

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–90597; File No. SR–EMERALD–2020–15]

### Self-Regulatory Organizations; MIAX Emerald, LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule To Adopt a One-Time Membership Application Fee, Application Programming Interface (“API”) Testing and Certification Fees, and Network Connectivity Testing and Certification Fees

December 8, 2020.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),<sup>1</sup> and Rule 19b–4 thereunder,<sup>2</sup> notice is hereby given that on November 25, 2020, MIAX Emerald, LLC (“MIAX Emerald” or “Exchange”), filed with the Securities and Exchange Commission (“Commission”) a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend the MIAX Emerald Fee Schedule (the “Fee Schedule”) to establish: (1) One-time membership application fees for new MIAX Emerald Members;<sup>3</sup> and (2) per-instance Application Programming Interface (“API”) Testing and Certification fees and Network Connectivity Testing and Certification fees for Members and non-Members.

The text of the proposed rule change is available on the Exchange’s website at <http://www.miaxoptions.com/rule-filings/emerald>, at MIAX’s principal office, and at the Commission’s Public Reference Room.

#### II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the

proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

##### A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

###### 1. Purpose

The Exchange proposes to amend the Fee Schedule to establish: (1) One-time membership application fees for new MIAX Emerald Members based upon the applicant’s status as either an Electronic Exchange Member (“EEM”)<sup>4</sup> or as a Market Maker;<sup>5</sup> and (2) per-instance API Testing and Certification fees and Network Connectivity Testing and Certification fees for Members and non-Members.

MIAX Emerald commenced operations as a national securities exchange registered under Section 6 of the Act<sup>6</sup> on March 1, 2019.<sup>7</sup> The Exchange adopted its transaction fees and certain of its non-transaction fees in its filing SR–EMERALD–2019–15.<sup>8</sup> In that filing, the Exchange expressly waived, among other fees, the one-time membership application fee and per-instance API Testing and Certification fees and Network Connectivity Testing and Certification fees, both for Members and non-Members, in order to provide an incentive to prospective market participants to become Exchange Members and for prospective Members and non-Members to connect to MIAX Emerald as soon as possible. At that time, the Exchange waived the one-time membership application fee and per-instance API Testing and Certification fees and Network Connectivity Testing and Certification fees for the Waiver

Period,<sup>9</sup> and stated that it would provide notice to market participants when the Exchange intended to terminate the Waiver Period.

On September 15, 2020, the Exchange issued a Regulatory Circular which announced that the Exchange would terminate the Waiver Period for, among other fees, the one-time membership application fee and per-instance API Testing and Certification fees and Network Connectivity Testing and Certification fees for Members and non-Members, beginning October 1, 2020.<sup>10</sup>

The Exchange initially filed its proposals to establish the one-time membership application fee and per-instance API Testing and Certification fees and Network Connectivity Testing and Certification fees on October 1, 2020.<sup>11</sup> The First Proposed Rule Changes were published for comment in the **Federal Register** between October 20–21, 2020.<sup>12</sup> On November 25, 2020, the Exchange withdrew the First Proposed Rule Changes and refiled its proposal to establish the one-time membership application fee and per-instance API Testing and Certification fees and Network Connectivity Testing and Certification fees.<sup>13</sup>

<sup>9</sup> “Waiver Period” means, for each applicable fee, the period of time from the initial effective date of the MIAX Emerald Fee Schedule until such time that the Exchange has an effective fee filing establishing the applicable fee. The Exchange will issue a Regulatory Circular announcing the establishment of an applicable fee that was subject to a Waiver Period at least fifteen (15) days prior to the termination of the Waiver Period and effective date of any such applicable fee. See the Definitions Section of the Fee Schedule.

<sup>10</sup> See MIAX Emerald Regulatory Circular 2020–41 available at [https://www.miaxoptions.com/sites/default/files/circular-files/MIAX\\_Emerald\\_RC\\_2020\\_41.pdf](https://www.miaxoptions.com/sites/default/files/circular-files/MIAX_Emerald_RC_2020_41.pdf).

