Notice of Lodging of Proposed Consent Decree Under the Clean Water Act

On October 29, 2020, the Department of Justice lodged a proposed Consent

Decree with the United States District Court for the District of Colorado in the lawsuit entitled *United States of America, the State of Colorado, the Lower Arkansas Valley Water Conservancy District, and the Board of County Commissioners in the County of Pueblo v. the City of Colorado Springs, Colorado*, Civil Action No. 1:16-cv-02745-JLK.

The lawsuit seeks injunctive relief and civil penalties for violations of the Clean Water Act, 33 U.S.C. 1319(b) and (d), based on the City’s violations of the terms and conditions of its National Pollutant Discharge Elimination System (“NPDES”) permit issued by the State of Colorado under Section 402(b) of the Clean Water Act, 33 U.S.C. 1342(b), for discharges of stormwater from the City’s municipal separate storm sewer system, as well as for violations of the Colorado Water Quality Control Act, §§ 25-8-101 et seq. C.R.S.

The proposed Consent Decree resolves all litigation in this action. The proposed Consent Decree requires the City of Colorado Springs to implement city-wide injunctive relief to comply with its NPDES permit, perform \$11 million of mitigation to offset the environmental harm caused by its alleged violations, and pay the United States a \$1 million civil penalty. In addition, in lieu of receiving a civil penalty payment, the State of Colorado agrees that the City shall satisfy the State civil penalty through performance of a State approved supplemental environmental project valued at \$1 million, to be performed by Intervenor Plaintiff the Lower Arkansas Valley Water Conservancy District.
