SUPPLEMENTARY INFORMATION: On May 2, 2019, in Order No. 4373, DOE/FE authorized Driftwood to export domestically produced LNG in a volume equivalent to 1,415.3 billion cubic feet

per year of natural gas, pursuant to NGA section 3(a), 15 U.S.C. 717b(a).¹ Driftwood is authorized to export this LNG by vessel from the proposed Driftwood LNG Facility to be located in Calcasieu Parish, Louisiana, to any country with which the United States has not entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas, and with which trade is not prohibited by U.S. law or policy (non-FTA countries) for a 20-year term. In the Application,² Driftwood asks DOE to extend its current export term to a term ending on December 31, 2050, as provided in the Policy Statement.³ Additional details can be found in the Application, posted on the DOE/FE website at: https://www.energy.gov/sites/prod/files/2020/10/f79/Driftwood%20DOE%20Application-Term%20Extension_101920.pdf.

DOE/FE Evaluation

In the Policy Statement, DOE adopted a term through December 31, 2050 (inclusive of any make-up period), as the standard export term for long-term non-FTA authorizations.⁴ As the basis for its decision, DOE considered its obligations under NGA section 3(a), the public comments supporting and opposing the proposed Policy Statement, and a wide range of information bearing on the public interest.⁵ DOE explained that, upon receipt of an application under the Policy Statement, it would conduct a public interest analysis of the application under NGA section 3(a). DOE further stated that "the public interest analysis will be limited to the application for the term extension—meaning an intervenor or protestor may challenge the requested extension but not the existing non-FTA order."⁶

Accordingly, in reviewing Driftwood's Application, DOE/FE will consider any issues required by law or policy under NGA section 3(a), as informed by the Policy Statement. To the extent appropriate, DOE will consider the
