SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–90655; File No. SR–BX–2020–037]

Self-Regulatory Organizations; Nasdaq BX, Inc.; Notice of Filing of Proposed Rule Change To Amend BX Options 7, Section 2 and Section 3

December 14, 2020.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934

(“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on December 1, 2020, Nasdaq BX, Inc. (“BX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend BX Options 7, Section 2, “BX Options Market—Fees and Rebates,” and Options 7, Section 3, “BX Options Market—Ports and other Services.”

The text of the proposed rule change is available on the Exchange’s website at <https://listingcenter.nasdaq.com/rulebook/bx/rules>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of

the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend BX’s Pricing Schedule at Options 7, Section 2, “BX Options Market—Fees and Rebates,” and Options 7, Section 3, “BX Options Market—Ports and other Services.” Each change will be described in detail below.

Options 7, Section 2

The Exchange proposes to remove the options tier schedules applicable to Select Symbols³ and SPY pricing. With this proposal, all pricing within Options 7, Section 2 would be subject to either the Penny Symbol or Non-Penny Symbol pricing tier schedules.

Today, the Exchange assesses fees and rebates for Penny Symbols and Non-Penny Symbols, excluding Select Symbols and SPY. Today, both Select Symbols and options overlying “SPY” are subject to alternative pricing as detailed below.

Today, the Exchange assesses fees and pays rebates for Penny and Non-Penny Symbols in accordance with the below table and corresponding Penny and Non-Penny tier schedules.

Participants that execute 0.05% to less than 0.15% of total industry customer equity and ETF option ADV contracts per month would pay a Non-Penny Symbol Fee to Remove Liquidity of \$0.89 per contract in Tier 2. Participants that execute 0.15% or more of total industry customer equity and ETF option ADV contracts per month would pay a Non-Penny Symbol Fee to Remove Liquidity of \$0.89 per contract in Tier 3.

Firms

Today, Firms pay a Select Symbol Fee to Add Liquidity and a Fee to Remove Liquidity of \$0.37 per contract, regardless of counterparty. Today, Firms receive no Select Symbol rebates.

With this proposal, Firms would receive no Non-Penny Symbol Rebate to Add Liquidity or Non-Penny Symbol Rebate to Remove Liquidity. With this proposal, Firms would pay a Non-Penny Symbol Fee to Add Liquidity of \$0.98 per contract. With this proposal, Firms

would pay a Non-Penny Symbol Fee to Remove Liquidity of \$0.89 per contract.

SPY

Today, the SPY Options Tier Schedule is as follows:

SPY OPTIONS TIER SCHEDULE

	Rebate to remove liquidity (per contract)
Applied to:	Customer

BX Options Market Maker or Firm of \$0.46 per contract, regardless of the tier.³²

Non-Customers

Today, Non-Customers pay a SPY Fee to Add Liquidity and a SPY Fee to Remove Liquidity of \$0.44 per contract, regardless of counterparty. Today, Non-Customers receive no SPY rebates.

With this proposal, Non-Customers would receive no Penny Symbol Rebate to Add Liquidity and no Penny Symbol Rebate to Remove Liquidity. With this proposal, Non-Customers would pay a Penny Symbol Fee to Add Liquidity of \$0.45 per contract. With this proposal, Non-Customers would pay a Penny Symbol Fee to Remove Liquidity of \$0.46 per contract.

Firms

Today, Firms pay a SPY Fee to Add Liquidity and a SPY Fee to Remove Liquidity of \$0.41 per contract, regardless of counterparty. Today, Firms receive no SPY rebates.

With this proposal, Firms would receive no Penny Symbol Rebate to Add Liquidity and no Penny Symbol Rebate to Remove Liquidity. With this proposal, Firms would pay a Penny Symbol Fee to Add Liquidity of \$0.45 per contract. With this proposal, Firms would pay a Penny Symbol Fee to Remove Liquidity of \$0.46 per contract.

The Exchange believes that this proposal will simplify its transaction fees and rebates by classifying pricing for all options symbols as either Penny or Non-Penny Symbols.

Technical Amendments

The Exchange proposes to remove footnote 4, which is currently reserved, and renumber current footnote 5 as new footnote 4 within Options 7, Section 2. The Exchange also proposes to remove “(excluding Select Symbols Options)” from the Fees and Rebates table within Options 7, Section 2(1) and from the Penny Symbols Tier Schedule title as that exclusion is no longer necessary because this proposal removes that pricing.

