency alternator and brushless

motor. The application covers 2017 model year and later vehicles. The methodologies described by Subaru are generally consistent with those used by

other manufacturers to determine similar credit values.

Brushless motor credits	Total credit (g CO2/mi)	A/C on (g CO2/mi)	A/C off (g CO2/mi)
Manual A/C	0.4	0.2	0.2
Automatic A/C	0.4	0.3	0.1

High efficiency alternator on % of baseline level	
VDA efficiency (%)	Credit (g/mile)
67	0.0
68	0.2
69	0.3
70	0.5
71	0.6
72	0.8
73	1.0
74	1.1
75	1.3
76	1.4
77	1.6
78	1.8
79	1.9
80	2.1
81	2.2

and technologies specified in the credit applications. Such decision would not apply to other vehicles or vehicles from other manufacturers. While the broad methodologies used by these manufacturers could potentially be used for other vehicles and by other manufacturers, the vehicle specific data needed to demonstrate the off-cycle emissions reductions would likely be different. In such cases, a new application would be required, including an opportunity for public comment.

Dated: September 29, 2020.
Byron Bunker,
Director, Compliance Division, Office of Transportation and Air Quality, Office of Air and Radiation.

BILLING CODE 6560-50-P

III. EPA Decision Process

EPA has reviewed the applications for completeness and is now making the applications available for public review and comment as required by the regulations. The off-cycle credit applications submitted by Subaru (with confidential business information redacted) have been placed in the public docket (see ADDRESSES section above) and on EPA's website at <http://www.epa.gov/otaq/regs/ld-hwy/greenhouse/ld-ghg.htm>. EPA is providing a 30-day comment period on the applications for off-cycle credits described in this notice, as specified by the regulations. The manufacturers may submit a written rebuttal of comments for EPA's consideration, or may revise an application in response to comments. After reviewing any public comments and any rebuttal of comments submitted by manufacturers, EPA will make a final decision regarding the credit requests. An EPA decision regarding these off-cycle credit requests will only apply to the vehicles and model years specified in the applications submitted by each manufacturer. EPA will make its decision available to the public by placing a decision document (or multiple decision documents) in the docket and on EPA's website at <http://www.epa.gov/otaq/regs/ld-hwy/greenhouse/ld-ghg.htm>. An EPA decision to approve off-cycle credit requests would only apply to the manufacturers, model years, vehicles,

ADDRESSES: Comments should be sent to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. Your comment must be submitted into www.reginfo.gov per the above instructions for it to be considered. In addition to submitting in www.reginfo.gov also send a copy of your comment on the proposed information collection to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov. Include in the comments the OMB control number as shown in the SUPPLEMENTARY INFORMATION below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Cathy Williams at (202) 418-2918. To view a copy of this information collection request (ICR) submitted to OMB: (1) go to the web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the web page called "Currently Under Review," (3) click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box, (6) when the list of FCC ICRs currently under review appears, look for the Title of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.

SUPPLEMENTARY INFORMATION: The Commission may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the FCC invited the general public and other

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0798; FRS 17105]

Information Collection Being Submitted for Review and Approval to Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Pursuant to the Small Business Paperwork Relief Act of 2002, the FCC seeks specific comment on how it can further reduce the information collection burden for small business concerns with fewer than 25 employees.

DATES: Written comments and recommendations for the proposed information collection should be submitted on or before November 4, 2020.

Federal Agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might "further reduce the information collection burden for small business concerns with fewer than 25 employees."

OMB Control Number: 3060-0798.

Title: FCC Authorization for Radio Service Authorization; Wireless Telecommunications Bureau; Public Safety and Homeland Security Bureau.

Form Number: FCC Form 601.

Type of Review: Revision of a currently approved collection.

Respondents: Individual and households, Business or other for-profit entities, state, local, or tribal government, and not for profit institutions.

Number of Respondents: 255,552 respondents; 255,552 responses.

Estimated Time per Response: 0.5 to 1.25 hours.

Frequency of Response:

Recordkeeping requirement; third party disclosure requirement, on occasion reporting requirement and periodic reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for these collections are contained in 47 U.S.C. 151, 152, 154, 154(i), 155(c), 157, 201, 202, 208, 214, 301, 302a, 303, 307, 308, 309, 310, 311, 314, 316, 319, 324, 331, 332, 333, 336, 534, 535, and 554 of the Communications Act of 1934.

Total Annual Burden: 224,008 hours.

Total Annual Cost: \$71,934,000.

Privacy Impact Assessment: Yes.

