II. Additional Information

The NRC is issuing for public comment a draft guide in the NRC's "Regulatory Guide" series. This series was developed to describe methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, to explain techniques that the staff uses in evaluating specific issues or postulated events, and to describe information that the staff needs in its review of applications for permits and licenses.

The DG, titled "Risk-Informed, Performance-Based Fire Protection for Existing Light-Water Nuclear Power Plants," is temporarily identified by its task number, DG-1360 (ADAMS Accession No. ML20231A856). The draft guide DG-1360 is a proposed Revision 2 of RG 1.205. This revision of the guide (Revision 2) addresses new information identified since the guide was previously revised in 2009. This RG updates the previous staff positions and endorsements made regarding earlier versions of Nuclear Energy Institute (NEI) guidance documents, NEI-04-02, "Guidance for Implementing a Risk-Informed, Performance-Based Fire Protection Program Under 10 CFR 50.48(c)," and NEI 00-01, "Guidance for Post Fire Safe Shutdown Circuit Analysis." This revision endorses NEI 04-02, Revision 3, issued 2019, and portions of NEI-00-01, Revision 4, issued 2019, and includes guidance concerning fire-induced circuit failures.

The staff is also issuing for public comment a draft regulatory analysis (ADAMS Accession No. ML20231A891). The staff develops a regulatory analysis to assess the value of issuing or revising a regulatory guide as well as alternative courses of action.

Backfitting, Forward Fitting, and Issue Finality

DG-1360, if finalized, would incorporate the latest information concerning risk-informed, performance-based fire protection programs and supporting guidance. Issuance of DG-1360, if finalized, would not constitute backfitting, as that term is defined in

section 50.109 of title 10 of *Code of Federal Regulations* (CFR), "Backfitting," and as described in NRC Management Directive 8.4, "Management of Backfitting, Forward Fitting, Issue Finality, and Information Requests"; constitute forward fitting, as that term is defined and described in Management Directive 8.4; or affect the issue finality of any approval issued under 10 CFR part 52. As explained in DG-1360, applicants and licensees would not be required to comply with the positions set forth in DG-1360.