³² Participants that executes less than 0.05% of total industry customer equity and ETF option ADV contracts per month would pay a Penny Symbol Fee to Remove Liquidity of \$0.46 per contract in Tier 1. Participants that execute 0.05% to less than 0.15% of total industry customer equity and ETF option ADV contracts per month would pay a Penny Symbol Fee to Remove Liquidity of \$0.46 per contract in Tier 2. Participants that execute 0.15% or more of total industry customer equity and ETF option ADV contracts per month would pay a Penny Symbol Fee to Remove Liquidity of \$0.46 per contract in Tier 3.

Options 7, Section 3

The Exchange proposes to amend Options 7, Section 3, “BX Options Market—Ports and other Services,” to remove obsolete text which reflects timeframes which have passed.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,³³ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,³⁴ in particular, in that it provides for the equitable allocation of reasonable dues, fees, and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange’s proposed changes to its Pricing Schedule are reasonable in several respects. As a threshold matter, the Exchange is subject to significant competitive forces in the market for options securities transaction services that constrain its pricing determinations in that market. The fact that this market is competitive has long been recognized by the courts. In *NetCoalition v. Securities and Exchange Commission*, the D.C. Circuit stated as follows: “[n]o one disputes that competition for order flow is ‘fierce.’ . . . As the SEC explained, ‘[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; [and] ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers’ . . .”³⁵

The Commission and the courts have repeatedly expressed their preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, while adopting a series of steps to improve the current market model, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its

broader forms that are most important to investors and listed companies.”³⁶

Numerous indicia demonstrate the competitive nature of this market. For example, clear substitutes to the Exchange exist in the market for options security transaction services. The Exchange is only one of sixteen options exchanges to which market participants may direct their order flow. Within this environment, market participants can freely and often do shift their order flow among the Exchange and competing venues in response to changes in their respective pricing schedules. As such, the proposal represents a reasonable attempt by the Exchange to increase its liquidity and market share relative to its competitors.

Options 7, Section 2

Select Symbols To Be Priced as Penny Symbols

With respect to pricing certain Select Symbols,³⁷ which would be priced as Penny Symbols with this proposal, the Exchange believes that its proposal is reasonable, equitable and not unfairly discriminatory for the reasons which follow.

Customers

While this proposal would offer Customers lower Rebates to Add Liquidity in Select Symbols when trading against Non-Customers, BX Options Market Makers, Customer, or Firms which range from \$0.00 to \$0.20 per contract,³⁸ instead of ranging from \$0.00 to \$0.25 per contract³⁹ (no Tier 4

While the Customer Fee to Add Liquidity in Select Symbols when contra to another Customer would increase from \$0.33 to \$0.39 per contract, regardless of the tier for Select Symbols,⁴² the Exchange believes that the fee remains competitive and will continue to attract order flow to BX to the benefit of all market participants. Participants that execute 0.15% or more of total industry customer equity and ETF option ADV contracts per month would pay a \$0.39 per contract Penny Symbol Fee to Add Liquidity in Tier 3.

Penny Symbol Fee To Remove Liquidity.⁴³

All pricing would be uniformly assessed to Participants for Penny Symbols. Customers would continue to receive favorable pricing as compared to other market participants because Customer liquidity enhances liquidity on the Exchange for the benefit of all market participants. Specifically, Customer liquidity benefits all market participants by providing more trading opportunities which attracts market makers. An increase in the activity of these market participants (particularly in response to pricing) in turn facilitates tighter spreads which may cause an additional corresponding increase in order flow from other market participants.

