BILLING CODE P

SURFACE TRANSPORTATION BOARD

[Docket No. FD 36328]

Ken Tenn Regional Rail Partners, Inc.—Construction & Operation Exemption—In Fulton County, Ky. and Obion County, Tenn.

On September 2, 2020, Ken Tenn Regional Rail Partners, Inc. (KTRRP), a noncarrier, filed a petition for exemption under 49 U.S.C. 10502 from the prior approval requirements of 49 U.S.C. 10901 for authorization to construct and operate approximately 12.17 miles of rail line (Line) between milepost TennKen 51.69 at the Hickman-Fulton County River Port (Port) in Fulton County, Ky., and milepost UCT 450 near Union City, in Obion County, Tenn.

KTRRP asks that the Board issue a preliminary decision addressing the transportation merits of the construction project while the environmental review is ongoing. As discussed below, the Board concludes that such an approach is appropriate here and preliminarily concludes, subject to completion of the ongoing environmental review, that the proposed construction meets the

statutory standards for exemption under section 10502. This decision only addresses the transportation merits, however, and does not grant the exemption or allow construction to begin. After the Board has considered the potential environmental impacts associated with this proposal, it will issue a final decision either granting the exemption, with conditions if appropriate, or denying it.

Background

KTRRP states that it is a non-profit corporation created to construct and operate the Line by the Fulton County Industrial Development Authority of Kentucky, which provides assistance with economic development in Fulton County, and the Industrial Development Board of the City of Union City, which is an economic development agency and sub-entity of Union City. (Pet. 3.)¹

The petition states that the Port is a public entity that provides bulk and break-bulk cargo transfer operations for a variety of commodities and transloading transfer service, storage, and rail service. (*Id.* at 3-4.) Rail service at the Port is provided by the TennKen Railroad Company (TennKen), which connects with Canadian National Railway Company (CN) at Dyersburg, Tenn. (*Id.* at 4.)

As noted above, the proposed Line would begin at the Port at milepost TennKen 51.69, near the Mississippi River, and extend to milepost UCT 450 in Obion County. (*Id.* at 2.) According to KTRRP, two separate segments of the Line, totaling 3.47 miles, would be built over existing rights-of-way that are not currently in use: One would run from Union City to the north, on the west side of Tennessee Highway 21 to the Tennessee/Kentucky state line and then along the west side of Kentucky State Route 239 to Kentucky State Route 166; the other would parallel the east side of Kentucky Highway 125 just north of Kentucky Highway 166 for approximately 0.75 miles. The remainder of the Line would be newly constructed right-of-way running east to west until connecting to TennKen in Fulton County, Ky. (*Id.* at 6, Ex. B, Joint V.S. Billingsley & Curlin 3.) KTRRP notes that the proposed Line ultimately would join TennKen with the Union City Terminal Railroad to create a 46.1-mile loop connecting with CN at both Dyersburg and Rives, Tenn. (Pet., Ex. B, Joint V.S. Billingsley & Curlin 4.)

KTRRP states that the proposed Line is located in an area that is a “lightly

¹ KTRRP states that it intends to contract with a Class III rail carrier to operate over the proposed Line. (Pet. 5.)
