SUPPLEMENTARY INFORMATION:

Title of Collection: AmeriCorps External Reviewer Survey.

OMB Control Number: 3045-0090.

Type of Review: New.

Respondents/Affected Public: Individuals and Households.

Total Estimated Number of Annual Responses: 250.

Total Estimated Number of Annual Burden Hours: 60.

Abstract: The External Reviewer Survey is used by individuals who have served as External Reviewers or External Panel Coordinators for AmeriCorps to review grant applications. The information collected will be used by the Corporation for National and Community Service (operating as AmeriCorps) to assess and make improvements to grant competitions. The information is collected electronically. This is a new information collection.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the

collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information. All written comments will be available for public inspection on regulations.gov.

Dated: November 6, 2020.

Amy Hetrick,

Deputy Director, Office of Grant Administration.

BILLING CODE 6050-28-P

DEPARTMENT OF DEFENSE

Department of the Army

[Docket ID: USA-2020-HQ-0006]

Submission for OMB Review; Comment Request

AGENCY: U.S. Army Corps of Engineers (USACE), Department of the Army, Department of Defense (DoD).

ACTION: 30-Day information collection notice.

SUMMARY: DoD has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by December 14, 2020.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular

information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Angela James, 571-372-7574, or whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Wetland Determination Automated Data Sheets and Jurisdictional Determination Forms; Eng Form 6116 (1-9); OMB Control Number 0710-XXXX.

Type of Request: New.

Number of Responses: 33,279.

Responses per Respondent: 1.

Annual Responses: 33,279.

Average Burden per Response: 63.03 minutes.

Annual Burden Hours: 34,960.

Needs and Uses: In an effort to address regional wetland characteristics and improve the accuracy and efficiency of wetland delineation procedures, the USACE Research and Development Center (ERDC) developed ten regional supplements to the USACE manual, the most recent of which were issued in 2006. In developing the regional supplements, the USACE recognized that a single national manual is unable to consider regional differences that are important to the identification and functioning of wetlands. The wetland indicators and guidance provided in the 10 regional supplements are designed to be used in combination with the USACE manual to identify wetland waters of the United States. These forms are most often completed by USACE Project Managers or environmental consultants, but may also be completed by applicants themselves. The Automated Wetland Determination Sheets (ADSs) in this collection package streamline the information collection process by incorporating reference material and analytical processes directly into the form, which is provided as a Microsoft Excel document rather than the PDF form included in the regional supplements. The ADSs also automatically complete data analysis using inputted information, saving users time and effort and reducing the likelihood of human error. Applicants for USACE permits are generally required to submit JDs as part of their permit application or in support of the permit evaluation process. If wetlands are present, the USACE generally requires that JDs include adequately documented wetland data sheets in order for the JD to be considered technically adequate. The ADSs are formatted such that they may be readily

converted to Portable Document Format (PDF) for inclusion as part of the applicant's JD report.

Jurisdictional Determination Forms are tools used by the USACE to help implement Section 404 of the Clean Water Act (CWA) and Sections 9 and 10 of the Rivers and Harbors Act of 1899 (RHA). JDs specify what geographic areas will be treated as subject to regulation by the USACE under one or both statutes. The three types of JDs included in this package are the Approved Jurisdictional Determination (AJD), Dry Land AJD, and Preliminary Jurisdictional Determination (PJD). The AJD form provides an official determination that there are/are not jurisdictional aquatic resources on a parcel based on the jurisdictional requirements, while the Dry Land AJD provides official determination that jurisdictional aquatic resources are absent. The PJD form is used to determine whether aquatic resources that exist on a particular parcel "may be" subject to regulatory jurisdiction.

It should be noted that the forms in this collection package may support associated permit reviews included in collection 0710-0003 which expires on 28 February 2022. Though they are being reviewed to be cleared under a new OMB control number, these forms and data sheets or any variations thereof will be included in the next renewal request for collection 0710-0003, which includes the standard and nationwide permit application forms, and will also include any local district forms in existence when the renewal package is submitted.

Affected Public: Individual or household.

Frequency: Annually.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Mr. Vlad Dorjets.

You may also submit comments and recommendations, identified by Docket ID number and title, by the following method:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

Instructions: All submissions received must include the agency name, Docket ID number, and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

DOD Clearance Officer: Ms. Angela James.

Requests for copies of the information collection proposal should be sent to Ms. James at whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

Dated: October 27, 2020.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Corps Water Infrastructure Financing Program (CWIFP) Preliminary Application; OMB Control Number 0710-XXXX.

Type of Request: New.

Number of Respondents: 15.

Responses per Respondent: 1.

Annual Responses: 15.

Average Burden per Response: 50 hours.

Annual Burden Hours: 750.

Needs and Uses: The Water Infrastructure Finance and Innovation Act of 2014 (WIFIA, see also at 33 U.S.C. 3901-3914) authorizes entities such as corporations, partnerships, joint ventures, trusts, state infrastructure financing authorities, and federal, tribal, state or local government entities are

eligible to receive federal credit assistance. The Preliminary Application collection requirement is necessary to (1) validate the eligibility of the prospective borrower and the proposed project, (2) perform a preliminary creditworthiness assessment, (3) perform a preliminary engineering and environmental feasibility assessment, and (4) evaluate the project against the selection criteria. Based on evaluation of the Preliminary Application, USACE will invite prospective borrowers to submit an application for projects likely to proceed to closing. Only five applicants are expected to move forward with the application process, and thus the Application is not subject to the provisions of the Paperwork Reduction Act and not included in this information collection proposal.

Affected Public: State, Local, or Tribal Governments; Private Sector; Federal Government.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Mr. Vlad Dorjets.