BX Options Market Makers

With this proposal, BX Options Market Makers would receive a Penny Symbol Rebate to Add Liquidity of \$0.10 per contract only when the BX Options Market Maker is contra to a Non-Customer, Firm, or BX Options Market Maker. Today, BX Options Market Makers receive no Select Symbol Rebate to Add Liquidity. This rebate will incentivize Participants to send order flow to BX. With this proposal, BX Options Market Makers would continue to receive no Rebate to Remove Liquidity.⁴⁴ With this proposal, BX Options Market Makers would pay a \$0.39 per contract Penny Symbol Fee to Add Liquidity only when the BX Options Market Maker is contra to a Customer as compared to the Select Symbol Fee to Add Liquidity for BX Options Market Makers which ranges from \$0.44 to \$0.29 per contract,⁴⁵ as such some Participants will pay a higher Penny Symbol Fee to Add Liquidity while some Participants will pay a lower Penny Symbol Fee to Add Liquidity. The Exchange believes that

the fee remains competitive and will continue to attract order flow to BX to the benefit of all market participants. With this proposal, BX Options Market Makers would pay a Penny Symbol Fee to Remove Liquidity when trading against a Customer which ranges from \$0.39 to \$0.30 per contract.⁴⁶ These fees are lower than the current Select Symbol Fees to Remove Liquidity when trading against a Customer which range from \$0.42 to \$0.25 per contract.⁴⁷ The Exchange believes that these lower fees will attract a greater amount of liquidity to BX. With this proposal, BX Options Market Makers would pay a Penny Symbol Fee to Remove Liquidity when trading against a Non-Customer, BX Options Market Maker or Firm of \$0.46 per contract, regardless of the tier.⁴⁸ This proposed Penny Symbol Fee to Remove Liquidity is the same as the current Fee to Remove Liquidity in Select Symbols when trading against a Firm, Non-Customer, or BX Options Market Maker of \$0.46 per contract. With this proposal BX Options Market Makers pay no Penny Symbol Fee to Add Liquidity when contra to a Non-Customer, BX Options Market Maker or Firm. Today, BX Options Market Makers

pay a Fee to Add Liquidity in Select Symbols when trading against a Non-Customer, BX Options Market Maker or Firm which ranges from \$0.14 to \$0.00 per contract⁴⁹ which would be reduced to no fee and attract further liquidity to BX.

All pricing would be uniformly assessed to Participants for Penny Symbols. BX Options Market Makers add value through continuous quoting⁵⁰ and are subject to additional requirements and obligations⁵¹ that other market participants are not. Incentivizing Market Makers to provide greater liquidity benefits all market participants through the quality of order interaction.

Non-Customers

With this proposal, Non-Customers would receive no Penny Symbol Rebate to Add Liquidity and no Penny Symbol Rebate to Remove Liquidity, as is the case today under Select Symbol pricing. With this proposal, Non-Customers would pay a Penny Symbol Fee to Add Liquidity of \$0.45 per contract, this fee is lower than the current Select Symbol Fee to Add Liquidity of \$0.46 per contract, regardless of counterparty, and will attract liquidity to BX. With this proposal, Non-Customers would pay a Penny Symbol Fee to Remove Liquidity of \$0.46 per contract that is the same as the current Select Symbol Fee to Remove Liquidity in Select Symbols of \$0.46 per contract, regardless of counterparty. All pricing would be uniformly assessed to Participants for Penny Symbols.

Firms

With this proposal, Firms would receive no Penny Symbol Rebate to Add Liquidity and no Penny Symbol Rebate to Remove Liquidity, as is the case today under Select Symbol pricing. With this proposal, Firms would pay a Penny Symbol Fee to Add Liquidity of \$0.45 per contract which is higher than the current Select Symbol Firm Fee to

Add Liquidity of \$0.37 per contract, regardless of counterparty. With this proposal, Firms would pay a Penny Symbol Fee to Remove Liquidity of \$0.46 per contract which is higher than the current Select Symbol Firm Fee to Remove Liquidity of \$0.37 per contract, regardless of counterparty. Despite the fact that the Penny Symbol Fees to Add and Remove Liquidity will be higher, the Exchange believes that the fees remain competitive and will continue to attract order flow to BX to the benefit of all market participants. All pricing would be uniformly assessed to Participants for Penny Symbols.

Select Symbols To Be Priced as Non-Penny Symbols

With respect to pricing for Select Symbols that would be priced as Non-Penny Symbols (DXJ, EWT, FAZ, FXE, FXP, QID, QLD, SKF, SRS, SSO, TZA, URE, UYG, and XHB) with this proposal, the Exchange believes that its proposal is reasonable, equitable and not unfairly discriminatory for the reasons which follow. The Exchange notes that, today, Select Symbol pricing is aligned closer to Penny Symbol pricing because the Select Symbols noted above which are proposed to be priced as Non-Penny Symbols were once in the Penny Pilot Program and these symbols are currently not in the Penny Interval Program.

