Abstract: Section 428B(a)(1)(A) of the Higher Education Act of 1965, as amended (HEA), provides that to be eligible to receive a Federal PLUS Loan under the Federal Family Education Loan (FFEL) Program, the applicant must not have an adverse credit history, as determined pursuant to regulations promulgated by the Secretary. In accordance with section 455(a)(1) of the HEA, this same eligibility requirement applies to applicants for PLUS loans under the Direct Loan Program. Since July 1, 2010 there have been no new FFEL Program loans originated and the Direct Loan Program is the only Federal loan program that offers Federal PLUS Loans.

The adverse credit history section of the eligibility regulations in 34 CFR 685.200(b) and (c) were updated in 2014 by the Department of Education (the Department) when a review of and a change to the regulations was made. Specifically, an applicant for a PLUS loan who is determined to have an adverse credit history must complete loan counseling offered by the Secretary before receiving the Federal PLUS loan.

The Department is requesting a revision to the information collection regarding the adverse credit history regulations in 34 CFR 685.200(b) and (c) and the burden these changes create for Federal PLUS loan borrowers, both parent and graduate/professional students.

[Docket No. CP21–1–000]

Notice of Application and Establishing Intervention Deadline; Golden Pass Pipeline LLC

Take notice that on October 2, 2020, Golden Pass Pipeline LLC (Golden Pass

Pipeline), 811 Louisiana Street, Suite 1400, Houston, Texas 77002, filed an application under section 7(c) of the Natural Gas Act (NGA), and Part 157 of the Commission's regulations requesting an amendment to the authorization granted in the Commission's December 21, 2016 Order¹ for the application filed in Docket No. CP14-518-000. The proposed Compressor Relocation and Modification Project (Project) entails relocation of and modifications to certain facilities approved in the December 2016 Order to enable Golden Pass Pipeline to transport domestically sourced natural gas to the export terminal facilities of Golden Pass LNG Terminal LLC (Golden Pass LNG), which are currently under construction, for liquefaction and export.

The Compression Relocation and Modification Project consists of the following: (1) Relocation of an authorized compressor station from Milepost 66 to Milepost 69 on the Golden Pass Pipeline system; (2) additional compression at the relocated compressor station; (3) establishment of a new interconnection and associated meter station near Milepost 69 to support an interconnect with the proposed interstate pipeline to be constructed and operated by Enable Gulf Run Transmission, LLC (Gulf Run), (4) removal of any bi-directional piping modification to the Interconnect for Tennessee Gas Pipeline, (5) elimination of the proposed and approved 24-inch diameter looping facilities between MP 63 and MP 66 in Calcasieu Parish, Louisiana (Calcasieu Loop), to reflect the relocation of the MP 63 Compressor Station and the elimination of Tennessee Gas Pipeline Company, L.L.C. (Tennessee Gas) Gas as an input source to Golden Pass Pipeline; and (6) minor modifications to existing interconnections at Milepost 66 and Milepost 68. Golden Pipeline Pass estimates the total cost of the Project to be \$361,345,000 and proposes a new incremental recourse rate to apply to the Project capacity, all as more fully set forth in the application which is on file with the Commission and open for public inspection.

Golden Pass Pipeline's application states that a water quality certificate under section 401 of the Clean Water Act is required for the project from

Louisiana Department of Environmental Quality, Water Quality Division. The request for certification must be submitted to the certifying agency and to the Commission concurrently. Proof of the certifying agency's receipt date must be filed no later than five (5) days after the request is submitted to the certifying agency.

If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or environmental assessment (EA) for this proposal. The filing of an EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project: You can file comments on the project, and you can file a motion to intervene in the proceeding.
