Information Collections Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192; or by email to *gs-info_ collections@usgs.gov*. Please reference OMB Control Number 1028–xxxx in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Michael Tinker by email at *mdtinker@usgs.gov*, or by telephone at 303–202–4476.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information-may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The Hydrography Maintenance Portal (HMP) is a website used by trained editors to access data from the USGS National Hydrography Dataset (NHD) or Watershed Boundary Dataset (WBD) national databases for the purpose of editing the data to update, correct, or otherwise improve it. HMP is used by federal employees of the USGS National Geospatial Program (NGP) and

state partners with which USGS has a signed Stewardship Program Memorandums of Understanding (MOU). USGS employees use the HMP as their primary means of accessing NHD and WBD for data management. State partners use the HMP to check out areas of the NHD and/or WBD to perform edits and updates to the data using their specialized, local knowledge of the streams in their areas. These data contributions are very important to maintaining the datasets as A-16 National Geospatial Data Assets, as well as helping to prevent duplication of data by supporting editing of one primary dataset by many. Using HMP, NHD or WBD data is

Using HMP, NHD or WBD data is "checked out" from a national database for a select area. No other editor can check out the data for an area when the data is already checked out. The HMP is *not* used to directly edit or submit ("check in") data to the national database. Data checked out with HMP must be edited with USGS hydrography editing tools, such as the WBD Edit Tool or the NHD Update Tool. To check in data, editors must use the USGS hydrography editing tools.

An HMP user must take special training from USGS staff before they can register for an HMP user account. After training, users register an HMP user account with their business contact information including first/last name, business phone, state, and work organization. Registered users are then assigned check out permissions by the HMP administrators. HMP administrators are a limited group of the USGS NHD/WBD Partner Support Team. HMP user accounts are necessary because they allow HMP administrators to provide assistance if needed, to coordinate production needs, and enable tracking on the editing history for the datasets through reporting.

HMP has reporting functions to generate production statistics. These reports detail active and previous checkout histories within specified date ranges. The business contact information of the users who checked out the data are visible on these reports. Any registered user can generate reports with HMP.

HMP reports are frequently used to coordinate essential production needs between states, or between USGS staff and state partners. The reports allow USGS staff to contact partners if there is a problem with their data or allow partners to contact partners in others states to confirm if editing work is planned or occurring in an adjacent watershed.

Title of Collection: Hydrography Maintenance Portal.

OMB Control Number: New. *Form Number:* None.

Type of Review: New.

Respondents/Affected Public: General public. NHD stewards and editors.

affiliated with Federal, State, Local governments, and universities.

Total Estimated Number of Annual Respondents: 200.

Total Estimated Number of Annual Responses: 200.

Estimated Completion Time per Response: 1 hour.

Total Estimated Number of Annual Burden Hours: 200.

Respondent's Obligation: Voluntary. Frequency of Collection: Total Estimated Annual Nonhour

Burden Cost: None.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Final Supplemental Environmental Impact Statement for the Proposed Arrow Canyon Solar Project, Clark County, Nevada

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of availability.

SUMMARY: This notice advises the public that the Bureau of Indian Affairs (BIA), as the lead Federal agency, with the Bureau of Land Management (BLM), the **Environmental Protection Agency** (EPA), U.S. Fish and Wildlife Service (USFWS), and the Moapa Band of Paiute Indians (Moapa Band) as cooperating agencies, intends to file a final supplemental environmental impact statement (FSEIS) with the EPA for the proposed Arrow Canyon Solar Project (ACSP or Project). The FSEIS evaluates the expansion of the previously approved Moapa Solar Energy Center (MSEC) Project on the Moapa River Indian Reservation (Reservation) in Clark County, Nevada. This notice also announces that the FSEIS is now available for public review.

DATES: The FSEIS is available at the following website:

www.arrowcanyonsolarseis.com. In order to be fully considered, written comments on the FSEIS must arrive no later than 30 days after EPA publishes its Notice of Availability in the **Federal Register**.

ADDRESSES: You may mail, hand carry, fax, or email written comments to Mr. Chip Lewis, Regional Environmental Protection Officer, BIA Western Regional Office, Branch of Environmental Quality Services, 2600 North Central Avenue, 4th Floor Mail Room, Phoenix, Arizona 85004–3008; fax (602) 379–3833; email: *chip.lewis*@ *bia.gov.*

FOR FURTHER INFORMATION CONTACT: Mr. Chip Lewis, BIA Western Regional Office, Branch of Environmental Quality Services at (602) 379–6750 or Mr. Garry Cantley at (602) 379–6750.

