

31 for channel 11 at Minneapolis in the DTV Table of Allotments. The Commission instituted a freeze on the acceptance of rulemaking petitions by full power television stations requesting channel substitutions in May 2011, and Multimedia asks that the Commission waive the freeze to permit KARE to change from a VHF to a UHF channel to better serve its over-the-air viewers. Multimedia states that the Commission has recognized that VHF channels have certain propagation characteristics which may cause reception issues for some viewers. While Multimedia acknowledges that VHF reception issues are not universal, it states that since the 2009 digital transition, when it began operating exclusively on digital channel 11, KARE has received a steady stream of complaints from viewers unable to receive the station's over-the-air signal, despite being able to receive signals from other local stations. Multimedia believes that waiver of the channel substitution freeze would serve the public interest.
