

impose additional reporting, disclosure, or other requirements on insured depository institutions (IDIs), each Federal banking agency must consider, consistent with the principle of safety and soundness and the public interest, any administrative burdens that the regulations would place on depository institutions, including small depository institutions and customers of depository institutions, as well as the benefits of the regulations. In addition, section 302(b) of RCDRIA requires new regulations and amendments to regulations that impose additional reporting, disclosures, or other new requirements on IDIs generally to take effect on the first day of a calendar quarter that begins on or after the date on which the regulations are published in final form.²³ Each Federal banking agency has determined that the final rule would not impose additional reporting, disclosure, or other requirements; therefore the requirements of the RCDRIA do not apply.

E. Use of Plain Language

Section 722 of the Gramm-Leach-Bliley Act²⁴ requires the Federal banking agencies to use “plain language” in all proposed and final rules published after January 1, 2000. In light of this requirement, the agencies have sought to present the final rule in a simple and straightforward manner. The agencies did not receive any comments on the use of plain language in the interim final rules.

F. OCC Unfunded Mandates Reform Act of 1995

As a general matter, the Unfunded Mandates Act of 1995 (UMRA), 2 U.S.C. 1531 *et seq.*, requires the preparation of a budgetary impact statement before promulgating a rule that includes a Federal mandate that may result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any one year. However, the UMRA does not apply to final rules for which a general notice of proposed rulemaking was not published.²⁵ Because there was no general notice of proposed rulemaking associated with the interim final rules or the final rule, the OCC concludes that the requirements of the UMRA do not apply to this final rule.

Special Local Regulation; Boat Parade; San Diego, CA

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary special local regulation (SLR) on the waters of San Diego Bay, California to provide for the safety of the participants, crew, spectators, sponsor vessels, and general users of the waterway during a boat parade. This SLR temporarily encompasses all navigable waters, from surface to bottom, on a pre-determined course in the northern portion of the San Diego Main Ship Channel from Shelter Island Basin, past the Embarcadero, crossing the federal navigable channel and ending off of Coronado Island. This SLR also establishes a designated section of the commercial anchorage area as a First Amendment area to be used at the discretion of the Captain of the Port, or his designated representative, as a spectator area.

DATES: This rule is effective from noon through 3:30 p.m. on November 1, 2020.

 NPRM Notice of proposed rulemaking
 § Section
 U.S.C. United States Code

II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because it is impracticable due to the short time between the Coast Guard becoming

aware of the event on September 22, 2020, and the scheduled event occurring on November 1, 2020. The marine event sponsor of this boat parade is expecting to draw a high concentration of vessels to the San Diego Bay area along the proposed parade route. Traditionally, the San Diego Bay area serves as a major thoroughfare for commercial traffic, naval operations, ferry routes, and a number of other recreational uses. The Coast Guard is establishing this SLR to minimize impacts on this congested waterway. We must establish this SLR by November 1, 2020 to ensure the safety of individuals, property, and the marine environment and we do not have sufficient time to request and respond to comments.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying the effective date of this rule would be contrary to public interest because prompt action is needed to respond to the potential safety hazards associated with the location, size and complexity of the boat parade that is planned to take place on November 1, 2020.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70041. The Captain of the Port (COTP) Sector San Diego has determined that potential hazards associated with the proposed parade will be a safety concern for anyone within the vicinity of the parade route. This rule is needed to protect personnel, vessels, spectators, and the marine environment in the navigable waters of the San Diego Bay in the vicinity of the marine event during the enforcement period of this rule.

IV. Discussion of the Rule

This rule establishes an SLR from noon until 3:30 p.m. on November 1, 2020. The SLR will cover all navigable waters on a pre-determined course in the northern portion of the San Diego Main Ship Channel from Shelter Island Basin, past the Embarcadero, crossing the federal navigable channel and ending off of Coronado Island. This SLR will also temporarily establish a 200-yard radius within the commercial anchorage as a First Amendment area to be used as authorized by the Captain of the Port, or his designated representative. The First Amendment area will encompass all navigable waters, from surface to bottom, within 200 yards of 32°43'11.0" N, 117°10'59.8" W, within the commercial vessel anchorage.
