The Administrator also establishes APQ for all other schedule I and II controlled substances included in 21 CFR 1308.11 and 1308.12 at zero. In accordance with 21 CFR 1303.13 and 21 CFR 1315.13, upon consideration of the relevant factors, the Administrator may adjust the 2021 APQ and AAN as needed.

Timothy J. Shea,
Acting Administrator.

BILLING CODE 4410-09-P

NATIONAL SECURITY COMMISSION ON ARTIFICIAL INTELLIGENCE

[Docket No. 11-2020-01]

National Security Commission on Artificial Intelligence; Notice of Federal Advisory Committee Meeting

AGENCY: National Security Commission on Artificial Intelligence.

ACTION: Notice of Federal Advisory Committee meeting.

SUMMARY: The National Security Commission on Artificial Intelligence (the "Commission") is publishing this notice to announce the following asynchronous Federal Advisory Committee meeting and paper review process. The meeting will be closed to the public.

DATES: Closed to the public, December 15, 2020 to February 14, 2021.

FOR FURTHER INFORMATION CONTACT: Ms. Angela Ponmakha, 703-614-6379 (Voice), nsc-ai-dfo@nsc-ai.gov. Mailing address: Designated Federal Officer, National Security Commission on Artificial Intelligence, 2530 Crystal Drive, Box 45, Arlington, VA 22202. website: <https://www.nsc-ai.gov>.

SUPPLEMENTARY INFORMATION: The meeting and paper review process are being held under the provisions of the

Federal Advisory Committee Act (FACA) (5 U.S.C., Appendix), the Government in the Sunshine Act (5 U.S.C. 552b), and 41 CFR 102-3.140 and 102-3.150.

Purpose of the Meeting: The John S. McCain National Defense Authorization Act for Fiscal Year 2019 (FY19 NDAA), Sec. 1051, Public Law 115-232, 132 Stat. 1636, 1962-65 (2018), created the Commission to "consider the methods and means necessary to advance the development of artificial intelligence, machine learning, and associated technologies by the United States to comprehensively address the national security and defense needs of the United States." The Commission will consider potential recommendations to Congress and the Executive Branch. According to the FY19 NDAA, the Commission "may include a classified annex."

Agenda: Due to the restrictions on in-person meetings imposed by the COVID-19 pandemic—including travel, social distancing, and other factors—the Commission will hold an asynchronous Federal Advisory Committee meeting beginning on or about December 15, 2020 and ending on or about February 14, 2021. For the asynchronous meeting, individual commissioners or small groups of commissioners will meet with Commission staff during this period of time to discuss and deliberate specifically on the Commission's draft classified annex. The Designated Federal Officer, Ms. Angela Ponmakha, or an alternate designated federal officer will convene and conclude all such meetings. Due to the restrictions from the COVID-19 pandemic, Commissioners may also deliberate and vote on the classified annex through a paper approval process managed by the Designated Federal Officer and relevant Commission staff. All materials and discussions in the asynchronous meeting and paper approval process will be classified.

Meeting Accessibility: In accordance with Section 10(d) of the FACA, NSCAI has determined the series of meetings and paper approval process will be closed to the public. Specifically, the Commission's Committee Management Officer, in consultation with the General Services Administration's Secretariat and Office of General Counsel, has determined in writing that the meetings will be closed to the public because they will consider matters covered by 5 U.S.C. 552b(c)(1). The determination is because it is expected that discussions throughout the course of the asynchronous meeting and the paper approval process will involve classified matters of national security concern. Such classified material is so intertwined with the unclassified material that it cannot be reasonably segregated into separate discussions without defeating the effectiveness and meaning of the overall meetings. To permit the meeting to be open to the public would preclude discussion of such matters and would greatly diminish the ultimate utility of the Commission's findings and recommendations to the Congress and the President.

Written Statements: Written comments may be submitted to the Commission at any time regarding its mission or in response to the stated agenda of planned meetings via email to: nsc-ai-dfo@nsc-ai.gov in either Adobe Acrobat or Microsoft Word format. The DFO will compile all written submissions and provide them to the Commissioners for consideration. Please note that all submitted comments will be treated as public documents and will be made available for public inspection, including, but not limited to, being posted on the Commission's website.

