Persons with hearing or speech impairments may access this number through TTY by calling the toll-free Federal Relay Service at (800) 877-8339. This is not a toll-free number. Copies of available documents submitted to OMB may be obtained from Ms. Pollard.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD has submitted to OMB a request for approval of the information collection described in Section A. The **Federal Register** notice that solicited public comment on the information collection for a period of 60 days was published on October 9, 2018 at 83 FR 50676.

A. Overview of Information Collection

Title of Information Collection: Public Housing Agency (PHA) 5-Year and Annual Plan.

OMB Approval Number: 2577-0226.

Type of Request: Revision of currently approved collection.

Form Number(s): HUD-50075-5Y, HUD-50075-ST, HUD-50075-SM, HUD-50075-HCV, HUD-50075-HP, HUD-50075-MTW, HUD-50077-CR, HUD-50077-SL, HUD-50077-CRT-SM, and HUD-50077-ST-HCV-HP.

Description of the need for the information and proposed use: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the Department of Housing and Urban Development (HUD) has submitted to the Office of Management and Budget (OMB) a request to review and approve the information collection listed below. The Public Housing Agency (PHA) Plan was created by section 5A of the United States Housing Act of 1937 (42 U.S.C. 1437c-1). There are two different PHA Plans: The Five-Year Plan and the Annual Plan. The Five-Year Plan describes the agency's mission, long-range goals and objectives for achieving its mission over a five-year period. The Annual PHA Plan is a comprehensive guide to PHA policies, programs, operations, and strategies for meeting local housing needs and goals. This revision integrates the MTW Supplement to the Annual PHA Plan process for PHAs that join MTW under the 2016 Appropriations Act (*i.e.*, MTW Expansion).

The PHA Plans informs HUD, residents, and the public of the PHA's mission for serving the needs of low, very low-income, and extremely low-income families and its strategy for addressing those needs. This information helps provide accountability to the local community

for how PHAs spend their funding and implement their policies. Also, PHA Plans allow HUD to monitor the performance of programs and the performance of public housing agencies that administer them.

This proposed information collection was previously published in the **Federal Register** on October 9, 2018 (FR 83, 50676) and allowed 60-days for public comment. It should be noted that all forms except for the Moving to Work (MTW) Supplement were published in the **Federal Register** on October 30, 2019 (FR 84, 58167) for a 30-day public comment period. The four public comments received for the documents included in that notice were addressed at that time. The MTW Supplement was not included in this publication due to revisions that were needed as part of ongoing work on the MTW Operations Notice, which has now been published. The purpose of this 30-day notice is to respond to public comments received during the 60-day public comment period on the MTW Supplement and to allow for the 30-day public comment period for the MTW Supplement.

Respondents (i.e. affected public): Local, Regional and State Body Corporate Politic Public Housing Agencies (PHAs) Governments.

Estimated Number of Respondents: 3,780.

Estimated Number of Responses: 4,832 (Annual Plan: 1,152 and 5 Year Plan: 3,780).

Frequency of Response: Every five years for all PHAs, annually for all PHAs except HERA Qualified PHAs.

Average Hours per Response: 6.33 hrs.

Total Estimated Burdens: 14,613.74.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

(5) Ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

HUD encourages interested parties to submit comment in response to these questions.

Authority

Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.

D. Overview of Significant Changes Made to the HUD-50075-MTW, MTW Supplement to the Annual PHA Plan

The MTW Supplement has been updated to reflect the final MTW Operations Notice, which was published in the **Federal Register** (FR 85, 53444) on August 28, 2020, and public comments received during the 60-day **Federal Register** public comment period. A copy of the draft HUD-50075 MTW can be obtained per the information provided earlier in this notice under "For further information", or on the HUD Moving to Work website at <https://www.hud.gov/mtw>.

The other forms in the PHA Plan data collection were published in the **Federal Register** on October 30, 2019 for the 30-day public comment period and, therefore, are not included in this 30-day **Federal Register** notice.

