**Purpose and Need for Regulatory
Action**

This proposed rule would establish a
framework under the authority of the
MMPA (16 U.S.C. 1361 *et seq.*) to allow
for the authorization of take of marine
mammals incidental to the Navy's
construction activities including marine
structure maintenance, pile
replacement, and select waterfront
improvements at NAVSTA Norfolk.

We received an application from the
Navy requesting five-year regulations
and authorization to take multiple
species of marine mammals. Take
would occur by Level B harassment
only incidental to impact and vibratory
pile driving. Please see Background
below for definitions of harassment.

Legal Authority for the Proposed Action

Section 101(a)(5)(A) of the MMPA (16
U.S.C. 1371(a)(5)(A)) directs the
Secretary of Commerce to allow, upon
request, the incidental, but not
intentional taking of small numbers of
marine mammals by U.S. citizens who
engage in a specified activity (other than
commercial fishing) within a specified
geographical region for up to five years
if, after notice and public comment, the
agency makes certain findings and
issues regulations that set forth
permissible methods of taking pursuant
to that activity and other means of
effecting the “least practicable adverse
impact” on the affected species or
stocks and their habitat (see the
discussion below in the Proposed
Mitigation section), as well as
monitoring and reporting requirements.
