SUPPLEMENTARY INFORMATION:

The Quarterly Census of Employment and Wages (QCEW) program is a federal/state cooperative effort which compiles monthly employment data, quarterly wages data, and business identification information from employers subject to state Unemployment Insurance (UI) laws. These data are collected from state Quarterly Contribution Reports (QCRs) submitted to State Workforce Agencies (SWAs). The states send micro-level employment and wages data, supplemented with the names, addresses, and business identification information of these employers, to the BLS. The state data are used to create the BLS sampling frame, known as the longitudinal QCEW data. To ensure the continued accuracy of these data, the information supplied by employers must be periodically verified and updated. For this purpose, the Annual Refiling Survey (ARS) is used in conjunction with the UI tax reporting system in each state. The information collected by the ARS is used to review the existing industry code assigned to each establishment as well as the physical location of the business establishment. As a result, changes in the industrial and geographical compositions of our economy are captured in a timely manner and reflected in the BLS statistical programs. The ARS also asks employers to identify new locations in the state. If these employers meet QCEW program reporting criteria, then a Multiple Worksite Report (MWR) is sent to the employer requesting employment and wages for each worksite each quarter. Thus, the ARS is also used to identify new potential MWR-eligible employers. Office of Management and Budget clearance is being sought for a revision to the ARS. Once every three years, the SWAs survey employers that are covered by the state's UI laws to ensure that state records correctly reflect the business activities and locations of those employers. States survey approximately one-third of their businesses each year and largely take care of the entire universe of covered businesses over a three-year cycle. The selection criterion for surveying

establishments is based on the nine-digit Federal Employer Identification Number of the respondent. BLS constantly pursues a growing number of automated reporting options to reduce employer burden and costs and to take advantage of more efficient methods and procedures. Even given such actions, mailing remains an important part of the survey. The BLS developed a one-page letter rather than mailing forms for ARS solicitation. This letter explains the purpose of the ARS and provides respondents with a unique Web ID and password. Respondents are directed to the BLS online web collection system to verify or to update their geographic and industry information. Additionally, BLS staff review selected, large multi-worksite national employers rather than surveying these employers with traditional ARS forms. This central review reduces postage costs incurred by the states in sending letters or forms. It also reduces respondent burden, as the selected employers do not have to return forms either. BLS continues to use a private contractor to handle various administrative aspects of the survey to reduce the costs associated with the ARS. This initiative is called the Centralized Annual Refiling Survey (CARS). Under CARS, BLS effectively utilizes the commercial advantages related to printing and mailing large volumes of survey letters. Finally, BLS continues to make use of email addresses collected from the ARS and from the state Unemployment Insurance agencies for solicitation purposes. Use of email for solicitation reduces the overall cost of data collection. BLS will also continue to make use of email solicitation of small establishments that had been excluded from the ARS for budgetary reasons. Since collection costs for email solicitation are minimal, these respondents can continue to be added back to the ARS at little cost to the government. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 24, 2020 (85 FR 52158).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

NUCLEAR REGULATORY COMMISSION

[NRC-2020-0247]

Applications and Amendments to Facility Operating Licenses and Combined Licenses Involving Proposed No Significant Hazards Considerations and Containing Sensitive Unclassified Non-Safeguards Information and Order Imposing Procedures for Access to Sensitive Unclassified Non-Safeguards Information

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment request; notice of opportunity to comment, request a hearing, and petition for leave to intervene; order imposing procedures.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) received and is considering approval of three amendment requests. The amendment requests are for Waterford Steam Electric Station, Unit 3; Hope Creek Generating Station; and Sequoyah Nuclear Plant, Units 1 and 2. For each amendment request, the NRC proposes to determine that they involve no significant hazards consideration (NSHC). Because each amendment request contains sensitive unclassified non-safeguards information (SUNSI), an order imposes procedures to obtain access to SUNSI for contention preparation.

DATES: Comments must be filed by December 31, 2020. A request for a hearing or petition for leave to intervene must be filed by February 1, 2021. Any potential party as defined in section 2.4 of title 10 of the *Code of Federal Regulations* (10 CFR) who believes access to SUNSI is necessary to respond to this notice must request document access by December 11, 2020.

ADDRESSES: You may submit comments by any of the following methods however, the NRC encourages electronic comment submission through the Federal Rulemaking website:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2020-0247. Address questions about Docket IDs in *Regulations.gov* to Jennifer Borges; telephone: 301-287-9127; email: Jennifer.Borges@nrc.gov.
