This is a proposed extension of the ICR, which is currently approved through January 31, 2021. Public comments were previously requested, via the **Federal Register** on May 12, 2020 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov, or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA’s public docket, visit: <http://www.epa.gov/dockets>.

Abstract: Owners and operators of affected facilities are required to comply with reporting and record keeping requirements for the General Provisions (40 CFR part 264, subpart A and 40 CFR 265, Subpart A), as well as for the specific requirements at 40 CFR part 264, Subpart CC and 40 CFR part 265, Subpart CC. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with these standards.

Form Numbers: None.

Respondents/affected entities: Facilities that treat, store, or dispose of hazardous wastes in tanks, surface impoundments, and containers.

Respondent’s obligation to respond: Mandatory (40 CFR part 264, subpart CC and 40 CFR part 265, subpart CC).

Estimated number of respondents: 6,760 (total).

Frequency of response: Occasionally and semiannually.

Total estimated burden: 775,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$105,000,000 (per year), which includes \$13,500,000 in annualized capital and/or operation & maintenance costs.

Changes in the Estimates: There is an adjustment increase in the total estimated burden as currently identified

in the OMB Inventory of Approved Burdens. This increase is not due to any program changes; the regulations have not changed over the past three years and are not anticipated to change over the next three years. The Agency estimate of the number of respondents has increased and there is an attendant increase in the cost of monitoring, recordkeeping, and reporting. The increase in the estimated number of respondents is due to a re-examination of the Agency’s ECHO database of sources subject to hazardous waste and Resource Conservation and Recovery Act requirements.

Director, Regulatory Support Division.

The proposed consent decree would establish a deadline for EPA to take action on the remaining portions of the SIP submission.