Customers

While this proposal would offer Customers lower Non-Penny Symbol Rebates to Add Liquidity when trading against a Non-Customer, BX Options Market Maker or Firm which would range from \$0.00 to \$0.25 per contract,⁵² instead of ranging from \$0.00 to \$0.20 per contract⁵³ (no Tier 4 rebate of \$0.25

contra to another Customer of \$0.33 per contract. Despite the fact that the Non-Penny Symbol Fee to Add and Remove Liquidity will be higher, the Exchange believes that the fees remain competitive and will continue to attract order flow to BX to the benefit of all market participants. With this proposal, Customers would continue not pay a Non-Penny Symbol Fee to Remove Liquidity.

All pricing would be uniformly assessed to Participants for Non-Penny Symbols. Customers would continue to receive favorable pricing as compared to other market participants because Customer liquidity enhances liquidity on the Exchange for the benefit of all market participants. Specifically, Customer liquidity benefits all market participants by providing more trading opportunities which attracts market makers. An increase in the activity of these market participants (particularly in response to pricing) in turn facilitates tighter spreads which may cause an additional corresponding increase in order flow from other market participants.

BX Options Market Makers

With this proposal, BX Options Market Makers would receive no Non-Penny Symbol Rebate to Add Liquidity or Non-Penny Rebate to Remove Liquidity, as is the case today under Select Symbols as well. With this proposal, BX Options Market Makers would pay a \$0.50 per contract Non-Penny Symbol Fee to Add Liquidity when trading against a BX Options Market Maker, Non-Customer or Firm and a \$0.95 per contract Non-Penny Symbol Fee to Add Liquidity when trading against a Customer. Currently, BX Options Market Makers pay a Fee to Add Liquidity in Select Symbols when trading against a Non-Customer, BX Options Market Maker or Firm which ranges from \$0.14 to \$0.00 per contract⁵⁷ and BX Options Market Makers pay a Fee to Add Liquidity in Select Symbols when trading against a

Customer which ranges from \$0.44 to \$0.29 per contract.⁵⁸ Despite the fact that the Non-Penny Symbol Fees to Add Liquidity will be higher, the Exchange believes that the fees remain competitive and will continue to attract order flow to BX to the benefit of all market participants. With this proposal, BX Options Market Makers would pay a Non-Penny Symbol Fee to Remove Liquidity when trading against a Customer which ranges from \$0.89 to \$0.60 per contract.⁵⁹ This fee would be higher than the current BX Options Market Makers pay a Fee to Remove Liquidity in Select Symbols when trading against a Customer which ranges from \$0.42 to \$0.25 per contract.⁶⁰ Also, with this proposal, BX Options Market Makers would pay a Non-Penny Symbol Fee to Remove Liquidity when trading against a Non-Customer, BX Options Market Maker, or Firm of \$0.89 per contract, regardless of the tier.⁶¹ This fee

⁵⁸ Participants that executes less than 0.05% of total industry customer equity and ETF option ADV contracts per month pay a Select Symbol Fee to Add Liquidity of \$0.44 per contract in Tier 1. Participants that executes 0.05% to less than 0.15% of total industry customer equity and ETF option ADV contracts per month pay a Select Symbol Fee to Add Liquidity of \$0.44 per contract in Tier 2. Participants that execute 0.15% or more of total industry customer equity and ETF option ADV contracts per month pay a Select Symbol Fee to Add Liquidity of \$0.40 per contract in Tier 3. would be higher than the current BX Options Market Makers pay a Fee to Remove Liquidity in Select Symbols when trading against a Firm, Non-Customer, or BX Options Market Maker of \$0.46 per contract. Despite the fact that the Non-Penny Symbol Fees to Remove Liquidity will be higher, the Exchange believes that the fees remain competitive and will continue to attract order flow to BX to the benefit of all market participants.

All pricing would be uniformly assessed to Participants for Non-Penny Symbols. BX Options Market Makers add value through continuous quoting⁶² and are subject to additional requirements and obligations⁶³ that other market participants are not. Incentivizing Market Makers to provide greater liquidity benefits all market participants through the quality of order interaction.

