SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time

and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

In 2016, OSHA established the Safe + Sound Campaign, a voluntary effort to support the implementation of safety and health programs in businesses throughout the United States. Outside stakeholders, including safety and health professional organizations, trade and industry associations, academic institutions, and state and federal government agencies, collaborate with the agency on the Campaign. The Campaign includes periodic activities and events, ranging from regular email updates to quarterly national webinars to local meetings to an annual national stand down (*i.e.*, Safe + Sound Week), designed to increase overall employer and employee awareness and understanding of safety and health programs and promote employer adoption of these programs. OSHA believes widespread implementation of such programs will substantially improve overall workplace safety and health conditions.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

The Agency is requesting an adjustment increase of 91 in burden hours (from 754 hours to 845 hours) resulting from an increase in the number of respondents due to an increase of participants and the addition of the focus group interviews.

Type of Review: Extension of a currently approved collection.

Title: Safe + Sound Campaign.

OMB Control Number: 1218-0269.

Affected Public: Business or other for-profits.

Number of Respondents: 11,585.

Frequency of Responses: Annually.

Average Time per Response: Time varies per response.

Estimated Total Burden Hours: 845.

Estimated Cost (Operation and Maintenance): \$25,209.88.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. *Please note:* While OSHA's Docket Office is continuing to accept and process submissions by regular mail, due to the COVID-19 pandemic, the Docket Office is closed to the public and not able to receive submissions to the docket by hand, express mail, messenger, and courier service.