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: FCC Form 601 is a consolidated, multi-part application form that is used for market-based and site-based licensing for wireless telecommunications services, including public safety licenses, which are filed

through the Commission's Universal Licensing System (ULS). FCC Form 601 is composed of a main form that contains administrative information and a series of schedules used for filing technical and other information. This form is used to apply for a new license, to amend or withdraw a pending application, to modify or renew an existing license, cancel a license, request a duplicate license, submit requested notifications, request an extension of time to satisfy construction requirements, or request an administrative update to an existing license (such as mailing address change), request a Special Temporary Authority or Developmental License. Respondents are required to submit FCC Form 601 electronically, except in certain services specifically designated by the Commission.

The data on FCC Form 601 includes the FCC Registration Number (FRN), which serves a "common link" for all filings an entity has with the FCC. The Debt Collection Improvement Act of 1996 requires entities filing with the Commission to use an FRN. Records may include information about individuals or households, e.g., personally identifiable information or PII, and the use(s) and disclosure of this information are covered by the requirements of a system of records notice of 'SORN,' FCC-WTB-1, "Wireless Services Licensing Records." There are no additional impacts under the Privacy Act.

On April 23, 2020, the Commission Adopted a Report and Order and Further Notice of Proposed Rulemaking in ET Docket 18-295, FCC 20-51, that requires temporary fixed microwave licensees to register temporary fixed links in the ULS database in order to receive protection from unlicensed devices operating in the 6GHz band, a summary of which was published at 85 FR 31390 (May 26, 2020). Automated frequency coordination (AFC) administrators will use this information to determine where unlicensed devices can operate. Temporary fixed licensees were not previously required to file applications with the Commission when they commenced operation, so this is a new filing requirement. We estimate that 70 respondents, will file 1,050 responses per year (15 per licensee), with an estimated time burden of 525 hours (30 minutes per filing). In addition to creating this new filing requirement, two new data fields will be required to describe when the temporary fixed links will be operational, so that the AFCs will know when to protect the temporary fixed links. For this purpose a "start date"

and "end date" will be added to the Form 601, Schedule I.

On May 13, 2020, the FCC adopted a Report and Order, FCC 20-67, in WT Docket No. 17-200, modified by an erratum released July 1, 2020, that establishes rules for broadband license operations in the 897.5-900.5/936.5-939.5 MHz segment of the 900 MHz band (896-901/935-940 MHz), a summary of which was published at 85 FR 43124 (July 16, 2020). The Commission seeks approval from OMB for the information collection requirements contained in the Report and Order, FCC 20-67. The requirements in §§ 27.1503(b)(1), (2), and (3) and (c)(1) and 27.1505(a) and (b) constitute revised information collections pursuant to the PRA. For the first three years of this collection, we estimate that 30 respondents will file 60 responses per year (two per licensee), with an estimate time burden of 30 hours (30 minutes per filing). We estimate that 30 respondents will file 60 responses (once at the six-year mark, and once at the 12-year mark of the 900 MHz broadband license term), with an estimate time burden of 30 hours in each of those two years (1 hour per filing).

Section 27.1503(b)(1) requires an applicant to file an application for a 900 MHz broadband license in accordance with part 1, subpart F, of the Commission's rules. The 900 MHz broadband service is a new service governed under part 27 of the Commission's rules. The Commission requests OMB approval to revise FCC Form 601 to add a new radio service code, a new Schedule N for the 900 MHz broadband service, and two new attachment types for the Eligibility Certification and Transition Plan.

Schedule N would be a new supplementary schedule for 900 MHz broadband service applicants to apply for the required license authorization in conjunction with the FCC 601 Main Form. In Schedule N, 900 MHz broadband service applicants would identify the market(s) to which the filing pertains and certifications that the applicant has attached an Eligibility Certification and Transition Plan, that the applicant will return licensed 900 MHz spectrum to the Commission, and that it will remit an anti-windfall payment if applicable.

Section 27.1503(b)(2) requires an applicant to file an Eligibility Certification as part of its application for a 900 MHz broadband license. In its Eligibility Certification, an applicant must list the licenses the applicant holds in the 900 MHz band to demonstrate that it holds licenses for

more than 50% of the total licensed 900 MHz spectrum for the county, including credit for spectrum included in an application to acquire or relocate any covered incumbents filed on or after March 14, 2019. The Eligibility Certification must also include a statement that the applicant's Transition Plan details how it holds spectrum in the broadband segment and/or has reached an agreement to clear through acquisition or relocation, or demonstrate how it will provide interference protection to, covered incumbent licensees collectively holding licenses in the broadband segment for at least 90% of the site-channels in the county, and within 70 miles of the county boundary and geographically licensed channels where the license area completely or partially overlaps the county.

