

Centers to target and integrate services within four main pillars: Economic empowerment, educational advancement, health and wellness, and character and leadership. In June 2018, HUD designated 18 EnVision Centers as part of the initiative's first cohort of designations and has since expanded the initiative with three additional cohorts—a total of over 40 designated EnVision Centers. This new and rapidly growing initiative creates a critical need to gain an in-depth understanding from local stakeholders of implementation efforts to date, which will help develop and guide the initiative while establishing a framework of knowledge for future program monitoring and evaluation efforts. The evaluation team will collect data from sites using qualitative, semi-structured interviews with four groups of key local stakeholders: Site leadership, front line staff, participants, and representatives from organizations (partners) that provide services and resources to the EnVision Center. The interviews will primarily seek to understand how communities selected and established

their center, the process for centralized intake and participant level data collection, and how new partnerships and services have developed since the center's designation. Through an Inter-Agency Agreement (IAA), the Library of Congress' Federal Research Division will conduct the evaluation under guidance from HUD.

Respondents: This evaluation will conduct qualitative, semi-structured interviews with four groups of respondents: Leadership, front line staff, participants, and partners. 18 EnVision Center sites will be selected for interviews. Leadership will include community executives (from Public Housing Authorities, local government, non-profits, etc.) who were involved with early planning efforts that led the community to apply for EnVision Center designation, and persons involved with managing the daily operations of the center. Front line staff will include onsite service coordinators, intake workers, and case managers who are involved with the intake and triaging of services or work directly with connecting participants to services at

the EnVision Center. Participants will include persons who were offered or have received services or assistance at the EnVision Center. Partners will be representatives from organizations (such as service providers, faith-based entities, or philanthropic organizations) that provide services and resources at the EnVision Center.

Estimated Number of Respondents: A total of about 270 respondents for the semi-structured interviews, with about 15 respondents for each site.

Estimated Time per Response: We expect each qualitative interview to last about 1 hour.

Frequency of Response: 1 time.

Estimated Total Annual Burden Hours: 270 burden hours for the qualitative interviews.

Estimated Total Annual Cost: \$5,372 for the qualitative interviews.

Respondent's Obligation: Voluntary.

Legal Authority: The interviews will be conducted under Title 12, United States Code, Section 1701z and Section 3507 of the Paperwork Reduction Act of 1995, 44, U.S.C., 35, as amended.

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response ¹	Cost