Colette Pollard,

*Department Reports Management Officer,
Office of the Chief Information Officer.*

BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Geological Survey

[GX21EG31DW50100; OMB Control Number 1028-New]

Agency Information Collection Activities; Hydrography Maintenance Portal

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of Information Collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Geological Survey (USGS) are proposing a new information collection.

DATES: Interested persons are invited to submit comments on or before February 9, 2021.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to U.S. Geological Survey,

Information Collections Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028–xxxx in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Michael Tinker by email at mdtinker@usgs.gov, or by telephone at 303–202–4476.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The Hydrography Maintenance Portal (HMP) is a website used by trained editors to access data from the USGS National Hydrography Dataset (NHD) or Watershed Boundary Dataset (WBD) national databases for the purpose of editing the data to update, correct, or otherwise improve it. HMP is used by federal employees of the USGS National Geospatial Program (NGP) and

state partners with which USGS has a signed Stewardship Program Memorandums of Understanding (MOU). USGS employees use the HMP as their primary means of accessing NHD and WBD for data management. State partners use the HMP to check out areas of the NHD and/or WBD to perform edits and updates to the data using their specialized, local knowledge of the streams in their areas. These data contributions are very important to maintaining the datasets as A–16 National Geospatial Data Assets, as well as helping to prevent duplication of data by supporting editing of one primary dataset by many.

Using HMP, NHD or WBD data is “checked out” from a national database for a select area. No other editor can check out the data for an area when the data is already checked out. The HMP is *not* used to directly edit or submit (“check in”) data to the national database. Data checked out with HMP must be edited with USGS hydrography editing tools, such as the WBD Edit Tool or the NHD Update Tool. To check in data, editors must use the USGS hydrography editing tools.

An HMP user must take special training from USGS staff before they can register for an HMP user account. After training, users register an HMP user account with their business contact information including first/last name, business phone, state, and work organization. Registered users are then assigned check out permissions by the HMP administrators. HMP administrators are a limited group of the USGS NHD/WBD Partner Support Team. HMP user accounts are necessary because they allow HMP administrators to provide assistance if needed, to coordinate production needs, and enable tracking on the editing history for the datasets through reporting.

HMP has reporting functions to generate production statistics. These reports detail active and previous checkout histories within specified date ranges. The business contact information of the users who checked out the data are visible on these reports. Any registered user can generate reports with HMP.

HMP reports are frequently used to coordinate essential production needs between states, or between USGS staff and state partners. The reports allow USGS staff to contact partners if there is a problem with their data or allow partners to contact partners in others states to confirm if editing work is planned or occurring in an adjacent watershed.

Title of Collection: Hydrography Maintenance Portal.

OMB Control Number: New.
Form Number: None.
Type of Review: New.
Respondents/Affected Public: General public. NHD stewards and editors. affiliated with Federal, State, Local governments, and universities.
Total Estimated Number of Annual Responses: 200.
Total Estimated Number of Annual Responses: 200.
Estimated Completion Time per Response: 1 hour.
Total Estimated Number of Annual Burden Hours: 200.
Respondent's Obligation: Voluntary.
Frequency of Collection:
Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

David Brostuen,

Acting Director, National Geospatial Technical Operations Center.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[212A2100DD AAK6006201
AOR3030.999900]

Final Supplemental Environmental Impact Statement for the Proposed Arrow Canyon Solar Project, Clark County, Nevada

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of availability.

SUMMARY: This notice advises the public that the Bureau of Indian Affairs (BIA), as the lead Federal agency, with the Bureau of Land Management (BLM), the Environmental Protection Agency (EPA), U.S. Fish and Wildlife Service (USFWS), and the Moapa Band of Paiute Indians (Moapa Band) as cooperating agencies, intends to file a final supplemental environmental impact statement (FSEIS) with the EPA for the proposed Arrow Canyon Solar Project (ACSP or Project). The FSEIS evaluates the expansion of the previously approved Moapa Solar Energy Center (MSEC) Project on the Moapa River Indian Reservation (Reservation) in Clark County, Nevada. This notice also announces that the FSEIS is now available for public review.