Section 27.1503(b)(3) requires an applicant to file a Transition Plan as part of its application for a 900 MHz broadband license. In its Transition Plan, an applicant must demonstrate one or more of the following for at least 90% of the site-channels in the county and within 70 miles of the county boundary, and geographically licensed channels where the license area completely or partially overlaps the county: (1) Agreement by covered incumbents to relocate from the broadband segment; (2) protection of site-based covered incumbents through compliance with minimum spacing criteria; (3) protection of site-based covered incumbents through new or existing letters of concurrence agreeing to lesser base station separations; (4) protection of geographically-based covered incumbents through private contractual agreements; and/or (5) evidence that it holds licenses for the site channels in the county and within 70 miles of the county boundary and geographically licensed channels where the license area completely or partially overlaps the county. The Transition Plan must describe in detail: (1) Descriptions of the agreements reached with covered incumbents to relocate and the applications that the parties to the agreements will file for spectrum in the narrowband segment in order to relocate or repack licensees; (2) descriptions of how the applicant will provide interference protection to, and/or acquire or relocate from the broadband segment, covered incumbents collectively holding licenses for at least 90% of the site-channels in the county and within 70 miles of the county boundary, and geographically licensed channels where the license area completely or partially

overlaps the county, and/or evidence that it holds licenses for the site-channels and/or geographically licensed channels; (3) any rule waivers or other actions necessary to implement an agreement with a covered incumbent; and (4) such additional information as may be required. The Commission requires the applicant to include in the Transition Plan a certification from a frequency coordinator that the Transition Plan can be implemented consistent with the Commission's rules. The Commission allows an applicant seeking to transition multiple counties simultaneously to file a single Transition Plan that covers all of its county-based applications.

Section 27.1503(c)(1) requires an applicant to cancel its 900 MHz Specialized Mobile Radio and Business/Industrial/Land Transportation licenses, up to six megahertz, conditioned upon Commission grant of its license. An applicant would file FCC Form 601 to cancel existing licenses, but this information collection does not involve a revision of FCC Form 601.

Section 27.1505 requires a 900 MHz broadband licensee to meet performance requirements. Section 27.1505(a) requires an applicant to file a construction notification in accordance with § 1.946(d) of the Commission's rules. An applicant would file FCC Form 601 to file the construction notification, and this information collection would encompass adding a new radio service code for the 900 MHz broadband service. Pursuant to § 27.1505(b), licensees can satisfy performance requirement through population or geographic coverage. Under the population metric, a 900 MHz broadband licensee would be required to provide reliable signal coverage and offer broadband service to at least 45% of the population in its license area within six years of license grant and to at least 80% of the population in its license area within twelve years of license grant. Under the geographic coverage metric, a 900 MHz broadband licensee would be required to provide reliable signal coverage and offer broadband service to at least 25% of the geographic license area within six years of license grant and to at least 50% of the geographic license area within twelve years of license grant. To meet the broadband service obligation, the Commission expects licensees to deploy technologies that make intensive use of the entire $\frac{3}{8}$ megahertz band segment and yield high uplink and downlink data rates and minimal latency sufficient to provide for real-time, two-way communications. The 900 MHz broadband licensees would demonstrate

its compliance with § 27.1505(b) by filing an attachment to their FCC Form 601 construction notification filings.

Federal Communications Commission.

Cecilia Sigmund,

Associate Secretary, Office of the Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[FRS 17110]

Privacy Act of 1974; Matching Program

AGENCY: Federal Communications Commission.

ACTION: Notice of Establishment of Two Matching Programs.

SUMMARY: In accordance with the Privacy Act of 1974, as amended ("Privacy Act"), this document announces the establishment of computer matching programs the Federal Communications Commission ("FCC" or "Commission" or "Agency") and the Universal Service Administrative Company (USAC) will conduct with the State of Florida's Department of Children and Families (DCF), Office of Economic Self-Sufficiency (Florida), and the State of Minnesota's Department of Human Services (DHS) (Minnesota). ("Agencies"). The purpose of these two matching programs is to verify the eligibility of applicants to and subscribers of the Universal Service Fund (USF) Lifeline program, which is administered by USAC under the direction of the FCC. More information about these programs is provided in the **SUPPLEMENTARY INFORMATION** section below.

DATES: Written comments are due on or before November 4, 2020. This computer matching program will commence on November 4, 2020, and will conclude on May 5, 2022.

ADDRESSES: Send comments to Mr. Leslie F. Smith, Privacy Manager, Information Technology (IT), FCC, Washington, DC 20554, or to Leslie.Smith@fcc.gov or Privacy@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Mr. Leslie F. Smith, (202) 418-0217, or Leslie.Smith@fcc.gov or Privacy@fcc.gov.

SUPPLEMENTARY INFORMATION:

The Lifeline program provides support for discounted broadband and voice services to low-income consumers. Lifeline is administered by the Universal Service Administrative
