Civil Action No. 1:20-cv-03064-TNM

Complaint

The United States of America brings this civil antitrust action to enjoin the acquisition of certain assets of AT&T Inc. in Puerto Rico and the U.S. Virgin Islands by Liberty Latin America Ltd. and to obtain other equitable relief.

I. Nature of the Action

1. On October 9, 2019, Liberty Latin America Ltd. ("Liberty") entered into an agreement to purchase the wireless and wireline telecommunications operations of AT&T Inc. ("AT&T") in Puerto Rico and the U.S. Virgin Islands. Liberty does not compete with AT&T in the U.S. Virgin Islands or in the provision of wireless telecommunications services in Puerto Rico. Liberty does, however, compete directly with AT&T in the provision of wireline telecommunications services in Puerto Rico. The proposed transaction would eliminate this competition.

2. Specifically, Liberty and AT&T currently compete to provide wireline telecommunications services over fiber-optic networks that they own in Puerto Rico. Liberty and AT&T use these networks to provide fiber-based connectivity and telecommunications services to enterprise customers across the island. The enterprise customers that purchase these services include businesses of all sizes as well as institutions, such as universities, hospitals, and government agencies. Enterprise customers use these services to reliably transport data among their offices and other locations, place phone calls, and access the internet at high speeds. Many enterprise customers demand the high levels of quality and reliability that fiber-based services provide.

3. Liberty and AT&T have two of the three most extensive fiber-based networks in Puerto Rico. For many buildings on the island, Liberty and AT&T are either the only two providers, or two of only three providers, that own a direct fiber connection to the building. For many other buildings to which Liberty and AT&T do not own direct fiber connections, they are the only two providers, or two of only three providers, with fiber located close enough to connect their networks to the building economically. Liberty and AT&T compete particularly closely for customers that have multiple locations spread across Puerto Rico and demand service from a single provider that can
