

SPAC has completed a business combination of at least 80% of the trust account value, the SPAC must, among other things, submit the business combination to a shareholder vote.¹⁷ Any public shareholders who vote against the business combination have a right to convert their shares of common stock into a pro rata share of the aggregate amount then in the trust account, if the business combination is approved and consummated.¹⁸ If a shareholder vote on the business combination is not held, the SPAC must provide all shareholders with the opportunity to redeem all their shares for cash equal to their pro rata share of the aggregate amount then in the trust account.¹⁹ In addition, following a business combination, the post-business combination entity must meet Nasdaq's initial listing requirements in order to remain listed.²⁰ Nasdaq believes that these additional investor protection standards will continue to provide safeguards to shareholders who invest in SPAC securities.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that NYSE Rule 802.01B(ii) requires SPACs to have a minimum number of 300 round lot holders ("public stockholders"),²¹ however, NYSE does not require such public stockholders to hold a minimum investment amount. NYSE American Rule 119 also does not require public stockholders of a SPAC to hold a minimum investment amount. As a result of the proposed change, round lot holders of SPACs listed on Nasdaq would not be required to hold the Required Minimum Amount, similar to round lot holders of SPACs listed on NYSE and NYSE American. As a result, the proposed rule change will promote competition among exchanges since it will allow Nasdaq to list SPACs that

currently could list on NYSE and NYSE American. In addition, the proposed rule change will apply equally to all SPACs listing on Nasdaq and so won't impact competition among SPACs.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Exchange consents, the Commission shall: (a) By order approve or disapprove such proposed rule change, or (b) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or

Background

Section 326 of Title 23 U.S. Code, creates a program that allows the Secretary of the DOT (Secretary), to assign, and a State to assume, responsibility for determining whether certain highway projects are included within classes of action that are categorically excluded (CE) from requirements for environmental assessments or environmental impact statements pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et seq.* (NEPA). In addition, this program allows the assignment of other environmental review requirements applicable to these actions. The FHWA is authorized to act on behalf of the Secretary with respect to these matters. Through an amended MOU, FHWA would renew Arizona's participation in this program for the first time. The original MOU became effective on January 3, 2018, for an initial term of three (3) years and the first renewal is set to supersede the original MOU prior to its expiration date on January 3, 2021.

Stipulation I(B) of the MOU describes the types of actions for which the State would assume project-level responsibility for determining whether the criteria for a CE are met. Statewide decisionmaking responsibility would be assigned for all activities within the categories listed in 23 CFR 771.117(c) and those listed as examples in 23 CFR 771.117(d). In addition to the NEPA CE determination responsibilities, the MOU would assign to the State the responsibility for conducting Federal environmental review, consultation, and other related activities for projects that are subject to the MOU with respect to the following Federal laws and Executive Orders:

(1) Clean Air Act (CAA), 42 U.S.C. 7401-7671q. *Including determinations for project-level conformity if required for the project.*

(32) Planning and Environmental Linkages, 23 U.S.C. 168, except for those FHWA responsibilities associated with 23 U.S.C. 134 and 135.

(33) Programmatic Mitigation Plans, 23 U.S.C. 169 except for those FHWA responsibilities associated with 23 U.S.C. 134 and 135.

The MOU allows the State to act in the place of the FHWA in carrying out the functions described above, except with respect to government-to-government consultations with federally recognized Indian tribes. The FHWA will retain responsibility for conducting formal government-to-government consultation with federally recognized Indian tribes, which is required under some of the above-listed laws and executive orders. The State also may assist FHWA with formal consultations, with consent of a tribe, but FHWA remains responsible for the consultation. This assignment includes transfer to the State of Arizona the obligation to fulfill the assigned environmental responsibilities on any proposed projects meeting the criteria in Stipulation I(B) of the MOU that were determined to be CE's prior to the effective date of the proposed MOU but that have not been completed as of the effective date of the MOU. The FHWA may terminate the State's participation in this program if FHWA provides the State a notification of noncompliance, and a period of not less than 120 days to take corrective action as FHWA determines necessary, and if the State fails to take satisfactory corrective action as determined by FHWA.

The FHWA will consider the comments submitted on the proposed MOU when making its decision on whether to execute this renewal MOU. The FHWA will make the final, executed MOU publicly available.
