

## II. Additional Information About the Proposed Consent Decree

The proposed consent decree would require the EPA to take action pursuant to CAA section 110(k) on an Arizona state implementation plan (SIP) submission. On May 31, 2012, pursuant to CAA section 107(d), EPA designated a portion of Pinal County in Arizona as nonattainment for the PM<sub>10</sub> NAAQS, effective July 2, 2012. On December 21, 2015, the Arizona Department of Environmental Quality (“ADEQ”) submitted a SIP submission to EPA intended to meet the applicable Moderate nonattainment area plan requirements for the West Pinal nonattainment area. EPA determined that part of the SIP submission was complete on March 21, 2016, and EPA published a final rule approving that part of the SIP submission on May 1, 2017 (82 FR 20267).

The proposed consent decree would require the Administrator, pursuant to CAA sections 110(k)(2)–(4), to take action on the remaining portion of Arizona’s December 21, 2015, nonattainment plan SIP submission that EPA did not previously address in the May 1, 2017, final action.

Under the terms of the proposed consent decree, EPA shall sign a notice or notices of final rulemaking that approve, disapprove, conditionally approve, or approve in part and disapprove in part, the remaining portion of Arizona’s December 21, 2015, nonattainment plan SIP submission for the West Pinal area by July 30, 2021.

For a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.

## III. Additional Information About Commenting on the Proposed Consent Decree

Submit your comments, identified by Docket ID No. EPA–HQ–OGC–2020–0569, via <https://www.regulations.gov>. Once submitted, comments cannot be edited or removed from this docket. The EPA may publish any comment received to its public docket. Do not submit to EPA’s docket at <https://www.regulations.gov> any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is

restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>. For additional information about submitting information identified as CBI, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this document. Note that written comments containing CBI and submitted by mail may be delayed and deliveries or couriers will be received by scheduled appointment only.

If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an email address or other contact information in the body of your comment. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket and made available in EPA’s electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the <https://www.regulations.gov> website to submit comments to EPA electronically is EPA’s preferred method for receiving comments. The electronic public docket system is an “anonymous access” system, which means EPA will not know your identity, email address, or other contact information unless you provide it in the body of your comment.

Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked “late.” EPA is not required to consider these late comments.

**Abstract:** Section 3004 of the Resource Conservation and Recovery Act (RCRA), as amended, requires the EPA to develop standards for hazardous waste treatment, storage, and disposal facilities (TSDFs) as may be necessary to protect human health and the environment. Subsections 3004(a)(1), (3), (4), (5), and (6) specify that these standards include, but not be limited to, the following requirements:

- Maintaining records of all hazardous wastes identified or listed under subtitle C that are treated, stored, or disposed of, and the manner in which such wastes were treated, stored, or disposed of;
- Operating methods, techniques, and practices for treatment, storage, or disposal of hazardous waste;
- Location, design, and construction of such hazardous waste treatment, disposal, or storage facilities;
- Contingency plans for effective action to minimize unanticipated damage from any treatment, storage, or disposal of any such hazardous waste; and
- Maintaining or operating such facilities and requiring such additional qualifications as to ownership, continuity of operation, training for personnel, and financial responsibility as may be necessary or desirable.

The regulations implementing these requirements are codified in 40 CFR parts 264 and 265. The collection of this information enables the EPA to properly determine whether owners/operators or hazardous waste treatment, storage, and disposal facilities meet the requirements of Section 3004(a) of RCRA.

**Form Numbers:** None.

**Respondents/affected entities:**

Business and other for-profit, as well as State, Local, and Tribal governments.

**Respondent's obligation to respond:**

Mandatory (RCRA section 3004).

**Estimated number of respondents:** 1,191.

**Frequency of response:** On occasion.

**Total estimated burden:** 558,042 hours per year. Burden is defined at 5 CFR 1320.03(b).

**Total estimated cost:** \$37,504,209 (per year), which includes \$337,223 annualized capital or operation & maintenance costs.

**Changes in the Estimates:** There is decrease of 25,195 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is not due to a program change, but is due to the Agency's push to have facilities leave interim status and enter permitted status, as well as facilities wishing to close to enter post-closure status. This has led to a dramatic decrease in the number of interim status facilities, as well as increased the number of facilities in post-closure.