Non-Customers

With this proposal, Non-Customers would receive no Non-Penny Symbol Rebate to Add Liquidity or Non-Penny Symbol Rebate to Remove Liquidity as is the case today for Select Symbols. With this proposal, Non-Customers would pay an increased Non-Penny Symbol Fee to Add Liquidity of \$0.98 per contract as compared to the current Non-Customer Fee to Add Liquidity in Select Symbols of \$0.46 per contract, regardless of counterparty. Also, with this proposal, Non-Customers would pay an increased Non-Penny Symbol Fee to Remove Liquidity of \$0.89 per contract as compared to the current Non-Customer Fee to Remove Liquidity in Select Symbols of \$0.46 per contract, regardless of counterparty. Despite the fact that the Non-Penny Symbol Fees to Add and Remove Liquidity will be higher, the Exchange believes that the fees remain competitive and will continue to attract order flow to BX to the benefit of all market participants. All pricing would be uniformly assessed to Participants for Non-Penny Symbols.

Firms

With this proposal, Firms would receive no Non-Penny Symbol Rebate to Add Liquidity or Non-Penny Symbol Rebate to Remove Liquidity as is the

Symbol Fee to Remove Liquidity of \$0.89 per contract in Tier 1. Participants that execute 0.05% to less than 0.15% of total industry customer equity and ETF option ADV contracts per month would pay a Non-Penny Symbol Fee to Remove Liquidity of \$0.89 per contract in Tier 2. Participants that execute 0.15% or more of total industry customer equity and ETF option ADV contracts per month would pay a Non-Penny Symbol Fee to Remove Liquidity of \$0.89 per contract in Tier 3.

case for Select Symbols. With this proposal, Firms would pay an increased Non-Penny Symbol Fee to Add Liquidity of \$0.98 per contract as compared to the current Firm Fee to Add Liquidity in Select Symbols of \$0.37 per contract, regardless of counterparty. With this proposal, Firms would pay an increased Non-Penny Symbol Fee to Remove Liquidity of \$0.89 per contract as compared to the current Firm Fee to Remove Liquidity in Select Symbols of \$0.37 per contract, regardless of counterparty. Despite the fact that the Non-Penny Symbol Fees to Add and Remove Liquidity will be higher, the Exchange believes that the fees remain competitive and will continue to attract order flow to BX to the benefit of all market participants. All pricing would be uniformly assessed to Participants for Non-Penny Symbols.

SPY

With respect to the impact on pricing for SPY that would be priced as a Penny Symbol with this proposal, the Exchange believes that its proposal is reasonable, equitable and not unfairly discriminatory for the reasons which follow.

Customers

With this proposal Customers would receive higher Penny Symbol Rebates to Add Liquidity when trading against a Non-Customer, BX Options Market Maker or Firm which range from \$0.00 to \$0.20 per contract.⁶⁴ Today, Customers receive no rebate when add liquidity in SPY when trading against a Non-Customer, BX Options Market Maker or Firm. The Exchange believes that these increased rebates will incentivize Participants to bring Customer liquidity to BX. With this proposal, Customers would receive a lower Penny Symbol Rebate to Remove Liquidity when trading against a Non-Customer, BX Options Market Maker, Customer or Firm which ranges from \$0.00 to \$0.35 per contract.⁶⁵ Today,

⁶⁴ Participants that executes less than 0.05% of total industry customer equity and ETF option ADV contracts per month would receive no Penny Symbol Rebate to Add Liquidity in Tier 1. Participants that execute 0.05% to less than 0.15% of total industry customer equity and ETF option ADV contracts per month would receive a \$0.10 per contract Penny Symbol Rebate to Add Liquidity in Tier 2. Participants that execute 0.15% or more of total industry customer equity and ETF option ADV contracts per month would receive a \$0.20 per contract Penny Symbol Rebate to Add Liquidity in Tier 3.

