

10:00 a.m. to 12:00 p.m., Eastern Standard Time.

ADDRESSES: The meetings will be held virtually, with online slide share and dial-in information to be posted at <https://www.ntia.gov/>.

FOR FURTHER INFORMATION CONTACT: Travis Hall, National Telecommunications and Information Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Room 4725, Washington, DC 20230; telephone: (202) 482-3522; email: thall@ntia.gov. Please direct media inquiries to NTIA's Office of Public Affairs: (202) 482-7002; email: press@ntia.gov.

SUPPLEMENTARY INFORMATION:

Background and Authority: On March 25, 2020, the President signed into law the Secure 5G and Beyond Act of 2020, Public Law 116-129 (Act), which required the development of a strategy to ensure the security of next generation wireless communications systems and infrastructure.¹

On the same day, and in fulfillment of the requirement established by the Act, the Administration published the National Strategy to Secure 5G of the United States of America (Strategy).² In so doing, the Administration recognizes both the importance of fifth generation wireless technologies (also known as 5G) to the future prosperity and security of the United States, as well as the risks and vulnerabilities posed by malicious actors that will seek to exploit these technologies. The Strategy is focused on four areas: (1) Facilitating domestic 5G rollout; (2) assessing the cybersecurity risks to and identifying core security principles of 5G capabilities and infrastructure; (3) addressing risks to United States economic and national security during development and deployment of 5G infrastructure worldwide; and (4) promoting responsible global development and deployment of secure and reliable 5G infrastructure. In accordance with both the Act and the Strategy, the National Security and National Economic Councils are developing an Implementation Plan, in consultation with relevant Departments and Agencies, to execute the actions identified to secure 5G infrastructure and development.

In accordance with the Act, NTIA published a Request for Comment on

March 28th, 2020,³ and posted the responses on June 29th, 2020.⁴ To assist in the implementation of the strategy NTIA will conduct industry engagement and listening sessions with 5G industry groups and manufacturers to formulate policy approaches for market incentives to do the following: Leverage trusted domestic and international partner suppliers; close 5G security gaps; and ensure domestic industrial base viability. To this end, NTIA will convene two virtual roundtables. The January 28 roundtable will focus on market incentives for 5G security. The February 25 roundtable will focus on principles for fostering global 5G vendor diversity and open, interoperable architectures. The discussions held at these roundtables will be analyzed and turned into a report to help the Administration further develop its policy approach to the secure development and deployment of 5G.

Time and Date: NTIA will convene the roundtable listening session on January 28 and February 25, from 10:00 a.m. to 12:00 p.m. Eastern Standard Time. The exact time of the meeting is subject to change. Please refer to NTIA's website, <https://www.ntia.gov/>, for the most current information.

Place: The meeting will be held virtually, with online slide share and dial-in information to be posted at <https://www.ntia.gov/>. Please refer to NTIA's website, <https://www.ntia.gov/>, for the most current information.

Other Information: The meeting is open to the public and the press on a first-come, first-served basis. The virtual meeting is accessible to people with disabilities. Individuals requiring accommodations such as real-time captioning, sign language interpretation or other ancillary aids should notify Travis Hall at (202) 482-3522 or thall@ntia.gov at least seven (7) business days prior to the meeting. Access details for the meeting are subject to change. Please refer to NTIA's website, <https://www.ntia.gov/>, for the most current information.

Dated: December 10, 2020.

Kathy D. Smith,

Chief Counsel, National Telecommunications and Information Administration.

BILLING CODE 3510-60-P

DEPARTMENT OF DEFENSE

Department of the Air Force

Notice of Intent To Grant an Exclusive Patent License

AGENCY: Department of the Air Force, Department of Defense.

ACTION: Notice of intent.

SUMMARY: Pursuant to the Bayh-Dole Act, and implementing regulations, the Department of the Air Force hereby gives notice of its intent to grant an exclusive patent license agreement to Integrated Icing Solutions, LLC, a corporation of the State of Oklahoma, having a place of business at 4301 SW 29th Street, Oklahoma City, OK 73119.

DATES: Written objections must be filed no later than fifteen (15) calendar days after the date of publication of this Notice.

ADDRESSES: Submit written objections to the Jeffrey Bamber, Air Force Materiel Command Law Office, AFMCLO/JAZ, 2240 B Street, Room 260, Wright-Patterson AFB, OH 45433-7109; Facsimile: (937) 255-3733; or Email: afmclo.jaz.tech@us.af.mil. Include Docket No. AFS-201113A-PL in the subject line of the message.