Dated: November 24, 2020.

Michael Gable,
Chief of Staff.

BILLING CODE 3610-Y8-P

NUCLEAR REGULATORY COMMISSION

[NRC-2020-0132]

Environmental Assessments and Findings of No Significant Impacts of Independent Spent Fuel Storage Facilities Decommissioning Funding Plans

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impacts; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is publishing this notice regarding the issuance of a Final Environmental Assessment (EA) and a Finding of No Significant Impacts (FONSI) for its review and approval of the initial and updated decommissioning funding plans submitted by independent spent fuel storage installation (ISFSI) licensees for the ISFSIs listed in the “Discussion” section of this document.

DATES: November 30, 2020.

ADDRESSES: Please refer to Docket ID NRC-2020-0132 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2020-0132. Address questions about Docket IDs in *Regulations.gov* to Jennifer Borges; telephone: 301-287-9127; email:

Jennifer.Borges@nrc.gov. For technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to *pdr.resource@nrc.gov*. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *Attention:* The PDR, where you may examine and order copies of public documents is currently closed. You may submit your request to the PDR via email at *PDR.Resource@nrc.gov* or call 1-800-397-4209 between 8:00 a.m. and 4:00 p.m. (EST), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Donald Habib, telephone: 301-415-1035, email: *Donald.Habib@nrc.gov* or Bernard White, telephone: 301-415-6577, email: *Bernie.White@nrc.gov*. Both are staff of the Office of Nuclear Material Safety and Safeguards at the U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is considering the approval of the initial and updated decommissioning funding plans (DFPs) submitted by ISFSI licensees. The NRC staff has prepared a Final EA and FONSI determination for each of the initial and updated ISFSI DFPs in accordance with the NRC regulations in part 51 of title

10 of the *Code of Federal Regulations* (10 CFR), “Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions,” which implement the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*).

The NRC requires its licensees to plan for the eventual decommissioning of their licensed facilities prior to license termination. On June 17, 2011, the NRC published a final rule in the **Federal Register** amending its decommissioning planning regulations (76 FR 35511). The final rule amended the NRC regulation, 10 CFR 72.30, which concerns financial assurance and decommissioning for ISFSIs. This regulation requires each holder of, or applicant for, a license under 10 CFR part 72 to submit a DFP for the NRC’s review and approval. The DFP is to demonstrate the licensee’s financial assurance, *i.e.*, that funds will be available to decommission the ISFSI.

II. Discussion

The table in this notice includes the plant name, docket number, licensee, and ADAMS Accession Number for the Final EA and FONSI determination for each of the individual ISFSIs. The table also includes the ADAMS Accession Number for other relevant documents, including the initial and updated DFP submittals, as well as the financial analyses documenting the findings of reasonable assurance that funds will be available to decommission the ISFSIs. For further details with respect to these actions, see the NRC staff’s Final EA and FONSI determinations and financial analyses approving the DFP, which are available for public inspection in ADAMS and at <https://www.regulations.gov> under Docket ID NRC-2020-0132. For additional direction on accessing information related to this document, see the **ADDRESSES** section of this document.

FINDING OF NO SIGNIFICANT IMPACTS

Arkansas Nuclear One, Units 1 and 2

| | |
|--|--|
| Docket No. | 72-13. |
| Licensee | Entergy Operations, Inc., currently Entergy Nuclear Company, LLC (Entergy). |
| Proposed Action | The NRC’s review and approval of Entergy’s initial and updated DFPs submitted in accordance with 10 CFR 72.30(b) and (c). |
| Environmental Impacts of Proposed Action | The NRC staff has determined that the proposed action, the review and approval of Entergy’s initial and updated DFPs, submitted in accordance with 10 CFR 72.30(b) and (c), will not authorize changes to licensed operations or maintenance activities, or result in changes in the types, characteristics, or quantities of radiological or non-radiological effluents released into the environment from the ISFSI, or result in the creation of solid waste. Moreover, the approval of the initial and updated DFPs will not authorize any construction activity, facility modification, or other land-disturbing activity. The NRC staff has concluded that the proposed action is a procedural and administrative action that will not have a significant impact on the environment. |