⁶⁵ Participants that executes less than 0.05% of total industry customer equity and ETF option ADV contracts per month would receive no Penny Symbol Rebate to Remove Liquidity in Tier 1. Participants that execute 0.05% to less than 0.15% of total industry customer equity and ETF option

Customers receive a SPY Rebate to Remove Liquidity when trading against a Non-Customer, BX Options Market Maker, Customer or Firm which ranges from \$0.01 to \$0.52 per contracts when trading against a Non-Customer, BX Options Market Maker, Customer or Firm.⁶⁶ Despite the fact that the Penny Symbol Rebates to Remove Liquidity in will be lower, the Exchange believes that the fees remain competitive and will continue to attract order flow to BX to the benefit of all market participants. With this proposal, Customers would pay an increased Penny Symbol Fee to Add Liquidity when trading against a Customer of \$0.39 per contract, regardless of the tier,⁶⁷ as compared to the current Customer SPY Fees to Add Liquidity of \$0.38 per contract when contra to another Customer. Despite the fact that the Penny Symbol Fees to Add Liquidity when contra to another Customer will be higher than the SPY Fee to Add Liquidity when contra to a Customer, the Exchange believes that the fees remain competitive and will continue to attract order flow to BX to the benefit of all market participants. With this proposal, t will be no Fee to Add Liquidity when contra to Firm, BX Options Market Maker or Non Customer, as is the case today. With this proposal, Customers would not pay a Penny Symbol Fee to Remove Liquidity as is the case for SPY today.

All pricing would be uniformly assessed to Participants for Penny Symbols. Customers would continue to receive favorable pricing as compared to

ADV contracts per month would receive a \$0.25 per contract Penny Symbol Rebate to Remove Liquidity in Tier 2. Participants that execute 0.15% or more of total industry customer equity and ETF option ADV contracts per month will receive a \$0.35 per contract Penny Symbol Rebate to Remove Liquidity in Tier 3.

⁶⁶ Tier 1 Participants that remove less than 500 SPY Options contracts per day in the customer range receive a \$0.01 per contract rebate. Tier 2 Participants that remove 500 to not more than 999 SPY Options contracts per day in the customer range receive a \$0.10 per contract rebate. Tier 3 Participants that removes 1000 to not more than 1999 SPY Options contracts per day in the customer range receive a \$0.35 per contract rebate. Tier 4 Participants that remove 2000 to not more than 3999 SPY Options contracts per day in the customer range receive a \$0.43 per contract rebate. Tier 5 Participants that remove more than 3999 SPY Options contracts per day in the customer range receive a \$0.52 per contract rebate.

⁶⁷ Participants that executes less than 0.05% of total industry customer equity and ETF option ADV contracts per month would pay a \$0.39 per contract Penny Symbol Fee to Add Liquidity in Tier 1. Participants that execute 0.05% to less than 0.15% of total industry customer equity and ETF option ADV contracts per month would pay a \$0.39 per contract Penny Symbol Fee to Add Liquidity in Tier 2. Participants that execute 0.15% or more of total industry customer equity and ETF option ADV contracts per month would pay a \$0.39 per contract Penny Symbol Fee to Add Liquidity in Tier 3.

other market participants because Customer liquidity enhances liquidity on the Exchange for the benefit of all market participants. Specifically, Customer liquidity benefits all market participants by providing more trading opportunities which attracts market makers. An increase in the activity of these market participants (particularly in response to pricing) in turn facilitates tighter spreads that may cause an additional corresponding increase in order flow from other market participants.

BX Options Market Makers

With this proposal, BX Options Market Makers would receive a new Penny Symbol Rebate to Add Liquidity of \$0.10 per contract only when the BX Options Market Maker is contra to a Non-Customer, Firm, or BX Options Market Maker, while currently BX Options Market Makers receive no rebates in SPY. This new rebate will incentivize Participants to bring liquidity to BX. With this proposal, BX Options Market Makers would receive no Penny Symbol Rebate to Remove Liquidity, as is the case today for SPY. With this proposal, BX Options Market Makers would pay a \$0.39 per contract Penny Symbol Fee to Add Liquidity only when the BX Options Market Maker is contra to a Customer which is the same as the current BX Options Market Makers SPY Fee to Add Liquidity of \$0.39 per contract when trading against a Customer. With this proposal, the Exchange would not assess a Penny Symbol Fee to Add Liquidity when trading against a Firm, BX Options Market Maker or Non Customer as compared to today, where a BX Options Market Maker pays a SPY Fee to Add Liquidity of \$0.14 per contract when trading against a Firm, BX Options Market Maker or Non Customer. The removal of this fee should incentivize BX Participants to send order flow to BX.