<sup>11</sup> See Securities Exchange Act Release Nos. 90183 (October 14, 2020), 85 FR 66607 (October 20, 2020) (SR–EMERALD–2020–09) (Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule To Adopt Application Programming Interface (“API”) Testing and Certification Fees and Network Connectivity Testing and Certification Fees); 90196 (October 15, 2020), 85 FR 67064 (October 21, 2020) (SR–EMERALD–2020–11) (Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule To Adopt One-Time Membership Application Fees and Monthly Trading Permit Fees). The Exchange’s prior proposals to establish the one-time membership application fee and per-instance API Testing and Certification fees and Network Connectivity Testing and Certification fees are collectively referred to herein as the “First Proposed Rule Changes.” The Exchange notes that it will refile its proposal to establish monthly Trading Permit fees in a separate filing.

<sup>12</sup> See *id.*

<sup>13</sup> See Comment Letter from Joseph W. Ferraro III, SVP, Deputy General Counsel, the Exchange, dated November 20, 2020, notifying the Commission that the Exchange will withdraw the First Proposed Rule Changes.

<sup>4</sup> “Electronic Exchange Member” or “EEM” means the holder of a Trading Permit who is not a Market Maker. Electronic Exchange Members are deemed “members” under the Exchange Act. See Exchange Rule 100 and the Definitions section of the Fee Schedule.

<sup>5</sup> The term “Market Makers” refers to “Lead Market Makers”, “Primary Lead Market Makers” and “Registered Market Makers” collectively. See Exchange Rule 100 and the Definitions section of the Fee Schedule.

<sup>6</sup> 15 U.S.C. 78f.

<sup>7</sup> See Securities Exchange Act Release No. 84891 (December 20, 2018), 83 FR 67421 (December 28, 2018) (File No. 10–233) (order approving application of MIAX Emerald, LLC for registration as a national securities exchange).

<sup>8</sup> See Securities Exchange Act Release No. 85393 (March 21, 2019), 84 FR 11599 (March 27, 2019) (SR–EMERALD–2019–15) (Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Establish the MIAX Emerald Fee Schedule).

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b–4.

<sup>3</sup> The term “Member” means an individual or organization approved to exercise the trading rights associated with a Trading Permit. Members are deemed “members” under the Exchange Act. See Exchange Rule 100 and the Definitions section of the Fee Schedule.

One-Time Membership Application Fee

The Exchange proposes to assess a one-time membership application fee based upon the applicant's status as either an EEM or as a Market Maker. The Exchange proposes that applicants for MIAX Emerald membership as an EEM will be assessed a one-time application fee of \$2,500. The Exchange proposes that applicants for MIAX Emerald membership as a Market Maker will be assessed a one-time application fee of \$3,000. The difference in the proposed membership application fee to be charged to EEMs and Market Makers is because of the additional review and resources involved in processing a Market Maker's application, as Market Makers have greater and more complex obligations with respect to doing business on the Exchange.<sup>14</sup> MIAX Emerald's proposed one-time membership application fees are the same as the one-time application fees in place at the Exchange's affiliate, Miami International Securities Exchange, LLC ("MIAX") (\$2,500 for an EEM and \$3,000 for a MIAX Market Maker),<sup>15</sup> and similar to or less than application fees for the Cboe Exchange, Inc. ("Cboe") (\$3,000 for an individual applicant and \$5,000 for an applicant organization)<sup>16</sup> and Nasdaq ISE, LLC ("Nasdaq ISE") (\$7,500 per firm for a primary market maker, \$5,500 per firm for a competitive market maker, and \$3,500 per firm for an electronic access member).<sup>17</sup> Below is the table showing the proposed one-time membership application fees for EEMs and Market Makers:

Type of membership	Application fee
Electronic Exchange Member	\$2,500.00
Market Maker .....	3,000.00

API Testing and Certification Fees for Members

The Exchange also proposes to adopt an API Testing and Certification fee for Members. An API makes it possible for Member software to communicate with MIAX Emerald software applications, and is subject to Member testing with, and certification by, MIAX Emerald. API testing and certification includes, for EEMs, testing all available order types, new order entry, order management, order throughput and mass order cancellation. For Market Makers, API

testing and certification also includes testing of all available quote types, quote throughput, quote management and cancellation, Aggregate Risk Manager settings and triggers, and confirmation of quotes within the trading engines.

