The lawsuit seeks injunctive relief and civil penalties for violations of the Clean Water Act, 33 U.S.C. 1319(b) and (d), based on the City's violations of the terms and conditions of its National Pollutant Discharge Elimination System ("NPDES") permit issued by the State of Colorado under Section 402(b) of the Clean Water Act, 33 U.S.C. 1342(b), for discharges of stormwater from the City's municipal separate storm sewer system, as well as for violations of the Colorado Water Quality Control Act, §§ 25-8-101 et seq. C.R.S.

The proposed Consent Decree resolves all litigation in this action. The proposed Consent Decree requires the City of Colorado Springs to implement city-wide injunctive relief to comply with its NPDES permit, perform \$11 million of mitigation to offset the environmental harm caused by its alleged violations, and pay the United States a \$1 million civil penalty. In addition, in lieu of receiving a civil penalty payment, the State of Colorado agrees that the City shall satisfy the State civil penalty through performance of a State approved supplemental environmental project valued at \$1 million, to be performed by Intervenor Plaintiff the Lower Arkansas Valley Water Conservancy District.

The WIAC is a federal advisory committee of workforce and labor market information experts representing a broad range of national, State, and local data and information users and producers. The WIAC was established in accordance with provisions of the Federal Advisory Committee Act (FACA), as amended (5 U.S.C. App.) and will act in accordance with the applicable provisions of FACA and its implementing regulation at 41 CFR 102–3. The purpose of the WIAC is to provide recommendations to the Secretary of Labor (Secretary), working jointly through the Assistant Secretary for Employment and Training and the Commissioner of Labor Statistics, to address: (1) The evaluation and improvement of the nationwide workforce and labor market information (WLMI) system and statewide systems that comprise the nationwide system; and (2) how the Department and the States will cooperate in the management of those systems. These systems include programs to produce employment-related statistics and State and local workforce and labor market information.

The Department of Labor anticipates the WIAC will accomplish its objectives by: (1) Studying workforce and labor market information issues; (2) seeking and sharing information on innovative approaches, new technologies, and data to inform employment, skills training, and workforce and economic development decision making and policy; and (3) advising the Secretary on how the workforce and labor market information system can best support workforce development, planning, and

program development. Additional information is available at www.dol.gov/agencies/eta/wioa/wiac/meetings.

Purpose: The WIAC is currently in the process of identifying and reviewing issues and aspects of the WLMI system and statewide systems that comprise the nationwide system and how the Department and the States will cooperate in the management of those systems. As part of this process, the Advisory Council meets to gather information and to engage in deliberative and planning activities to facilitate the development and provision of its recommendations to the Secretary in a timely manner.

Agenda: The tentative agenda for each meeting is as follows: (1) Comments on minutes from previous meeting, (2) continue review and discussion of WIAC recommendations from 2018, (3) continue discussion on identification of new recommendations, (4) presentations from WLMI subject matter experts for information gathering purposes, and (5) comment period for the general public. A detailed, finalized agenda will be available at www.dol.gov/agencies/eta/wioa/wiac/meetings shortly before the meetings commence.
