[WT Docket No. 19–348; FCC 20–138; FRS 17120]

Facilitating Shared Use in the 3100–3550 MHz Band**AGENCY:** Federal Communications Commission.**ACTION:** Final rule; correction.

SUMMARY: The Federal Communications Commission is correcting a final that appeared in the **Federal Register** on October 9, 2020. In the document, the Commission adopts changes to its rules to prepare the 3.45–3.55 GHz band for commercial wireless services. It removes the secondary, non-federal allocations in the 3.3–3.55 GHz band for radiolocation services and the amateur radio service. These services will continue in alternate spectrum; radiolocation operations will be moved to the 2.9–3.0 GHz band, already home to similar operations, and amateur licensees will be able to relocate their operations to other frequencies already available for amateur operations. Clearing this band of secondary services will allow the Commission to auction the 3.45–3.55 GHz band for commercial wireless services on a co-primary basis with federal radio navigation and radiolocation operations.

Modification of Deadlines Under the Fish and Fish Product Import Provisions of the Marine Mammal Protection Act

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Interim final rule; request for comments.

SUMMARY: NMFS issues this interim final rule to revise the regulations implementing the import provisions of the Marine Mammal Protection Act (MMPA). This interim final rule extends, by one year, the five-year exemption period to end December 31, 2022, and changes the deadline for comparability finding applications from March 1 of the year of expiration of a comparability finding to November 30 of the year prior to the expiration of a comparability finding, moving the comparability finding application deadline to November 30, 2021.

DATES: This interim final rule is effective November 3, 2020. Written comments must be received by 5 p.m. Eastern Time on December 3, 2020.

SUPPLEMENTARY INFORMATION:**Background**

In August 2016, NMFS published a final rule (81 FR 54390; August 15, 2016) implementing the fish and fish product import provisions (section 101(a)(2)) of the MMPA (hereafter referred to as the MMPA Import Provisions), which prohibit the import of fish or fish products from commercial fishing operations that result in the incidental mortality or serious injury of marine mammals in excess of United States standards. Specifically, this rule established conditions for evaluating a harvesting nation’s regulatory programs to address incidental and intentional mortality and serious injury of marine mammals in its fisheries producing fish and fish products exported to the United States. Fish and fish products from export and exempt fisheries identified by the Assistant Administrator for Fisheries in the List of Foreign (LOFF) can only be imported into the United States if the harvesting nation has applied for and received a Comparability Finding from NMFS. The 2016 final rule established procedures that a harvesting nation must follow and conditions it must meet to receive a Comparability Finding for a fishery. The rule also established provisions for intermediary nations to ensure that such nations do not import and re-export to the United States fish or fish products that are subject to an import prohibition.

Exemption Period

Under the MMPA Import Provisions, NMFS established an initial five-year exemption period similar to the Interim Exemption for domestic fisheries that occurred in 1988 prior to implementation of the framework for addressing marine mammal bycatch in U.S. commercial fisheries. Currently, the exemption period expires December 31, 2021. This interim final rule would extend the exemption period one year to end December 31, 2022. During the exemption period, the prohibitions of the MMPA Import Provisions do not apply to imports from the harvesting nation. NMFS established the five-year