SUPPLEMENTARY INFORMATION: The proposed Federal action, taken under 25 U.S.C. 415, is BIA's approval of a lease to accommodate the expansion of the solar field previously approved for the MSEC Project and the modification of the existing solar energy ground lease and related agreements entered into by the Moapa Band with the Applicant. The agreements provide for construction, operation and maintenance (O&M), and decommissioning of a 200-megawatt (MW) alternating current solar photovoltaic (PV) electricity generation facility located entirely on the Reservation and specifically on lands held in trust for the Moapa Band.

The MSEC Project was originally developed by Moapa Solar LLC and included an 850-acre solar site on the Reservation and associated rights-ofway (ROWs) on BLM-managed lands for an access road, gen-tie line, and water pipeline. Records of Decision (RODs) were issued by the BIA and BLM in May 2014 and BIA approved the lease one month later. The ROW was issued by BLM in August 2015 for the linear facilities. In March 2017, EDF Renewables Development, Inc. (EDFR) purchased the MSEC Project from the original owner and renamed the Project the Arrow Canyon Solar Project. EDFR subsequently transferred the Project to Arrow Canvon Solar, LLC. Currently, the approved MSEC Project and associated facilities have not yet been constructed.

The Applicant currently plans to expand the solar field on the Reservation from 850 acres to 2,200 acres. This expansion would occur on Tribal lands identified by the Moapa Band that are adjacent to the originally approved MSEC site. The linear facilities, (*i.e.* main access road, 230kV gen-tie line, and water pipeline) as previously approved by the BLM would remain a part of the Project description; therefore, these facilities are not reevaluated. The FSEIS focuses on the expansion of the solar field only.

Construction of the Project is expected to take approximately 18 to 20 months. The Applicant is expected to operate the energy facility up to 50 years. Major components of the solar site would include multiple blocks of solar PV panels mounted on tracking systems, inverters, transformers, collection lines, battery storage facilities, project substation, and O&M facilities. Water will be needed during construction primarily for dust control and a minimal amount will be needed during operations for administrative and sanitary water use and panel washing. The water supply required for the Project would be from wells owned by the Moapa Band and delivered to the site via the previously approved water pipeline or trucks. Access to the ACSP will be provided via North Las Vegas Boulevard from the I-15/US 93 interchange.

The purposes of the proposed Project are, among other things, to: (1) help provide a long-term, diverse, and viable economic revenue base and job opportunities for the Moapa Band; (2) meet the terms of the existing Power Purchase Agreement for the output of the Project; (3) help Nevada and neighboring states to meet their State renewable energy needs; and (4) allow the Moapa Band, in partnership with the Applicant, to optimize the use of the lease site while maximizing the potential economic benefit to the Moapa Band.

The BIA will use the FSEIS to make a decision on the land lease application under its jurisdiction; the EPA may use the document to make decisions under its authorities; the Band may use the FSEIS to make decisions under its Environmental Policy Ordinance; and the USFWS may use the FSEIS to support its decision under the Endangered Species Act.

Directions for Submitting Comments: Please include your name, return address and the caption: "FSEIS Comments, Proposed Arrow Canyon Solar Project" on the first page of your written comments and send to the address listed above in the **ADDRESSES** section.

Locations Where the FSEIS is Available for Review: The FSEIS will be available for review at: BIA Western Regional Office, 2600 North Central Avenue, 12th Floor, Suite 210, Phoenix, Arizona and the BIA Southern Paiute Agency, 180 North 200 East, Suite 111, St. George, Utah. The FSEIS is also available on line at: www.arrowcanyonsolarseis.com.

To obtain an electronic copy of the FSEIS, please provide your name and address in writing or by voicemail to Mr. Chip Lewis or Mr. Garry Cantley. Their contact information is listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice. Individual paper copies of the FSEIS will be provided only upon request.

Public Comment Availability: Written comments, including names and addresses of respondents, will be available for public review at the BIA Western Regional Office, 2600 North Central Avenue, 12th Floor, Suite 210, Phoenix, Arizona during regular business hours, 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. Before including your address, telephone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying informationmay be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: This notice is published in accordance with section 1503.1 of the Council on Environmental Quality regulations (40 CFR 1500 *et seq.*) and the Department of the Interior Regulations (43 CFR part 46) implementing the procedural requirements of the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*), and in accordance with the exercise of authority delegated to the Assistant Secretary—Indian Affairs by part 209 of the Department Manual.

Tara Sweeney,

Assistant Secretary—Indian Affairs. [FR Doc. 2020–27220 Filed 12–10–20; 8:45 am] BILLING CODE 4337–15–P