FOR FURTHER INFORMATION CONTACT: Jeffrey Bamber, Air Force Materiel Command Law Office, AFMCLO/JAZ, 2240 B Street, Rm 260, Wright-Patterson AFB, OH 45433-7109; Telephone: (937) 904-5787; Facsimile: (937) 255-3733; Email: afmclo.jaz.tech@us.af.mil.

SUPPLEMENTARY INFORMATION: The Department of the Air Force intends to grant the exclusive patent license agreement for the invention described in: U.S. Patent Application Serial No. 63/109,883, entitled "Ice Detection and Precautionary System Shut-Down Event Reduction Systems and Related Methods", filed November 5, 2020.

Abstract of patent application: An ice detection and precautionary system shut-down event reduction system and related methods are provided. Embodiments include an ice detection sensor array positioned in proximity to a jet engine test cell inlet. The sensor array can include a plurality of ice detection sensor array sensors including ice, static pressure, total pressure, and temperature as well as a second set of sensors position in proximity with a jet engine air inlet, where the second set of sensors include another temperature, static pressure, and total pressure sensor. The embodiment further includes a control section that receives inputs from the sensor array sensors and second set of sensors and performs

comparisons of inputs from these sensors against each other and stored values to determine actual icing conditions then generate warnings on a display to an operator. The exemplary control section has multiple modes including manual, semi-manual and automatic.

The Department of the Air Force may grant the prospective license unless a timely objection is received that sufficiently shows the grant of the license would be inconsistent with the Bayh-Dole Act or implementing regulations. A competing application for a patent license agreement, completed in compliance with 37 CFR 404.8 and received by the Air Force within the period for timely objections, will be treated as an objection and may be considered as an alternative to the proposed license.

Adriane Paris,

Acting Air Force Federal Register Liaison Officer.

BILLING CODE 5001-10-P

DEPARTMENT OF DEFENSE

Department of the Army

[Docket ID: USA-2020-HQ-0017]

Proposed Collection; Comment Request

AGENCY: Department of the Army, Department of Defense (DoD).

ACTION: Information collection notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the Department of the Army announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology. **DATES:** Consideration will be given to all comments received by February 16, 2021.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: DoD cannot receive written comments at this time due to the COVID-19 pandemic. Comments should be sent electronically to the docket listed above.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to 1530 Concordia West, Irvine, CA 92612, ATTN: Dr. Nathan Meier, 949-214-3322.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Future Soldier Study (At-Risk Shippers); OMB Control Number 0702-XXXX.

Needs and Uses: This collection will help study the impact that regular exercise has on Future Soldiers (FS) accessions rates and shape the development of policy that will reduce the number of shipper delays and FS losses due to height, weight, and OPAT standards not being met, ultimately saving the Army time and money. FS will receive an at-home exercise program that they can execute with minimal equipment and experience, and conclude with an exercise adherence structured interview from the Company Commanders during their FS Asset Inventory (FSAI), a regular part of the FS program already. Body composition and OPAT data that the recruiters currently collect on the FS populations will then be cross-referenced with the exercise adherence data. This will allow us to identify to what degree exercise adherence leads to the improved shipping rates for FS as well as potential weight loss guidance for MEPS and Recruiting Command to use to more accurately predict the duration of time required from initial MEPS clearance to ship date based on a FS height, weight, and OPAT status. This data must be collected in order to accurately determine the impact that regular exercise has on FS accessions rates and provide MEPS and USAREC with demographic-specific projections for

their at-risk populations to ship for basic training. The end result will be a study that will be presented to USAREC and MEPS Command with findings and recommendations for ways to reduce FS delays to the shipping process.

Affected Public: Individuals or Households.

Annual Burden Hours: 9,450.
Number of Respondents: 450.
Responses per Respondent: 1.
Annual Responses: 450.
Average Burden per Response: 21 hours.

Frequency: One-time.

Dated: December 11, 2020.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DoD-2020-OS-0075]

Submission for OMB Review; Comment Request

AGENCY: National Defense University, Department of Defense (DoD).

ACTION: 30-Day information collection notice.

SUMMARY: The DoD has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by January 15, 2021.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Angela James, 571-372-7574, or whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Master's Degree Application Form for International Students; OMB Control Number 0704-XXXX.

Type of Request: Existing Collection in Use without an OMB Control Number.

Number of Respondents: 120.
Responses per Respondent: 1.
Annual Responses: 120.