The API Testing and Certification fees for Members are based upon the type of interface that the Member has been credentialed to use. The Exchange proposes to adopt an API testing and certification fee for EEMs (other than Clearing Firms): (i) Initially per API for Financial Information Exchange ("FIX")<sup>18</sup> ports, FIX Drop Copy ("FXD")<sup>19</sup> ports and Clearing Trade Drop ("CTD")<sup>20</sup> ports in the month the EEM has been credentialed to use one or more ports in the production environment for the tested API, and (ii) each time an EEM initiates a change to its system that requires testing and certification. The Exchange proposes to adopt an API testing and certification fee for EEM Clearing Firms (i) initially per API in the month the EEM Clearing Firm has been credentialed to use one or more CTD Ports in the production environment, and (ii) each time an EEM Clearing Firm initiates a change to its system that requires testing and certification.

The Exchange proposes to adopt an API testing and certification fee for Market Makers: (i) Initially per API for CTD and MIAX Emerald Express Interface ("MEI")<sup>21</sup> ports in the month

<sup>18</sup> "FIX Port" means an interface with MIAX Emerald systems that enables the Port user to submit simple and complex orders electronically to MIAX Emerald. See the Definitions section of the Fee Schedule.

<sup>19</sup> The FIX Drop Copy ("FXD") Port is a messaging interface that will provide a copy of real-time trade execution, trade correction and trade cancellation information to FXD Port users who subscribe to the service. FXD Port users are those users who are designated by an EEM to receive the information and the information is restricted for use by the EEM. FXD Port Fees will be assessed in any month the Member is credentialed to use the FXD Port in the production environment. See the Definitions section of the Fee Schedule.

<sup>20</sup> "CTD Port" or "Clearing Trade Drop Port" provides an Exchange Member with a real-time clearing trade updates. The updates include the Member's clearing trade messages on a low latency, real-time basis. The trade messages are routed to a Member's connection containing certain information. The information includes, among other things, the following: (i) Trade date and time; (ii) symbol information; (iii) trade price/size information; (iv) Member type (for example, and without limitation, Market Maker, Electronic Exchange Member, Broker-Dealer); and (v) Exchange MPID for each side of the transaction, including Clearing Member MPID. See the Definitions section of the Fee Schedule.

<sup>21</sup> The MEI is a connection to the MIAX Emerald System that enables Market Makers to submit simple and complex electronic quotes to MIAX Emerald. The Exchange offers Full Service MEI Ports, which provide Market Makers with the

the Market Maker has been credentialed to use one or more ports in the production environment for the tested API and the Market Maker has been assigned to quote in one or more classes, and (ii) each time a Market Maker initiates a change to its system that requires testing and certification. The Exchange also proposes that API Testing and Certification fees will not be assessed in situations where the Exchange initiates a mandatory change to the Exchange's System<sup>22</sup> that requires testing and certification. The Exchange proposes to assess Member API Testing and Certification fees of \$1,000 for EEMs and \$2,500 for Market Makers. Below is the proposed table for API Testing and Certification fees for Members:

Type of member	API testing and certification fee
Electronic Exchange Member .....	\$1,000.00
Market Maker .....	2,500.00

API Testing and Certification Fee for Non-Members

The Exchange proposes to adopt an API Testing and Certification fee for Third Party Vendors,<sup>23</sup> Service Bureaus<sup>24</sup> and other non-Members (such as clearing firms): (i) Initially per API for FIX, FXD, CTD and MEI ports in the month the Third Party Vendor, Service Bureau or non-Member has been credentialed to use one or more ports in the production environment for the tested API, and (ii) each time a Third Party Vendor, Service Bureau, or other non-Member initiates a change to its system that requires testing and certification. The Exchange also

ability to send Market Maker simple and complex quotes, eQuotes, and quote purge messages to the MIAX Emerald System. Full Service MEI Ports are also capable of receiving administrative information. Market Makers are limited to two Full Service MEI Ports per Matching Engine. The Exchange also offers Limited Service MEI Ports, which provide Market Makers with the ability to send simple and complex eQuotes and quote purge messages only, but not Market Maker Quotes, to the MIAX Emerald System. Limited Service MEI Ports are also capable of receiving administrative information. Market Makers initially receive two Limited Service MEI Ports per Matching Engine. See the Definitions section of the Fee Schedule.

