

assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Impact Study of Federally-Funded Magnet Schools.

OMB Control Number: 1850-0943.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: Individuals and Households.

Total Estimated Number of Annual Responses: 706.

Total Estimated Number of Annual Burden Hours: 629.

Abstract: The Office of Management and Budget (OMB) package requests clearance for data collection activities to support a rigorous Impact Study of Federally-Funded Magnet Schools. The Institute of Education Sciences (IES) at the U.S. Department of Education (ED) has contracted with Mathematica Policy Research and its subcontractor, Social Policy Research Associates (SPR), to conduct this evaluation (ED-IES-17-C-0066). The evaluation included an initial feasibility assessment and determined that a rigorous impact study can be conducted.

The impact study would collect survey data from principals and district administrative records on admissions lotteries and student progress. The study would use these data to estimate the impacts of magnet schools on student achievement and diversity and to describe whether particular features of magnet schools are associated with greater success. The study would also collect survey data from charter schools on their admissions practices to provide context for the impact study findings.

Dated: November 5, 2020.

Stephanie Valentine,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

BILLING CODE 4000-01-P

DEPARTMENT OF EDUCATION

[Docket No.: ED-2020-SCC-0170]

Evaluating the DC Opportunity Scholarship Program After the 2017 Reauthorization; Correction

AGENCY: Department of Education (ED), Institute for Education Sciences (IES).

ACTION: Notice; Correction.

SUMMARY: On November 5, 2020, the U.S. Department of Education published a 60-day comment period notice in the **Federal Register** with FR DOC# 2020-24608 (Page 70596, First Column, Second Column; Page 70597, First Column) seeking public comment for an information collection entitled, "Evaluating the DC Opportunity Scholarship Program After the 2017 Reauthorization." The docket number is incorrect. The correct docket number is ED-2020-SCC-0173.

The PRA Coordinator, Strategic Collections and Clearance, Office of the Chief Data Officer, Office of Planning, Evaluation and Policy Development, hereby issues a correction notice as required by the Paperwork Reduction Act of 1995.

Dated: November 3, 2020.

Stephanie Valentine,

PRA Coordinator, Strategic Collections and Clearance, Office of the Chief Data Officer, Office of Planning, Evaluation and Policy Development.

BILLING CODE 4000-01-P

DEPARTMENT OF EDUCATION

[Docket No.: ED-2020-SCC-0141]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; 21st CCLC 4201(b)(1) Waiver Request

AGENCY: Office of Elementary and Secondary Education, Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, ED is

proposing an extension without change of a currently approved collection.

DATES: Interested persons are invited to submit comments on or before December 10, 2020.

ADDRESSES: Written comments and recommendations for proposed information collection requests should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection request by selecting "Department of Education" under "Currently Under Review," then check "Only Show ICR for Public Comment" checkbox.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Miriam Lund, 202-401-2871.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: 21st CCLC 4201(b)(1) Waiver Request.

OMB Control Number: 1810-0746.

Type of Review: Extension without change of a currently approved collection.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 53.

Total Estimated Number of Annual Burden Hours: 159.

Abstract: The Nita M. Lowey 21st Century Community Learning Centers (21st CCLC) grant program intends to offer a waiver available to State education agencies (SEAs) based on section 8401 [20 U.S.C. 7861] of the Elementary and Secondary Education Act, as reauthorized by the Every Student Succeeds Act (ESSA) in 2015 to allow SEAs to waive the definition of Community Learning Center(s) for implementation of services during “nonschool hours or periods when school is not in session (such as before and after school or during summer recess)” per section 4201 (b)(1)(A) [20 U.S.C. 7171] for 21st CCLC programs in school year 2020–2021. The purpose for this new collection is to collect waiver requests from each State wishing to take advantage of the waiver.

Dated: November 4, 2020.

Kate Mullan,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

Record of Decision for Final Environmental Impact Statement for Remediation of Area IV and the Northern Buffer Zone of the Santa Susana Field Laboratory, California

AGENCY: Office of Environmental Management, U.S. Department of Energy.

ACTION: Record of decision for groundwater remediation, Area IV, Santa Susana Field Laboratory.

SUMMARY: The U.S. Department of Energy (DOE) announces its decision to initiate groundwater remediation in Area IV of the Santa Susana Field Laboratory (SSFL). DOE–EM will implement the preferred alternatives for groundwater remediation identified in the SSFL Area IV Final Environmental Impact Statement (EIS), with the exception of Building 4100/Building 56 Landfill Trichloroethylene (TCE) Plume, for which DOE will implement monitored natural attenuation. This alternative is a combination of the Treatment Alternative and the Monitored Natural Attenuation Alternative. This action will be taken in accordance with applicable federal, state, and local laws and regulations, and approvals made by the California Department of Toxic Substances Control (DTSC). This action will also be taken

consistent with agreements and decisions resulting from interagency consultations conducted in accordance with applicable federal, state, and local laws and regulations, including the Programmatic Agreement executed with the California State Historic Preservation Officer pursuant to the National Historic Preservation Act and the Biological Opinion issued by the U.S. Fish and Wildlife Service pursuant to the Endangered Species Act.

