

the next (2022) annual federal grant award and, as appropriate, request initiation of ESA consultation with the Services. The proposed stipulated order of dismissal would not resolve NWEA's claim for attorney's fees, which Plaintiff would need to file within 30 days of entry of the stipulated order of dismissal. The proposed stipulated order of dismissal includes obligations for Ecology; those terms are outside the scope of this notice and the Agency is not soliciting comment on them.

For a period of thirty (30) days following the date of publication of this notice, the Agency will accept written comments relating to the obligations of EPA for resolution of the claims contained in the proposed stipulated order of dismissal from persons who are not named as original parties or intervenors to the litigation in question. EPA also may hold a public hearing on whether to enter into the proposed stipulated order of dismissal. EPA or the Department of Justice may withdraw or withhold consent to the proposed stipulated order of dismissal if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the CWA or ESA. Unless EPA or the Department of Justice determines that consent to this proposed stipulated order of dismissal should be withdrawn, the terms of the proposed stipulated order of dismissal will be affirmed and entered with the Court.

II. Additional Information About Commenting on the Proposed Settlement Agreement

A. How can I get a copy of the proposed settlement agreement?

The official public docket for this action (identified by EPA-HQ-OGC-2020-0507) contains a copy of the proposed settlement agreement. The official public docket is located at the Office of Environmental Information (OEI) Docket in the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The regular hours of the EPA Docket Center Public Reading Room are from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays; however, due to the COVID-19 pandemic, there may be limited or no opportunity to enter the docket center. At the time of this printing, the docket center is closed to public visitors out of an abundance of caution for members of the public and EPA staff to reduce the risk of transmitting COVID-19. During the closure, Docket Center staff will

continue to provide remote customer service via email, phone, and webform. For further information on EPA Docket Center services, see <https://www.epa.gov/dockets>. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OEI Docket is (202) 566-1752.

An electronic version of the public docket is available on EPA's website at www.regulations.gov. You may use www.regulations.gov to submit or view public comments, access the index listing of the contents of the official public docket, and access those documents in the public docket that are available electronically. Once in the system, key in the appropriate docket identification number then select "search." It is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing online at www.regulations.gov without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. Information claimed as CBI and other information whose disclosure is restricted by statute is not included in the official public docket or in the electronic public docket.

EPA's policy is that copyrighted material, including copyrighted material contained in a public comment, will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. EPA has not included any copyrighted material in the docket for this proposed settlement. If commenters submit copyrighted material in a public comment, it will be placed in the official public docket and made available for public viewing when the EPA Docket Center is open.

B. How and to whom do I submit comments?

You may submit comments as provided in the **ADDRESSES** section. Please ensure that your comments are submitted within the specified comment period. The EPA encourages the public to submit comments via www.Regulations.gov. There will be a delay in processing mail and no hand deliveries will be accepted due to the COVID-19 pandemic.

EPA recommends that you include your name, mailing address, and an email address or other contact information in the body of your comment. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment

due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the www.regulations.gov website to submit comments to EPA electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, email address, or other contact information unless you provide it in the body of your comment. In contrast to EPA's electronic public docket, EPA's electronic mail (email) system is not an "anonymous access" system. If you send an email comment directly to the Docket without going through www.regulations.gov, your email address is automatically captured and included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.