<sup>22</sup> The term "System" means the automated trading system used by the Exchange for the trading of securities. See Exchange Rule 100.

<sup>23</sup> Third Party Vendors are subscribers of MIAX Emerald's market and other data feeds, which they in turn use for redistribution purposes. See the Definitions section of the Fee Schedule.

<sup>24</sup> "Service Bureau" means a technology provider that offers and supplies technology and technology services to a trading firm that does not have its own proprietary system. See the Definitions section of the Fee Schedule.

<sup>14</sup> See Chapter VI of the Exchange's rules, generally.

<sup>15</sup> See MIAX Fee Schedule, Section (3)(a).

<sup>16</sup> See Cboe Fees Schedule, p. 9, Cboe Trading Permit Holder Application Fees.

<sup>17</sup> See Nasdaq ISE, Options Rules, Options 7, Pricing Schedule, Section 9. Legal and Regulatory A. Application.

proposes that API Testing and Certification fees will not be assessed to non-Members in situations where the Exchange initiates a mandatory change to the Exchange’s System that requires testing and certification.

The Exchange proposes to assess non-Member API Testing and Certification fees of \$1,200 for Third Party Vendors, Service Bureaus and other non-Members. Below is the proposed table for API Testing and Certification fees for non-Members:

Non-member	API testing and certification fee
Third Party Vendors and Service Bureaus and other non-Members .....	\$1,200.00

The proposed higher fee charged to Third Party Vendors, Service Bureaus and non-Members reflects the greater amount of time spent by MIAX Emerald employees testing and certifying non-Members. It has been MIAX Emerald’s experience that Member testing takes less time than non-Member testing because Members have more experience testing these systems with exchanges, resulting in generally fewer questions and issues arising during the testing and certification process. Also, because Third Party Vendors and Service Bureaus are redistributing data and reselling services to other Members and market participants, the number and types of scenarios that need to be tested are more numerous and complex than those tested and certified for a single Member.

The Exchange believes it is necessary to charge an API Testing and Certification fee to Members and non-Members because of the time and resources spent to ensure that Member and non-Member APIs function correctly to prevent any System malfunction. Further, the Exchange believes the price differential in API Testing and Certification fees for Members and non-Members is not unfairly discriminatory because, in the Exchange’s experience, Member testing takes less time than non-Member testing as Members have more experience testing these systems with exchanges, resulting generally in fewer questions and issues arising during the testing and certification process.

**Network Connectivity Testing and Certification Fee for Members**

The Exchange established electronic communication connections with Members and now proposes to assess Members a Network Connectivity Testing and Certification fee for each 1 Gigabit (“Gb”) connection and 10 Gb

ultra-low-latency (“ULL”) connection. The Exchange proposes to assess a Member Network Connectivity Testing and Certification fee: (i) Initially per connection in the month the Individual Firm has been credentialed to use any API or market data feeds in the production environment utilizing the tested network connection, and (ii) each time an individual firm initiates a change to its system that requires network connectivity testing and certification. Network Connectivity Testing and Certification fees will not be assessed in situations where the Exchange initiates a mandatory change to the Exchange’s system that requires testing and certification. Member Network Connectivity Testing and Certification fees will not be assessed for testing and certification of connectivity to the Exchange’s Disaster Recovery Facility.

The Exchange proposes to assess Members a Network Connectivity Testing and Certification Fee of \$1,000 per 1Gb connection and \$4,000 per 10Gb ULL connection. Below is the proposed table for Member Network Connectivity Testing and Certification fees:

Type of member	1 Gigabit fee per connection	10 Gigabit ULL fee per connection
Individual Firm ..	\$1,000.00	\$4,000.00

The proposed fee amounts are identical to the fees currently assessed for the same services at the Exchange’s affiliates, MIAX and MIAX PEARL, LLC (“MIAX PEARL”). The Exchange notes that the Emerald Express Network Interconnect (“EENI”) <sup>25</sup> is a network infrastructure which provides Members and non-Members network connectivity to the trading platforms, market data systems, test systems, and disaster recovery facility of the Exchange. When utilizing a Shared <sup>26</sup> cross-connect, the

