BILLING CODE 6690-01-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0723; FRS 17213]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the

following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before January 4, 2021. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele at (202) 418-2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0723.

Title: 47 U.S.C. Section 276, Public Disclosure of Network Information by Bell Operating Companies (BOCs).

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 3 respondents; 3 responses.

Estimated Time per Response: 20 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. 276 of the Telecommunications Act of 1996.

Total Annual Burden: 60 hours.

Total Annual Cost: No cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: If the Commission requests respondents to submit information to the Commission or to USAC that the respondents believe is confidential, the respondents may request confidential treatment of such information pursuant to 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60-day comment period in order to obtain the full three year clearance from OMB. Under 47 U.S.C. 276(b)(1)(C), the Bell Operating Companies (BOCs) are required to publicly disclose changes in their networks or new network services. Sections 276(b)(1)(C) directs the Commission to "prescribe a set of nonstructural safeguards for BOC payphone service to implement the provisions of paragraphs (1) and (2) of subsection (a), which safeguards shall, at a minimum, include the nonstructural safeguards equal to those adopted in the Computer Inquiry-III (CC Docket No. 90-623) proceeding." The Computer Inquiry-III network information disclosure requirements specifically state that the disclosure would occur at two different points in time. First, disclosure would occur at the make/buy point: When a BOC decides to make for itself, or procure from an unaffiliated entity, any product whose design affects or relies on the network interface. Second, a BOC would publicly disclose technical information about a new service 12 months before it is introduced. If the BOC can introduce the service within 12 months of the make/buy point, it would make a public disclosure at the make/buy point. In no event, however, would the public disclosure occur less than six months before the introduction of the service. While the scope and applicability of the Computer III safeguards have changed with the Commission's 2015 decision regarding forbearance from enforcement of the Computer III requirements (Petition of USTelecom for Forbearance Pursuant to 47 U.S.C. Section 160(c) from Enforcement of Obsolete ILEC Regulations that Inhibit Deployment of Next Generation Networks, Memorandum Opinion and Order, FCC 15-166 (2015)), these are minimum requirements under section 276(b)(1)(C) of the Act. Without information disclosures, the industry would be unable to ascertain whether the BOCs are designing new network services or changing network technical specifications to the advantage of their own payphones, or in a manner that

might disadvantage BOC payphone competitors. These requirements ensure that BOCs comply with their obligations under the Telecommunications Act of 1996.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before January 4, 2021. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should

advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418–2991.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–1116.

Title: Submarine Cable Reporting.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions.

Number of Respondents and Responses: 74 respondents; 74 responses.

Estimated Time per Response: 190 hours.

Frequency of Response: On occasion and annual reporting requirements.

Obligation to Respond: Voluntary. Statutory authority for this information collection is contained in 47 U.S.C. 151, 154(i), 303(r) and 403.

Total Annual Burden: 14,060 hours.

Total Annual Cost: None.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Information provided pursuant to this request will be viewed as presumptively confidential upon submission because the information would reflect reports on weaknesses in or damage to national communications infrastructure, and the release of this sensitive information to the public could potentially facilitate terrorist targeting of critical infrastructure and key resources. The submissions also may contain internal confidential information that constitutes trade secrets and commercial/financial information that the respondent does not routinely make public and public release of the submitted information could cause competitive harm by revealing information about the types and deployment of cable equipment and the traffic that flows across the system. For these reasons, the information requested in (b) (Terrestrial Route Map) and (c) (Undersea Location Spreadsheet) above is presumptively exempt from public disclosure under Freedom of Information Act (FOIA) Exemption 3, 5 U.S.C. 552(b)(3), and section 4(j) of the Communications Act of 1934, as amended, 47 U.S.C. 154(j), as implemented in 47 CFR 0.457(c)(1)(i) (exempting disclosure of “maps showing the exact location of submarine cables”). The information requested in (a) (System Status and Restoration Messages) and (d) (Restoration

Capability) described above will be considered exempt under Exemption 4 of the Freedom of Information Act (FOIA), 5 U.S.C. 552(b)(4). If a FOIA request is filed for information submitted in response to this request, the respondent whose records are the subject of the request will be notified of the FOIA request and given the opportunity to oppose release of the records. See 47 CFR 0.461(d)(3). We note that the information provided in response to this request will be shared with the Department of Homeland Security's National Communications System (NCS) and relevant Executive Branch agencies on a confidential basis. See 44 U.S.C. 3510.

Needs and Uses: This information is needed in order to support Federal government national security and emergency preparedness communications programs, for the purposes of providing situational awareness of submarine cable system performance as well as a greater understanding of potential physical threats to the submarine cable systems. This information will provide situational awareness regarding the operational status of submarine cable systems to the Federal government, and allow the Executive Branch to assess potential risks and threats to these critical communications systems in the context of other available information.
