

If this information is not collected, vital feedback from customers and stakeholders on the Commission's services will be unavailable. Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential nonresponse bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature.

The Agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are noncontroversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency;
- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

(3) Estimated Burden of the Proposed Information Collection

The Commission estimates that information collections issued under the requested generic clearance will impose an average annual burden of 300 hours on 600 respondents.

No record-keeping burden is known to result from the proposed collection of information.

By order of the Commission,

Issued: November 18, 2020.

Lisa Barton,

Secretary to the Commission.

SUPPLEMENTARY INFORMATION: On August 24, 2020, the Commission instituted this investigation based on a complaint filed by Versa Products Inc. of Los Angeles, California ("complainant"). 84 FR 52150 (Aug. 24, 2020). The complaint, as

supplemented, alleges violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, due to the importation into the United States, sale for importation, or sale in the United States after importation of certain height-adjustable desk platforms and components thereof by reason of infringement of U.S. Patent No. 10,485,336. The complaint also alleges the existence of a domestic industry.

The notice of investigation names seven (7) respondents, including Varidesk LLC of Coppell, Texas, CKNAPP Sales, Inc. of Goodfield, Illinois, Loctek, Inc. of Livermore, California, Locktek Ergonomic Technology Corporation and Zhejiang Loctek Smart Drive Technology Co., Ltd. both of Zhejiang, China, Amazon Import Inc. On October 22, 2020, Complainant filed a motion to terminate the investigation in its entirety based on withdrawal of the complaint. OUII and the respondents, with the exception of Amazon, filed responses indicating that they do not oppose the motion.

On November 3, 2020, the ALJ issued Order No. 7 granting the motion. The ID found that the complainant represented that "there are no agreements, written or oral, express or implied, between the parties concerning the subject matter of this investigation." The ID also found that there are no extraordinary circumstances that warrant denying the motion. No party petitioned for review of the ID.

The Commission has determined not to review Order No. 7. The investigation is terminated.

The Commission vote for this determination took place on November 18, 2020.

The authority for the Commission's determination is contained in Section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission's Rules of Practice and Procedure (19 CFR part 210).

By order of the Commission.

Issued: November 18, 2020.