<sup>25</sup> “EENI” means the Emerald Express Network Interconnect, which is a network infrastructure which provides Members and non-Members network connectivity to the trading platforms, market data systems, test systems, and disaster recovery facilities of MIAX Emerald. When utilizing a Shared cross-connect, the EENI can also be configured to offer network connectivity to the trading platforms, market data systems, test systems, and disaster recovery facilities of MIAX and MIAX PEARL. When utilizing a Dedicated cross-connect, the EENI can only be configured to offer network connectivity to the trading platforms, market data systems, and test systems of MIAX Emerald. The EENI consists of the low latency and ultra-low latency connectivity options set forth in the Exchange’s Fee Schedule. See the Definitions section of the Fee Schedule.

<sup>26</sup> “Shared” (cross-connect) means cross-connect that provides network connectivity to the trading platforms, market data systems, test systems, and/

EENI can also be configured to offer network connectivity to the trading platforms, market data systems, test systems, and disaster recovery facilities of the Exchange’s affiliates, MIAX and MIAX PEARL. Members utilizing a single, Shared cross-connect to connect to the trading platforms, market data systems, test systems, and disaster recovery facilities of the Exchange, MIAX and MIAX PEARL will only be assessed one Network Connectivity Testing and Certification fee per connection tested, regardless of the trading platforms, market data systems, test systems, and disaster recovery facilities accessed via such connection.

**Network Connectivity Testing and Certification Fee for Non-Members**

MIAX Emerald established electronic communication connections with Service Bureaus, Extranet Providers and other non-Members, and now proposes to assess a Network Connectivity Testing and Certification fee for each 1Gb connection and 10Gb ULL connection. The Exchange proposes to assess a non-Member Network Connectivity Testing and Certification fee: (i) Initially per connection in the month the Service Bureau, Extranet Provider or other non-Member has been credentialed to use any API or market data feeds in the production environment using the tested network connection, and (ii) each time the Service Bureau, Extranet Provider or other non-Member initiates a change to its system that requires network connectivity testing and certification. Network Connectivity Testing and Certification fees will not be assessed in situations where the Exchange initiates a mandatory change to the Exchange’s system that requires testing and certification. Non-Member Network Connectivity Testing and Certification fees will not be assessed for testing and certification of connectivity to the Exchange’s Disaster Recovery Facility.

The Exchange proposes to assess non-Members a Network Connectivity Testing and Certification Fee of \$1,200 per 1Gb connection and \$4,200 per 10Gb ULL connection. Below is the proposed table for non-Member Network Connectivity Testing and Certification fees:

or disaster recovery facilities of MIAX Emerald, MIAX and MIAX PEARL via a single, shared connection. The following connections can be Shared across MIAX Emerald, MIAX and MIAX PEARL: 1 Gigabit, 1 Gigabit Disaster Recovery, and 10 Gigabit Disaster Recovery. See the Definitions section of the Fee Schedule.

Non-member	1 Gigabit fee per connection	10 Gigabit ULL fee per connection
Service Bureau/ Extranet Provider and other non-Members .....	\$1,200.00	\$4,200.00

The EENI is also available to non-Member subscribers. For non-Member subscribers, when utilizing a Shared cross-connect, the EENI can also be configured to offer network connectivity to the trading platforms, market data systems, test systems, and disaster recovery facilities of the Exchange's affiliates, MIAX and MIAX PEARL. Accordingly, non-Members utilizing Shared cross-connects to connect to the trading platforms, market data systems, test systems, and disaster recovery facilities of the Exchange and its affiliates, MIAX and MIAX PEARL, will only be assessed one Network Connectivity Testing and Certification fee per connection tested, regardless of the trading platforms, market data systems, test systems, and disaster recovery facilities accessed via such connection. The Member and non-Member Network Testing and Certification fees represent installation and support costs incurred by the Exchange as it works with each Member and non-Member to make sure there are appropriate electronic communication connections with MIAX Emerald. The Exchange's affiliates, MIAX and MIAX PEARL, charge the same fees for the same services for their Members and non-Members.<sup>27</sup> The Exchange proposes to assess a higher Network Connectivity Testing and Certification fee to non-Members than to Members, similar to how MIAX and MIAX PEARL assesses such fees to their Members and non-Members. The higher fee charged to non-Members reflects the greater amount of time spent by MIAX Emerald employees testing and certifying non-Members. It has been MIAX Emerald's experience that Member network connectivity testing takes less time than non-Member network connectivity testing because Members have more experience testing these systems with exchanges as generally fewer questions and issues arise during the testing and certification process.

