

informing influential policy decisions; and

8. Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential nonresponse bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, information collections will not result in any new system of records containing personal information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

This is an EXTENSION of an existing information collection. The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

DEPARTMENT OF HOMELAND SECURITY

[Docket No. CISA-2020-0008]

Cybersecurity and Infrastructure Security Agency (CISA) Speaker Request Form

AGENCY: Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

ACTION: 60-Day notice and request for comments; New collection (Request for a new OMB Control Number, 1670-NEW).

SUMMARY: DHS CISA External Affairs will submit the following information collection request (ICR) to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995.

DATES: Comments are due by February 16, 2021.

ADDRESSES: You may submit comments, identified by docket number CISA-2020-0008, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Please follow the instructions for submitting comments.

- *Email:* CISA.Speakers@cisa.dhs.gov. Please include docket number CISA-2020-0008 in the subject line of the message.

- *Mail:* Written comments and questions about this Information Collection Request should be forwarded to DHS/CISA/External Affairs, ATTN: 245 Murray Lane SW, Mail Stop 0380, Washington, DC 20598-0609.

Instructions: All submissions received must include the words "Department of Homeland Security" and the docket number for this action. Comments received will be posted without alteration at <http://www.regulations.gov>, including any personal information provided.

Docket: For access to the docket and comments received, please go to www.regulations.gov and enter docket number CISA-2020-0008.

Comments submitted in response to this notice may be made available to the public through relevant websites. For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information or proprietary information. If you send an email comment, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the internet. Please note that responses to this public comment request containing any routine notice about the confidentiality of the communication will be treated as public comments that may be made available to the public notwithstanding the inclusion of the routine notice.

FOR FURTHER INFORMATION CONTACT: Marilyn Stackhouse, 703-235-2162, CISA.Speakers@hq.dhs.gov.

SUPPLEMENTARY INFORMATION: The Cybersecurity and Infrastructure Security Agency Act of 2018 (P.L. 115-278) created the Cybersecurity and Infrastructure Security Agency (CISA). CISA is responsible for protecting the Nation's critical infrastructure from physical and cyber threats. This mission requires effective coordination and collaboration from government and private sector organizations. As part of the collaboration efforts, CISA receives requests for CISA employees to give presentations and speeches at various events.

This digital collection of information is necessary to ensure an efficient and timely process to schedule outreach and engagement with CISA stakeholders. This information may be disclosed as generally permitted under 5 U.S.C 522.

The Speaker Request Form will be the first point of contact between CISA and

the public to initiate CISA speaking engagements. The form will be available on www.cisa.gov and any member of the public can submit a request for a CISA employee to speak at an event. The form will be used by CISA to track and manage external speaking engagements. The information will also be used to schedule and determine the most appropriate CISA speaker based on date, time, location, presentation format, and topic. The form collects information regarding the requested speaking engagement, e.g., the host organization, the speaking topic, agenda, and additional event details. The requested information helps CISA determine whether the speaker should attend the engagement and/or how CISA should best prepare for the event.

The information is used to determine if accepting the request will further CISA's mission.

The CISA Speakers Bureau team will use the information to identify a speaker and route the Speakers Request Form to that person for consideration. Confirmed CISA speaking engagements are then sent to DHS Public Affairs for awareness.

The form will be available on www.cisa.gov as a fillable pdf and/or webform, and will be submitted to the CISA External Affairs Speakers Bureau. The data collected will be stored in an internal SharePoint site.

This is a NEW collection of information.

OMB is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Copies of available documents submitted to OMB may be obtained from Ms. Guido.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: The Rent Reform Demonstration: 6-Year Long-Term Follow-Up.

OMB Approval Number: 2528-0306.

Type of Request (i.e., new, revision or extension of currently approved collection): Revision or extension of currently approved collection.

Form Number: N/A.

Description of the need for the information and proposed use: The Department is conducting this study under contract with MDRC and its subcontractors (The Bronner Group, Quadel Consulting Corporation, and the Urban Institute). The project is a random assignment trial of an alternative rent system. Families are randomly assigned to participate either in the new/alternative rent system or to continue in the current system. For voucher holders, outcomes of the alternative system are hypothesized to be increases in earnings, employment, and job retention among others. Random assignment will limit the extent to which selection bias drives observed results. The evaluation will document the progress of a group of housing voucher holders, who will be drawn from current residents, and the impact of the alternative rent system on the families as well as the administrative burden on Public Housing Agencies (PHAs). Three PHAs continue to participate in the long-term evaluation: (1) Lexington Housing Authority (LHA), Lexington, Kentucky; (2) Louisville Metro Housing Authority (LMHA), Louisville, Kentucky;

(3) San Antonio Housing Authority (SAHA), San Antonio, Texas; and

Data collection efforts include the families that are part of the treatment and control groups, as well as PHA staff. Data will be gathered through a variety of methods including informational interviews and discussions, direct observation, and analysis of administrative records. The work
