

three alternatives: A no-action alternative, the applicant's proposed action, and a more restrictive alternative consisting of feathering turbines at a rate of wind speed that results in less impacts to bats.

### Next Steps

The Service will evaluate the application and the comments received to determine whether the permit application meets the requirements of section 10(a) of the ESA (16 U.S.C. 1531 *et seq.*). We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the above findings, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue the requested ITP to the applicant.

2. Any threats to the Indiana bat and the northern long-eared bat that may influence their populations over the life of the ITP that are not addressed in the proposed HCP or draft EA;
3. Any new information on white-nose syndrome effects on the Indiana bat and the northern long-eared bat;
4. Whether or not the significance of the impact on various aspects of the human environment has been adequately analyzed;
5. Any other information pertinent to evaluating the effects of the proposed action on the Indiana bat, the northern long-eared bat and the human environment; and

### Notice of Availability of the Coastal Plain Marsh Creek East Seismic Exploration Environmental Assessment

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of availability.

**SUMMARY:** In accordance with the National Environmental Policy Act of 1969, as amended, and the Tax Cuts and Jobs Act of 2017, which requires the Secretary of the Interior, acting through the Bureau of Land Management (BLM), to establish and administer a competitive oil and gas program for the leasing, development, production, and transportation of oil and gas in and from the Coastal Plain area within the Arctic National Wildlife Refuge (ANWR), the BLM, Arctic District Office, has prepared an Environmental Assessment (EA) and Draft Finding of No New Significant Impact (FONNSI) for proposed 3-dimensional seismic exploration in the Coastal Plain of the ANWR.

**DATES:** The BLM will accept comments concerning the adequacy of the analysis of the EA and the preliminary conclusions made in the Draft FONNSI. All comments must be received by December 30, 2020. Reviewers are encouraged to provide their comments in such a manner that they are useful to the agency's analysis. Therefore, comments should clearly articulate the reviewer's concerns and contentions.

**ADDRESSES:** Submit comments at the BLM ePlanning website (<https://eplanning.blm.gov/eplanning-ui/project/2003258/510>), or by mail or in person at the BLM Arctic District Office, Attn: Coastal Plain Seismic EA, 222 University Avenue, Fairbanks, Alaska 99709. Comments not transmitted in accordance with these instructions may not be considered.

**FOR FURTHER INFORMATION CONTACT:** Sarah LaMarr, Project Lead; by telephone, 907-474-2334; by email, [slamarr@blm.gov](mailto:slamarr@blm.gov); or by mail, at the address in the **ADDRESSES** section.

The FRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

**SUPPLEMENTARY INFORMATION:**

*The Tax Cuts and Jobs Act of 2017*, Section 20001 of Public Law 115-97 (Dec. 22, 2017), requires the Secretary of the Interior, acting through the BLM, to establish and administer a competitive oil and gas program for the leasing, development, production, and transportation of oil and gas in and out of the Coastal Plain area within the ANWR. Kaktovik Inupiat Corporation

(KIC) has requested authorization to conduct 3-dimensional seismic exploration on the eastern side of the Coastal Plain during the 2020/2021 winter season starting in January 2021, to acquire high-quality, high-resolution seismic data.

Seismic exploration would occur on approximately 352,400 acres around the community of Kaktovik, to include 92,000 acres of Kaktovik Inupiat Corporation lands and approximately 260,400 acres of federally managed lands. Seismic exploration generates acoustic waves that are picked up by sensors as the waves travel through and bounce off subsurface formations. From this information, images can be created that show subsurface structure and formations including those areas of potential hydrocarbons.

Comments received in response to this notice, including names and addresses of those who comment, will be part of the public record for this proposed action.

### Bureau of Ocean Energy Management

#### Vineyard Wind LLC's Proposed Wind Energy Facility Offshore Massachusetts

**AGENCY:** Bureau of Ocean Energy Management, Department of the Interior.

**ACTION:** Notice.

**SUMMARY:** The preparation of an Environment Impact Statement (EIS) for the Construction and Operations Plan (COP) submitted by Vineyard Wind LLC (Vineyard Wind) concerning the construction and operation of an 800 megawatt wind energy facility offshore Massachusetts (Vineyard Wind 1 Project) is no longer necessary and the process is hereby terminated.

**DATES:** This termination takes effect immediately.

**FOR FURTHER INFORMATION CONTACT:** For further information, please contact: Michelle Morin, BOEM Office of Renewable Energy Programs, 45600 Woodland Road, Sterling, Virginia 20166, (703) 787-1722 or [michelle.morin@boem.gov](mailto:michelle.morin@boem.gov).

**SUPPLEMENTARY INFORMATION:** In December 2017, Vineyard Wind submitted to BOEM a COP for the

Vineyard Wind 1 Project. On December 7, 2018, BOEM published a Draft EIS for the proposed Project. On June 12, 2020, BOEM published a Supplement to the Draft EIS in response to comments from the public and stakeholders requesting an expanded cumulative analysis and an analysis of fishing data previously unavailable to BOEM. A Final EIS was scheduled to be published in the **Federal Register** on December 11, 2020. However, by way of a letter dated December 1, 2020, Vineyard Wind withdrew the COP "from further review and decision-making by BOEM pursuant to 30 CFR 585.628" to conduct additional technical and logistical reviews associated with the inclusion of the General Electric Haliade-X wind turbine generator into the final project design. Vineyard Wind's December 1, 2020, letter for withdrawal of its COP was made "effectively immediately." Since the COP has been withdrawn from review and decision-making, there is no longer a proposal for a major federal action awaiting technical and environmental review, nor is there a decision pending before BOEM. See 42 U.S.C. 4332; 40 CFR 1500.1; 1508.1(q), (x). Thus, in light of Vineyard Wind's letter dated December 1, 2020, this notice advises the public that the preparation and completion of an EIS is no longer necessary, and the process is hereby terminated.

**Authority:** This Notice was prepared under National Environmental Policy Act, as amended (42 U.S.C. 4321 *et seq.*), and published in accordance with Council on Environmental Quality regulations (40 CFR parts 1500-1508), including sections 1503.1 and 1506.6.