## 2. Statutory Basis

The Exchange believes that its proposal to amend its Fee Schedule is

consistent with Section 6(b) of the Act<sup>28</sup> in general, and furthers the objectives of Section 6(b)(4) of the Act<sup>29</sup> in particular, in that it is an equitable allocation of reasonable dues, fees and other charges among its members and issuers and other persons using its facilities. The Exchange also believes the proposal furthers the objectives of Section 6(b)(5) of the Act in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest and is not designed to permit unfair discrimination between customers, issuers, brokers and dealers.

The Exchange believes the proposed one-time membership application fee is reasonable, equitable and not unfairly discriminatory because it is a one-time, *de minimis* fee that is reasonably related to (and designed to recover) the Exchange's cost associated with reviewing and approving membership applications, which consists primarily of the time and resources of Exchange personnel to process the membership application and conduct the new member on-boarding process. The Exchange's process for reviewing and approving potential new Members involves several steps and participation from personnel in multiple Exchange departments, as follows: (i) Reviewing prospective Member information included in various membership forms, including, where necessary, possibly consulting with FINRA, pursuant to the Exchange's Regulatory Services Agreement; (ii) the on-boarding process, where Exchange personnel contacts the firm for an introductory meeting with the Exchange's Business Team to discuss goals, answer questions and schedule the technical on-boarding meeting; (iii) the technical on-boarding meeting where the Exchange's on-boarding team and Trading Operations Team guides the firm through the on-boarding process with Exchange personnel available to discuss network connectivity, APIs, Exchange functionality and operational issues; and (iv) follow-ups with the Trading Operations Team to coordinate testing, as necessary, until the firm is active in the Exchange's live trading environment.<sup>30</sup> The Exchange tracks the number of hours spent by Exchange personnel providing the aforementioned

services per membership application. Based on the Exchange's average cost per full-time employee ("FTE"), the Exchange represents that its cost to provide this service is reasonably related to (and often exceeds) the amount of the membership application fee the Exchange proposes to charge for such service. Accordingly, the proposed fee would enable the Exchange to recover a material portion of such cost.

The Exchange believes the difference in the proposed membership application fee to be charged to EEMs and Market Makers is an equitable allocation of reasonable dues and fees pursuant to Section 6(b)(4) of the Act<sup>31</sup> because of the additional review and resources involved in processing a Market Maker's application as opposed to an EEM's application, as Market Makers have greater and more complex obligations with respect to doing business on the Exchange.<sup>32</sup>

The Exchange believes its proposal to adopt API Testing and Certification fees and Network Connectivity Testing and Certification fees for Members and non-Members is an equitable allocation of reasonable dues and fees pursuant to Section 6(b)(4) of the Act<sup>33</sup> because it is a per-instance, *de minimis* fee that is reasonably related to (and designed to recover) the Exchange's cost associated with providing such API Testing and Certification services and Network Connectivity Testing and Certification services, which consists primarily of the time and resources spent to ensure that Member and non-Member APIs and connectivity function correctly to prevent any System malfunction. The Exchange tracks the number of hours spent by Exchange personnel providing the aforementioned services per billable instance. Based on the Exchange's average cost per FTE, the Exchange represents that its costs to provide these services are reasonably related to (and often exceed) the amount of the respective testing and certification fees the Exchange proposes to charge for such service. Accordingly, the proposed fees would enable the Exchange to recover a material portion of such costs.

Further, the Exchange believes the price differential in API Testing and Certification fees and Network Connectivity Testing and Certification fees for Members and non-Members is not unfairly discriminatory because, in the Exchange's experience, Member testing utilizes less Exchange resources and employee time than non-Member testing as Members have more

<sup>28</sup> 15 U.S.C. 78f(b).