ADDRESSES: This Record of Decision (ROD), the SSFL Area IV Final EIS, and related National Environmental Policy Act (NEPA) documents are available at the DOE SSFL Area IV website (<http://etec.energy.gov>) and the DOE NEPA website (<http://energy.gov/nepa>).

FOR FURTHER INFORMATION CONTACT: For further information on the SSFL Area IV Final EIS, the ROD, and DOE cleanup actions within Area IV of SSFL, please contact, Mr. John Jones, Energy Technology Engineering Center (ETEC) Federal Project Director, U.S. Department of Energy at john.jones@emcbc.doe.gov. For general information on DOE’s NEPA process, please contact Mr. Bill Ostrum, NEPA Compliance Officer, U.S. Department of Energy, Office of Environmental Management, 1000 Independence Avenue SW, Washington, DC 20585–0103; Telephone: (202) 586–2513; or Email: william.ostrum@hq.doe.gov.

SUPPLEMENTARY INFORMATION:

Background

DOE prepared the SSFL Area IV Final EIS (DOE/EIS–0402) in accordance with NEPA (42 U.S.C 4321 *et seq.*), Council on Environmental Quality (CEQ) NEPA regulations (40 CFR parts 1500–1508), and DOE’s NEPA Implementing Procedures (10 CFR part 1021).¹ DOE announced its intent to prepare an EIS on May 16, 2008, (73 FR 28437) and conducted public scoping. DOE prepared a Draft EIS and distributed it to interested parties. Following the U.S. Environmental Protection Agency (EPA) notice of availability of the SSFL Area IV Draft EIS (82 FR 4336; January 13, 2017), DOE conducted public hearings and invited comment on the Draft EIS. After considering comments received on the Draft EIS, DOE addressed the comments and prepared a Final EIS that was issued with EPA’s Notice of

Availability (83 FR 67282; December 28, 2018). On September 27, 2019, DOE announced its decision to demolish the 18 buildings it owns in Area IV of the SSFL and to dispose of or recycle the resulting building materials off-site (84 FR 51149; September 27, 2019).

The California Department of Toxic Substances Control (DTSC) is in the process of completing its *Program Environmental Impact Report for the Santa Susana Field Laboratory, Ventura County, California* (SSFL EIR), prepared under the California Environmental Quality Act (CEQA). The DTSC SSFL EIR also assesses proposed groundwater remediation actions at SSFL. Should DTSC—in its CEQA Findings of Fact and/or Resource Conservation and Recovery Act (RCRA) Statement of Basis for groundwater cleanup—make a decision inconsistent with the DOE NEPA EIS and this ROD, DOE will confer with DTSC and determine whether modifications or additional actions related to groundwater cleanup in Area IV and the Northern Buffer Zone (NBZ) are required.

SSFL, located on approximately 2,850 acres in the hills between Chatsworth and Simi Valley, California, was developed as a remote site to test rocket engines and conduct nuclear research. Rocket engine testing by North American Aviation (later Rockwell International [Rocketdyne]) began in 1947. In the mid-1950s, the Atomic Energy Commission (AEC), a predecessor agency to DOE, funded nuclear research on a 90-acre parcel within Area IV of SSFL. The Energy Technology Engineering Center (ETEC) was established on this parcel as a “center of excellence” for liquid metals research. A total of 10 small reactors were built and operated as part of nuclear research that ended in 1982. DOE-directed liquid metals research continued until 1988.

DOE initiated the investigation of groundwater at Area IV in 1986 when the first monitoring well was installed. Since that time DOE has installed more than 130 monitoring wells to identify the presence and type of groundwater contamination. The investigation work was summarized in the *Final RCRA Facility Groundwater Remedial Investigation Report, Area IV* (August 2019). The groundwater investigation work involved the 14 solid waste management units assigned to DOE in the DTSC 2007 Consent Order for Corrective Action (2007 CO) and areas adjacent to these units including the NBZ and the Brandeis property. The investigation identified seven areas in Area IV with differing groundwater impact issues related to solvents,

¹ The CEQ published on July 16, 2020 the “Final Rule Update to the Regulations Implementing the Procedural Provisions of the National Environmental Policy Act”. The SSFL Area IV EIS was started prior to September 14, 2020 (the effective date for CEQ’s updated NEPA regulations). DOE completed the EIS and is issuing this ROD pursuant to DOE’s NEPA regulations and the 1978 CEQ regulations.
