On October 2, 2020, Golden Pass Pipeline LLC (Golden Pass) filed an amendment application in Docket No. CP21-1-000 requesting a Certificate of Public Convenience and Necessity

pursuant to Section 7(c) of the Natural Gas Act to modify certain pipeline facilities in Louisiana transporting natural gas to the Golden Pass LNG Terminal. The proposed project amendment is known as the Compression Relocation and Modification Project, and would enable Golden Pass to relocate and modify certain facilities approved in the Federal Energy Regulatory Commission’s (Commission or FERC) *Order Granting Authorizations under Section 3 and Section 7 of the Natural Gas Act* issued on December 21, 2016 in Docket Nos. On October 19, 2020, the Commission issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff’s environmental document for the Project.

This notice identifies Commission staff’s intention to prepare an environmental assessment (EA) for the project amendment and the planned schedule for the completion of the environmental review.¹

Schedule for Environmental Review

Issuance of EA February 26, 2021
90-day Federal Authorization Decision Deadline May 27, 2021