<sup>29</sup> 15 U.S.C. 78f(b)(4) and (5).

<sup>30</sup> See the Exchange's Membership and Technical Onboarding process, available at <https://www.miaxoptions.com/membership/emerald>.

<sup>31</sup> 15 U.S.C. 78f(b)(4).

<sup>32</sup> See *supra* note 14.

<sup>33</sup> 15 U.S.C. 78f(b)(4).

<sup>27</sup> See MIAX Fee Schedule, Sections 4(c) and 4(d); see also MIAX PEARL Fee Schedule, Sections 4(c) and 4(d).

experience testing these systems with exchanges, resulting generally in fewer questions and issues arising during the testing and certification process. Also, with respect to API testing and certification, because Third Party Vendors and Service Bureaus are redistributing data and reselling services to other Members and market participants the number and types of scenarios that need to be tested are more numerous and complex than those tested and certified for Members. The Exchange believes its proposed API Testing and Certification fees and Network Connectivity Testing and Certification fees are reasonable and well within the range of non-transaction fees assessed among other exchanges, including the Exchange's affiliates, MIAX and MIAX PEARL.<sup>34</sup>

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

#### *Intra-Market Competition*

The Exchange believes that the proposed fees do not put any market participants at a relative disadvantage compared to other market participants. The proposed fees would apply to all new Exchange Members and those firms looking to establish APIs and network connectivity in the same manner. Market participants may not only choose whether to become Exchange Members at all, but may choose to become members at competing options exchanges instead.

The Exchange also believes that the proposed fees neither favor nor penalize one or more categories of market participants in a manner that would impose an undue burden on competition. To the extent that various market participants are charged different fees for the one-time membership application and per-instance API and network connectivity testing, those distinctions are not unfairly discriminatory and do not unfairly burden one set of market participants over another. The difference in the proposed membership application fee to be charged to EEMs and Market Makers is because of the additional review and resources involved in processing a Market Maker's application, as Market Makers have greater and more complex obligations with respect to doing business on the

Exchange.<sup>35</sup> The proposed higher fee charged to Third Party Vendors, Service Bureaus and non-Members reflects the greater amount of time spent by MIAX Emerald employees testing and certifying non-Members. It has been MIAX Emerald's experience that Member testing takes less time than non-Member testing because Members have more experience testing these systems with exchanges, resulting in generally fewer questions and issues arising during the testing and certification process. Also, because Third Party Vendors and Service Bureaus are redistributing data and reselling services to other Members and market participants, the number and types of scenarios that need to be tested are more numerous and complex than those tested and certified for a single Member. The higher fee charged to non-Members reflects the greater amount of time spent by MIAX Emerald employees testing and certifying non-Members. It has been MIAX Emerald's experience that Member network connectivity testing takes less time than non-Member network connectivity testing because Members have more experience testing these systems with exchanges as generally fewer questions and issues arise during the testing and certification process. MIAX Emerald's proposed one-time membership application fee and per-instance API Testing and Certification fee levels and Network Connectivity Testing and Certification fee levels, as described herein, are comparable to fee levels charged by other options exchanges for the same or similar services, including those fees assessed by the Exchange's affiliates, MIAX and MIAX PEARL.<sup>36</sup>

The Exchange believes that the proposed API Testing and Certification fees and Network Connectivity Testing and Certification fees do not place certain market participants at a relative disadvantage to other market participants because the fees do not apply unequally to different size market participants, but instead would allow the Exchange to charge for the time and resource necessary for API testing and certification and network connectivity testing and certification for Members and non-Members to ensure proper functioning of all available order types, new order entry, order management, order throughput and mass order cancellation (as well as, for Market Makers, all available quote types, quote throughput, quote management and cancellation, Aggregate Risk Manager settings and triggers, and confirmation

of quotes within the trading engines). Accordingly, the proposed API Testing and Certification fees and network connectivity testing and certification fees do not favor certain categories of market participants in a manner that would impose a burden on competition.

#### *Inter-Market Competition*

The Exchange believes the proposed API Testing and Certification fees and Network Connectivity Testing and Certification fees do not place an undue burden on competition on other SROs that is not necessary or appropriate. The Exchange believes that the proposed fees do not impose a burden on competition or on other exchanges that is not necessary or appropriate because of the availability of numerous substitute options exchanges. There are 15 other options exchanges where market participants can become members.

#### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others*

Written comments were neither solicited nor received.

### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act,<sup>37</sup> and Rule 19b-4(f)(2)<sup>38</sup> thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

### **IV. Solicitation of Comments**

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

#### *Electronic Comments*

- Use the Commission's internet comment form (<http://www.sec.gov/rules/sro.shtml>); or

<sup>35</sup> See *supra* note 14.

<sup>36</sup> See *supra* notes 15, 16 and 17.

<sup>37</sup> 15 U.S.C. 78s(b)(3)(A)(ii).

<sup>38</sup> 17 CFR 240.19b-4(f)(2).

<sup>34</sup> See *supra* notes 15, 16 and 17.

- Send an email to [rule-comments@sec.gov](mailto:rule-comments@sec.gov). Please include File Number SR-EMERALD-2020-15 on the subject line.

#### Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-EMERALD-2020-15. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-EMERALD-2020-15 and should be submitted on or before January 4, 2021.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>39</sup>

**J. Matthew DeLesDernier,**

*Assistant Secretary.*

## DEPARTMENT OF STATE

### [Public Notice 11261]

#### 60-Day Notice of Proposed Information Collection: Advance Notification Form: Tourist and Other Non-Governmental Activities in the Antarctic Treaty Area

**ACTION:** Notice of request for public comment.

**SUMMARY:** The Department of State is seeking Office of Management and Budget (OMB) approval for the information collection described below. In accordance with the Paperwork Reduction Act of 1995, we are requesting comments on this collection from all interested individuals and organizations. The purpose of this notice is to allow 60 days for public comment preceding submission of the collection to OMB.

**DATES:** The Department will accept comments from the public up to February 12, 2021.

**ADDRESSES:** You may submit comments by any of the following methods:

- *Web:* Persons with access to the internet may comment on this notice by going to [www.Regulations.gov](http://www.Regulations.gov). You can search for the document by entering "Docket Number: DOS-2020-0051" in the Search field. Then click the "Comment Now" button and complete the comment form.

- *Email:* [Antarctica@state.gov](mailto:Antarctica@state.gov).

- *Regular Mail:* Send written comments to: William Muntean, Senior Advisor for Antarctica, Office of Ocean and Polar Affairs, Room 2665, Bureau of Oceans, Environment and Science, U.S. Department of State, 2201 C Street NW, Washington, DC 20520. You must include the DS form number, information collection title, and the OMB control number in any correspondence.

#### SUPPLEMENTARY INFORMATION:

- *Title of Information Collection:* ADVANCE NOTIFICATION FORM: Tourist and Other Non-Governmental Activities in the Antarctic Treaty Area.

- *OMB Control Number:* 1405-0181.

- *Type of Request:* Revision of a Currently Approved Collection.

- *Originating Office:* Bureau of Oceans and International Environmental and Scientific Affairs (OES/OPA).

- *Form Number:* DS-4131.

- *Respondents:* Operators of Antarctic expeditions organized in or proceeding from the United States.

- *Estimated Number of Respondents:* 25.

- *Estimated Number of Responses:* 25.

- *Average Time per Response:* 9 hours.

- *Total Estimated Burden Time:* 225 hours

- *Frequency:* On occasion.

- *Obligation to Respond:* Required to comply with Article VII(5)(a) of the Antarctic Treaty and associated documents.

We are soliciting public comments to permit the Department to:

- Evaluate whether the proposed information collection is necessary for the proper functions of the Department.

- Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

#### Abstract of Proposed Collection

Information solicited on the Advance Notification Form (DS-4131) provides the U.S. Government with information on tourist and other non-governmental expeditions to the Antarctic Treaty area. The U.S. Government needs this information to comply with Article VII(5)(a) of the Antarctic Treaty and associated documents.

#### Methodology

The Form DS-4131 is available by download from the Department's website. The information will be submitted by U.S. organizers of tourist and other non-governmental expeditions to Antarctica by means of this form. The form should be submitted via email, although signed originals submitted by regular mail are also valid.