With this proposal, BX Options Market Makers would pay a Penny Symbol Fee to Remove Liquidity when trading against a Customer which ranges from \$0.39 to \$0.30 per contract,⁶⁸ as compared to the current BX Options

⁶⁸ Participants that executes less than 0.05% of total industry customer equity and ETF option ADV contracts per month would pay a Penny Symbol Fee to Remove Liquidity of \$0.39 per contract in Tier 1. Participants that execute 0.05% to less than 0.15% of total industry customer equity and ETF option ADV contracts per month would pay a Penny Symbol Fee to Remove Liquidity of \$0.39 per contract in Tier 2. Participants that execute 0.15% or more of total industry customer equity and ETF option ADV contracts per month would pay a Penny Symbol Fee to Remove Liquidity of \$0.30 per contract in Tier 3.

Market Maker Fee to Remove Liquidity in SPY Options of \$0.39 per contract when trading with Customer. With this proposal, the fee will be lower in certain cases depending on the volume tier achieved and may attract higher volume to the Exchange in an effort to obtain the lower fee. With this proposal, BX Options Market Makers would pay an increased Penny Symbol Fee to Remove Liquidity when trading against a Non-Customer, BX Options Market Maker or Firm of \$0.46 per contract, regardless of the tier,⁶⁹ as compared to the current BX Options Market Makers pay a SPY Fee to Remove Liquidity of \$0.44 per contract when trading against a Firm, Non-Customer, or BX Options Market Maker. Despite the fact that the Penny Symbol Fee to Remove Liquidity will be higher, the Exchange believes that the fees remain competitive and will continue to attract order flow to BX to the benefit of all market participants.

All pricing would be uniformly assessed to Participants for Penny Symbols. BX Options Market Makers add value through continuous quoting⁷⁰ and are subject to additional requirements and obligations⁷¹ that other market participants are not. Incentivizing Market Makers to provide greater liquidity benefits all market participants through the quality of order interaction.

Non-Customers

With this proposal, Non-Customers would receive no Penny Symbol Rebate to Add Liquidity and no Penny Symbol Rebate to Remove Liquidity, as is the case today for SPY. With this proposal, Non-Customers would pay an increased Penny Symbol Fee to Add Liquidity of \$0.45 per contract as compared to the current Non-Customers SPY Fee to Add Liquidity of \$0.44 per contract, regardless of counterparty. With this proposal, Non-Customers would pay an increased Penny Symbol Fee to Remove Liquidity of \$0.46 per contract as compared to the current Non-Customers SPY Fee to Remove Liquidity of \$0.44 per contract, regardless of counterparty. Despite the fact that the Penny Symbol

Fees to Add and Remove Liquidity will be higher, the Exchange believes that the fees remain competitive and will continue to attract order flow to BX to the benefit of all market participants. All pricing would be uniformly assessed to Participants for Penny Symbols.

Firms

With this proposal, Firms would receive no Penny Symbol Rebate to Add Liquidity and no Penny Symbol Rebate to Remove Liquidity, as is the case today with SPY. With this proposal, Firms would pay an increased Penny Symbol Fee to Add Liquidity of \$0.45 per contract as compared to the current Firm SPY Fee to Add Liquidity of \$0.41 per contract, regardless of counterparty. With this proposal, Firms would pay an increased Penny Symbol Fee to Remove Liquidity of \$0.46 per contract as compared to the current Firm SPY Fee to Remove Liquidity of \$0.41 per contract, regardless of counterparty. Despite the fact that the Penny Symbol Fees to Add and Remove Liquidity will be higher, the Exchange believes that the fees remain competitive and will continue to attract order flow to BX to the benefit of all market participants. All pricing would be uniformly assessed to Participants for Penny Symbols.

Technical Amendments

The Exchange's proposal to make technical amendments to footnote 4 and renumber current footnote within Options 7, Section 2, and remove "(excluding Select Symbols Options)" from Options 7, Section 2(1) are reasonable, equitable and not unfairly discriminatory.

Options 7, Section 3

The Exchange's proposal to amend Options 7, Section 3, "BX Options Market—Ports and other Services," is reasonable, equitable and not unfairly discriminatory as the rule text is obsolete in that the text reflects timeframes which have passed.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

Inter-Market Competition

The proposal does not impose an undue burden on inter-market competition. The Exchange believes its proposal remains competitive with other options markets and will offer market participants with another choice of where to transact options. The

Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited.

Intra-market Competition

The proposed amendments do not impose an undue burden on intra-market competition.
