

percent for the period during which a benefit is (or is assumed to be) in pay status and 4.00 percent during any years preceding the benefit's placement in pay status. In comparison with the interest assumptions in effect for October 2020, these assumptions represent no change in the immediate rate and are otherwise unchanged.

PBGC updates appendices B and C each month. PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to issue new interest assumptions promptly so that they are available for plans that rely on our publication of them each month to calculate lump sum benefit amounts.

Because of the need to provide immediate guidance for the payment of

benefits under plans with valuation dates during November 2020, PBGC finds that good cause exists for making the assumptions set forth in this amendment effective less than 30 days after publication.

PBGC has determined that this action is not a "significant regulatory action" under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).

Global Express Guaranteed

Global Express Guaranteed (GXG) service provides fast international shipping, with international transportation and delivery provided through an alliance with FedEx Express®. (Due to COVID-19 service impacts, the money-back guarantee for GXG has been suspended until further notice.) The price increase for GXG service averages 0.9 percent.

The Postal Service provides Commercial Base® pricing to online customers who prepare and pay for GXG shipments via USPS-approved payment methods (other than Click-N-Ship® service), with a 5 percent discount off the published retail prices for GXG service. Customers who prepare GXG shipments via Click-N-Ship service will continue to pay retail prices. Commercial Plus® prices are set to match the Commercial Base prices.

Priority Mail Express International

Priority Mail Express International (PMEI) service provides fast service to approximately 180 countries in 3–5 business days for many major markets, although the actual number of days may vary based upon origin, destination and customs delays. Priority Mail Express International with Money-Back Guarantee service is available for certain destinations. The price increase for PMEI service averages 3.6 percent. The Commercial Base price for customers who prepare and pay for PMEI shipments via permit imprint, online at [USPS.com](https://usps.com)®, or as registered end-users using an authorized PC Postage vendor (with the exception of Click-N-Ship service) will be an average of 5.9 percent below the retail price. Customers who prepare PMEI shipments via Click-N-Ship service pay retail prices. Commercial Plus® prices will be equivalent to Commercial Base;

however, deeper discounting may still be made available to customers through negotiated service agreements. Also, three additional country price groups are being added for PMEI. In order to better align the country groupings based on volume and geography, the country groupings for PMEI will be realigned.

The Postal Service will continue to include Priority Mail Express International service in customized contracts offered to customers who meet certain revenue thresholds and are willing to commit a large amount of revenue to the USPS® for Priority Mail Express International service and Priority Mail International service.

Priority Mail Express International flat rate pricing continues to be available for Flat Rate Envelopes.

Priority Mail International

Priority Mail International (PMI) is an economical way to send merchandise and documents to about 180 countries in 6–10 business days for many major markets, although the actual number of days may vary based upon origin, destination and customs delays. The price increase for Priority Mail International service averages 5.1 percent. The Commercial Base price for customers who prepare and pay for PMI items via permit imprint, online at [USPS.com](https://usps.com), or as registered end-users using an authorized PC Postage vendor (with the exception of Click-N-Ship service) will be 5 percent below the retail price. Customers who prepare Priority Mail International shipments via Click-N-Ship service will pay retail prices. Commercial Plus prices are set to match Commercial Base prices. Commercial Plus prices will be equivalent to Commercial Base; however, deeper discounting may still be made available to customers through negotiated service agreements. Also, three additional country price groups are being added for PMEI. In order to better align the country groupings for PMI based on volume and geography, the country groupings for PMI will be realigned.

The Postal Service will continue to include Priority Mail International in customized contracts offered to customers who meet certain revenue thresholds and are willing to commit to a larger amount of revenue to the USPS® for Priority Mail Express International and Priority Mail International.

Priority Mail International flat rate pricing continues to be available for Flat Rate Envelopes, Small Flat Rate Boxes, and Medium and Large Flat Rate Boxes.

First-Class Package International Service

First-Class Package International Service (FCPIS) is an economical international service for small packages weighing less than 4 pounds and not exceeding \$400 in value. The price increase for FCPIS averages 4.8 percent. The Commercial Base price, available to customers who prepare and pay for FCPIS items via permit imprint or by USPS-approved online payment methods, will be 5 percent below the retail price. Customers who prepare FCPIS shipments via Click-N-Ship service pay retail prices. Commercial Plus prices will be equivalent to Commercial Base; however, deeper discounting will still be made available to customers through negotiated service agreements. Eleven additional country price groups are being added for FCPIS. In order to better align the country groupings for FCPIS based on volume and geography, the country groupings for FCPIS will be realigned. Also, the minimum size limits of small packets when sent as FCPIS will be revised to conform to Universal Postal Union (UPU) standards. The minimum dimensions will be changed to 6 inches in length and 4 inches in height.

Electronic USPS Delivery Confirmation International service—abbreviated E-USPS DELCON INTL—is available for First-Class Package International Service items to select destination countries at no charge.

International Priority Airmail and International Surface Air Lift

International Priority Airmail (IPA) service, including IPA M-bags, is a commercial service designed for volume mailings of all First-Class Mail International postcards, letters, and large envelopes (flats), and for volume mailings of First-Class Package International Service packages (small packets) weighing up to a maximum of 4.4 pounds. IPA shipments are typically flown to foreign destinations (exceptions apply to Canada and Mexico) and are then entered into that country's air or surface priority mail system for delivery. The price increase for IPA letters, flats, and packets is 74.1 percent. International Surface Airlift (ISAL) is similar to IPA except that once flown to the foreign destination, it is entered into that country's surface nonpriority mail system for delivery. The price increase for ISAL letters, flats, and packets is 32.6 percent. One additional country price group is being added to both IPA and ISAL. In order to better align the country groupings for IPA and ISAL based on volume and

geography, the country groupings for IPA and ISAL will be realigned. Also, the minimum size limits of small packets when sent as IPA or ISAL will be revised to conform to Universal Postal Union (UPU) standards. The minimum dimensions will be changed to 6 inches in length and 4 inches in height.

Direct Sacks of Printed Matter to One Addressee (Airmail M-Bags)

An airmail M-bag is a direct sack of printed matter sent to a single foreign addressee at a single address. Prices are based on the weight of the sack. The price increase for Airmail M-bags averages 5.0 percent.

1. At the mailer's option, a finer sortation for IPA items addressed to Australia may be used. If this option is chosen, items addressed with postal codes beginning with 0, 1, 2, 4, and 9 and uncodified mail should be sorted and prepared in direct country containers tagged to Sydney. Both the three-letter exchange office code ("SYD") and the country name ("Australia") should be entered in the "To" block of PS Tag 115, *International Priority Airmail*. Items addressed with postal codes beginning with 3, 5, 6, 7, and 8 should be sorted and prepared in direct country containers tagged to Melbourne. Both the three-letter exchange office code ("MEL") and the country name ("Australia") should be entered in the "To" block of PS Tag 115.

Air Plan Approval; Massachusetts; Reasonably Available Control Technology for the 2008 and 2015 Ozone Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a State Implementation Plan (SIP) revision submitted by the Commonwealth of Massachusetts. The SIP revision consists of a demonstration that Massachusetts meets the requirements of reasonably available control technology (RACT) for the two precursors for ground-level ozone, oxides of nitrogen (NO_x) and volatile

organic compounds (VOCs), set forth by the Clean Air Act (CAA or Act) with respect to the 2008 and 2015 ozone National Ambient Air Quality Standards (NAAQSs or standards). Additionally, we are approving specific regulations that implement the RACT requirements by limiting air emissions of NO_x and VOC pollutants from sources within the Commonwealth. This action is being taken in accordance with the Clean Air Act.
