PHMSA received a special permit request from CGT, a subsidiary of TC Energy, seeking a waiver from the requirements of 49 CFR 192.505(c): Strength test requirements for steel pipeline to operate at a hoop stress of 30 percent or more of SMYS, 49 CFR 192.611: Change in class location: Confirmation or revision of maximum allowable operating pressure, and 49 CFR 192.619: Maximum allowable operating pressure: Steel or plastic pipelines. The special permit request is for special permit segments that have either a Class 1 to 3 location change, a pressure test duration below eight (8) hours, or a pressure test times maximum allowable operating pressure (MAOP) safety factor that is below 1.25.

This special permit is being requested in lieu of pipe replacement, pressure reduction, or a new pressure test for 61 special permit segments totaling 114,124 feet (approximately 21.614 miles) in total length of pipeline. The pipeline special permit segments consist of the following:

- *Madison County, Kentucky*—22,385 feet of 30-inch diameter ML 200 Pipeline and 823 feet of 30-inch ML 300 Pipeline; and
- *Rowan County, Kentucky*—185 feet of 30-inch diameter ML 200 Pipeline.

The proposed special permit will allow operation of the original Class 1 pipe in Class 3 locations. The CGT pipelines were constructed in the following time periods and operate at the MAOPs listed below:

- 24-inch diameter EL 200 Pipeline was constructed in 1954 and has a MAOP of 973 pound per square inch gauge (psig);
- 30-inch diameter ML 400 Pipeline was constructed in 1971 and has a MAOP of 1,007 psig;

The special permit request, proposed special permit with conditions, and Draft Environmental Assessment (DEA) for the CGT pipelines are available for review and public comments in Docket No. PHMSA—2019—0201. We invite interested persons to review and submit comments on the special permit request and DEA in the docket. Please include any comments on potential safety and environmental impacts that may result if the special permit is granted. Comments may include relevant data.

Before issuing a decision on the special permit request, PHMSA will evaluate all comments received on or before the comments closing date. Comments received after the closing date will be evaluated, if it is possible to do so without incurring additional expense or delay. PHMSA will consider each relevant comment it receives in making its decision to grant or deny this special permit request.

The OCC

asks OMB to extend its approval of the collection in this document.

Title of Information Collection: Mandatory Contractual Stay Requirements for Qualified Financial Contracts.

OMB Control No.: 1557–0339.

Frequency of Response: On occasion.

Affected Public: A national bank or Federal savings association (FSA) (including any subsidiary of either) that is a subsidiary of a global systemically important bank holding company that has been designated pursuant to 12 CFR 252.82 of the Federal Reserve Board’s Regulation YY; a national bank or FSA (including any subsidiary of either) that is a subsidiary of a global systemically important foreign banking organization designated pursuant to 12 CFR 252.87 of the Federal Reserve Board’s Regulation YY; a Federal branch or agency (including any U.S. subsidiary of a Federal branch or agency) of a global systemically important foreign banking organization designated pursuant to 12 CFR 252.87 of the Federal Reserve Board’s Regulation YY; and any national bank or FSA that is not under a bank holding company and that has more than \$700 billion in total assets as reported on its most recent Call Report.

Abstract: Under 12 CFR part 47, a covered bank is required to ensure that a covered qualified financial contract (QFC) (1) contains a contractual stay-and-transfer provision analogous to the statutory stay-and-transfer provision imposed under Title II of the Dodd-Frank Act and in the Federal Deposit Insurance Act and (2) limits the exercise of default rights based on the insolvency of an affiliate of the covered bank. A covered bank is defined in 12 CFR 47.3(b) as:

- A national bank or Federal savings association that has more than \$700 billion in total assets as reported on the national bank’s or Federal savings association’s most recent Consolidated Reports of Condition and Income (Call Report);

- A national bank or Federal savings association that is a subsidiary of a global systemically important bank holding company that has been designated pursuant to § 252.82 of this title (Federal Reserve Board Regulation YY) (12 CFR 252.82);

- A national bank or Federal savings association that is a subsidiary of a global systemically important foreign banking organization that has been designated pursuant to § 252.87 of this title (Federal Reserve Board Regulation YY) (12 CFR 252.87); or

- A Federal branch or agency, as defined in subpart B of this chapter (governing Federal branches and

agencies), of a global systemically important foreign banking organization that has been designated pursuant to § 252.87 of this title (Federal Reserve Board Regulation YY) (12 CFR 252.87).

The requirements are intended to enhance the resilience and the safety and soundness of Federally chartered and licensed financial institutions by addressing concerns relating to the exercise of default rights of certain financial contracts that could interfere with the orderly resolution of certain systemically important financial firms.

Covered banks may comply either by amending the contractual provisions of their QFCs consistent with the requirements of §§ 47.4 and 47.5 within a specified period of time or by adhering to the International Swaps and Derivatives Association 2015 Universal Resolution Stay Protocol or U.S. Protocol (ISDA Protocols). Alternatively, 12 CFR 47.6(b)(1) provides that a covered bank may request that the OCC approve as compliant with the requirements of §§ 47.4 and 47.5 provisions of one or more forms of covered QFCs, or amendments to one or more forms of covered QFCs, with enhanced creditor protection conditions.

In order for the OCC to evaluate a covered bank’s request, 12 CFR 47.6(b)(3) requires that the request include (1) an analysis of the proposal that addresses a range of factors laid out in § 47.6(d) that are intended to facilitate the OCC’s consideration of whether the proposal would be consistent with the restrictions and the main objectives of the rule; (2) a written legal opinion verifying that the covered bank’s proposed provisions or amendments would be valid and enforceable under applicable laws of the relevant jurisdictions, including in the case of proposed amendments, the validity and enforceability of the proposal to amend the covered QFCs; and (3) any additional information relevant to the OCC’s approval that the OCC requests. Based on the information collected, the OCC will then determine whether the covered bank’s proposed alternative creditor protection conditions comply with the requirements of the rule and achieve its policy goals.

Estimated Burden:

Number of Respondents: 50.

Estimated Burden per Respondent: 140 hours.

Total Estimated Annual Burden: 7,000 hours.

The OCC is proposing to extend the approval for the following information collection:

Title: Examination Survey.

OMB Control No.: 1557-0199.

Affected Public: Businesses or other for-profit.

Type of Review: Regular.

Abstract: The OCC provides each national bank, Federal savings association, and Federal branch or agency (bank) with an Examination Survey at the end of its supervisory cycle (12- or 18-month period). This information collection permits banks to assess the OCC's bank supervisory activities, including the:

- Effectiveness of OCC communications with the bank;
- Reasonableness of OCC requests for data and information;
- Quality of OCC decision making during the exam process;
- Professionalism of OCC examining staff; and
- Responsiveness of OCC examiners.

The OCC developed the survey in 1994, at the suggestion of banking industry members who expressed a desire to provide examination-related feedback to the OCC. The Comptroller of the Currency and OCC supervisory staff considered that expressed desire and concurred. The information collection continues to be an important tool for the OCC to measure OCC examination performance, design more efficient and effective examinations, and target examiner training.

This information collection continues to formalize and promote a long-standing OCC program. The OCC always has given the institutions it supervises the opportunity to provide input regarding the examination process.
