

2019, in *Center for Biological Diversity et al. v. EPA et al.* (N.D. Ca) (3:11-cv-00293).

The atrazine, simazine and propazine BEs follow the *Revised Method for National Level Listed Species Biological Evaluations of Conventional Pesticides* (see docket ID number EPA-HQ-OPP-2019-0185-0084 at www.regulations.gov). EPA utilized the Revised Method for the first time when conducting the methomyl and carbaryl draft BEs, for which the Agency solicited public comment for a total of 120 days. EPA is currently evaluating public comments received and will take them into consideration for the final BEs for these pesticides. Comments received on carbaryl and methomyl that are applicable to the broader BE methodology will also be incorporated

into the final BEs for atrazine, simazine, and propazine.

After reviewing comments received during the public comment period on the atrazine, simazine, and propazine draft BEs, EPA will issue final BEs and a response to public comments document. If EPA determines that these pesticides may affect listed species and/or their designated critical habitats, EPA will initiate consultation with the Services. Based on the BEs, the Services will then develop Biological Opinions for atrazine, simazine, and propazine.

C. Public Comments Sought

Pursuant to 40 CFR 155.53(c) and consistent with the enhanced stakeholder engagement practices (see docket ID number EPA-HQ-OPP-2012-0442), EPA is providing an opportunity, through this notice of availability, for

interested parties to provide comments and input concerning the Agency’s draft BEs for atrazine, simazine, and propazine. Such comments could address, among other things, the application of the Agency’s revised risk assessment methodologies to and assumptions for these draft BEs.

The file sizes of the draft BEs for atrazine, simazine, and propazine exceed the docket system’s file size limitation, therefore these documents are not posted to this BE docket. Instead, the BEs are posted on EPA’s endangered species web page (see web links provided in the Table below). Commenters are instructed to post comments on the BEs to this BE docket (EPA-HQ-OPP-2020-0514) in www.regulations.gov, as indicated in the Table below.

2. *Information submission requirements.* Anyone may submit data or information in response to this document. To be considered during a pesticide’s registration review, the submitted data or information must meet the following requirements:

- To ensure that EPA will consider data or information submitted, interested persons must submit the data or information during the comment period. The Agency may, at its discretion, consider data or information submitted at a later date.

- The data or information submitted must be presented in a legible and useable form. For example, an English translation must accompany any material that is not in English and a written transcript must accompany any information submitted as an audio-

graphic or video-graphic record. Written material may be submitted in paper or electronic form.

- Submitters must clearly identify the source of any submitted data or information.

- Submitters may request the Agency to reconsider data or information that the Agency rejected in a previous review. However, submitters must explain why they believe the Agency should reconsider the data or information in the pesticide’s registration review.

Proposed Information Collection Request; Comment Request; General Administrative Requirements for Assistance Programs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), “General Administrative Requirements for Assistance Programs” (EPA ICR No. 0938.22, OMB Control No. 2030-0020 to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through April 30, 2021. In addition, this ICR includes EPA’s Disadvantaged Business Enterprise (DBE) Program as a result of the

relocation of the DBE Program from the Office of Small and Disadvantaged Business Utilization to the Office of Grants and Debarment. The information collection activities for the DBE Program were previously covered under OMB Control Number 2090-0030. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before January 5, 2021.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OARM-2016-0762 online using www.regulations.gov (our preferred method), by email to docket_oms@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Elizabeth January, Office of Grants and Debarment, National Policy, Training and Compliance Division, Mail Code: 3903R, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (617) 918-8655; fax number: (202) 565-2470; email address: January.Elizabeth@epa.gov.

SUPPLEMENTARY INFORMATION: Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of

the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The information is collected from applicants and recipients of EPA assistance to monitor adherence to the programmatic and administrative requirements of the Agency's financial assistance program which includes the Agency's DBE program. The information collected is used to make awards, pay recipients, and collect information on how Federal funds are being spent. EPA needs this information to meet its Federal stewardship responsibilities. This ICR renewal requests authorization for the collection of information under EPA's General Regulation for Assistance Programs, which establishes minimum management requirements for all recipients of EPA grants or cooperative agreements (assistance agreements). Recipients must respond to these information requests to obtain and/or retain a benefit (Federal funds). For awards made prior to December 26, 2014, 40 CFR part 30, "Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations," establishes the management requirements for institutions of higher education, hospitals, and other non-profit organizations, as well as procurement requirements for non-governmental recipients. For awards made prior to December 26, 2014, 40 CFR part 31, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments," includes the management requirements for States, local governments, and Indian Tribal governments. These regulations include only those provisions mandated by statute, required by Office of Management and Budget (OMB) Circulars, or added by EPA to ensure sound and effective financial assistance management. For awards made after December 26, 2014, 2 CFR 200 and EPA's implementation of

2 CFR 200 at 2 CFR 1500 "Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards" establishes the management requirements for all entity types. These regulations include only those provisions mandated by statute, required by OMB Circulars, or added by EPA to ensure sound and effective financial assistance management. For all awards, 40 CFR part 33 "Participation by Disadvantaged Business Enterprises in Procurement under Environmental Protection Agency (EPA) Financial Assistance Agreements" establishes DBE utilization requirements for all entity types. These regulations include only those provisions mandated by statute or added by EPA to ensure sound and effective financial assistance management with respect to DBE utilization. This ICR combines all of these requirements under OMB Control Number 2030-0020. The information required by these regulations will be used by EPA award officials to make assistance awards and assistance payments and to verify that the recipient is using Federal funds appropriately.
