FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0441; FRS 17224]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before January 11, 2021. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0441.

Title: Section 90.621, Selection and Assignment of Frequencies and Section 90.693, Grandfathering Provisions for Incumbent Licensees.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions; and State, Local, or Tribal Government.

Number of Respondents: 50 respondents; 50 responses.

Estimated Time per Response: 1.5 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 154(i) and 309(j).

Total Annual Burden: 75 hours.

Total Annual Cost: \$6,250.

Privacy Impact Assessment: No impact(s).

Needs and Uses: Section 90.621(b)(4) allows stations to be licensed at distances less than those prescribed in the Short-Spacing Separation Table where applicants “secure a waiver.” Applicants seeking a waiver in these circumstances are still required to submit with their application an interference analysis, based upon any of the generally-accepted terrain-based propagation models, demonstrating that co-channel stations would receive the same or greater interference protection than provided in the Short-Spacing Separation Table.

Section 90.621(b)(5) permits stations to be located closer than the required separation, so long as the applicant provides letters of concurrence indicating that the applicant and each co-channel licensee within the specified separation agree to accept any interference resulting from the reduced separation between systems. Applicants are still required to file such concurrence letters with the Commission. Additionally, the Commission did not eliminate filings required by provisions such as international agreements, its environmental (National Environmental Protection Act (NEPA)) rules, its antenna structure registration rules, or

quiet zone notification/filing procedures.

Section 90.693 requires that 800 MHz incumbent Specialized Mobile Radio (SMR) service licensees “notify the Commission within 30 days of any changes in technical parameters or additional stations constructed that fall within the short-spacing criteria.” It has been standard practice for incumbents to notify the Commission of all changes and additional stations constructed in cases where such stations are in fact located less than the required 70 mile distance separation, and are therefore technically “short-spaced,” but are in fact fully compliant with the parameters of the Commission’s Short-Spacing Separation Table.

The Commission uses this information to determine whether to grant licenses to applicants making “minor modifications” to their systems which do not satisfy mileage separation requirements pursuant to the Short-Spacing Separation Table.

Federal Communications Commission.

Secretary, Office of the Secretary.

Shippers or vessel-operating common carriers (VOCCs) are required to file service contracts with the Commission on form FMC–83. ADDRESSES: Submit written comments to Rachel E. Dickon, Secretary, Federal Maritime Commission, 800 N Capitol Street NW, Washington, DC 20573–0001; or, email comments to: Secretary@fmc.gov (email comments as an attachment in MS Word or PDF). Include in the Subject Line: Comments on Systems of Records Notice FMC–40.

SUPPLEMENTARY INFORMATION: The FMC SERVCON system does not meet the requirements of a Privacy Act System of Records because it does not maintain “records” as defined under the Privacy Act (PA), that are “about” an individual. The PA states “no agency shall disclose any record which is contained in a system of records . . .” 5 U.S.C. 552a(b). The term “record” as used in the PA, means “any item, collection, or grouping of information about an individual that is maintained by an agency, including, but not limited to, his education, financial transactions, medical history, and criminal or employment history and that contains his name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a finger or voice print or a photograph;” 5 U.S.C.552a(4). (Emphasis added).

The purpose of the FMC SERVCON system is to “record, review, and manage contractual arrangements by organizations performing services as registered VOCCs and non-vessel-operating common carriers in order to ensure legal operating requirements are met.” FMC SERVCON Privacy Impact Statement (PIA), *available at:* <https://www.fmc.gov/wp-content/uploads/2018/10/SERVCONPIA-2013.pdf>. There are no reports in SERVCON produced on individuals.

SERVCON, however does have information protected by statute and possibly business confidential information. All SERVCON system protections will continue to be maintained in accordance with the security and privacy protections in place for the FMC’s General Support System and the FMC SQL Database, within which SERVCON is operated.
