ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2017-0466; FRL-10017-47]

Product Cancellation Order for Certain Pesticide; Amendment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA issued a notice in the **Federal Register** of April 13, 2018, concerning the cancellations voluntarily requested by the registrant and accepted by the Agency but that have not yet become effective. This notice is being issued to amend the cancellation order, as supported by the current registrant and requested by a distributor, by extending the effective date of the cancellation for the two spirodiclofen registrations (EPA Registration No. 264-830 and 264-831).

DATES: The **Federal Register** of April 13, 2018, announced the voluntary cancellation of two spirodiclofen registrations (EPA Registration No. 264-830 and 264-831) as requested by the registrant, effective December 31, 2020. The Agency is now amending the effective date of cancellation to December 31, 2021.

FOR FURTHER INFORMATION CONTACT: Veronica Dutch, Pesticide Re-evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW, Washington, DC 20460-0001; telephone number: (703) 308-8585; email address: dutch.veronica@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members

of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2017-0466, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave., NW, Washington, DC 20460-0001.

Due to the public health concerns related to COVID-19, the EPA Docket Center (EPA/DC) and Reading Room is closed to visitors with limited exceptions. The staff continues to provide remote customer service via email, phone, and webform. For the latest status information on EPA/DC services and docket access, visit <https://www.epa.gov/dockets>.

II. What Does this Amendment Do?

This notice is being issued to amend the effective date of cancellation for the two spirodiclofen registrations listed in Table 1B of the cancellation order published in the **Federal Register** on April 13, 2018 (83 FR 16076) (FRL-9975-97). The April 13, 2018 **Federal Register** Notice corrected an earlier cancellation order that was published in December 26, 2017 (80 FR 60985) (FRL-9971-10). After issuance of the cancellation order correction notice, a different company committed to develop required data and requested an extension of the effective date of cancellation for these products, with the intention of maintaining these spirodiclofen registrations. Bayer CropScience, the current registrant for the spirodiclofen products listed in Table 1B of the cancellation order, submitted a letter supporting the requested extension. Based on letters received from the California Walnut Commission (October 12, 2020) and the California Citrus Quality Council (October 16, 2020), spirodiclofen is an important control option for plant-feeding mites in these crops, where miticide resistance is a possibility and where spirodiclofen has continued to be a component of integrated pest management. With this Notice, the effective date for cancellation of EPA Registration No. 264-830 and 264-831 is established as December 31, 2021. Consistent with the previous order, the

registrant would be prohibited from producing, selling, or distributing existing stocks of products containing spirodiclofen following the cancellation effective date. Other entities would be permitted to sell, distribute, and use stocks of spirodiclofen until stocks are exhausted. The cancellation of these two registrations would terminate the last spirodiclofen products registered for use in the United States.

Authority: 7 U.S.C. 136 *et seq.*

Dated: November 24, 2020.

Acting Director, Pesticide Re-Evaluation Division, Office of Pesticide Programs.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-10018-24-OAR]

Allocations of Cross-State Air Pollution Rule Allowances From New Unit Set-Asides for 2020 Control Periods

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of data availability (NODA).

SUMMARY: The Environmental Protection Agency (EPA) is providing notice of the availability of preliminary lists of units eligible for second-round allocations of emission allowances for the 2020 control periods from the new unit set-asides (NUSAs) established under the Cross-State Air Pollution Rule (CSAPR) trading programs. EPA has posted spreadsheets containing the lists on EPA's website. EPA will consider timely objections to the lists before determining the amounts of the second-round allocations.

DATES: Objections to the information referenced in this notice must be received on or before January 21, 2021.

ADDRESSES: Submit your objections via email to CSAPR_NUSA@epa.gov. Include "2020 NUSA allocations" in the email subject line and include your name, title, affiliation, address, phone number, and email address in the body of the email.

FOR FURTHER INFORMATION CONTACT: Questions concerning this action should be addressed to Jason Kuhns at (202) 564-3236 or kuhns.jason@epa.gov or Andrew Reighart at (202) 564-0418 or reighart.andrew@epa.gov.

SUPPLEMENTARY INFORMATION: Under each CSAPR trading program where EPA is responsible for determining

emission allowance allocations, a portion of each state's emissions budget for the program for each control period is reserved in a NUSA (and in an additional Indian country NUSA in the case of states with Indian country within their borders) for allocation to certain units that would not otherwise receive allowance allocations. The procedures for identifying the eligible units for each control period and for allocating allowances from the NUSAs and Indian country NUSAs to these units are set forth in the CSAPR trading program regulations at 40 CFR 97.411(b) and 97.412 (NO_x Annual), 97.511(b) and 97.512 (NO_x Ozone Season Group 1), 97.611(b) and 97.612 (SO₂ Group 1), 97.711(b) and 97.712 (SO₂ Group 2), and 97.811(b) and 97.812 (NO_x Ozone Season Group 2). Each NUSA allowance allocation process involves up to two rounds of allocations to eligible units, termed "new" units, followed by the allocation to "existing" units of any allowances not allocated to new units.

This notice concerns EPA's preliminary identification of units eligible to receive allowances in the second round of NUSA allocations for the 2020 control periods. The units eligible for second-round allocations for a given control period are CSAPR-affected units that commenced commercial operation between January 1 of the year before that control period and November 30 of the year of that control period. In the case of the 2020 control periods, an eligible unit therefore must have commenced commercial operation between January 1, 2019 and November 30, 2020 (inclusive). Generally, where a unit is eligible to receive a second-round NUSA allocation under a given CSAPR trading program for a given control period, the unit's maximum potential second-round allocation equals the positive difference (if any) between the unit's emissions during the control period as reported under 40 CFR part 75 and any first-round NUSA allocation the unit received. If the total of such maximum potential allocations to all eligible units would exceed the total allowances remaining in the NUSA, the allocations are reduced on a pro-rata basis. EPA notes that under 40 CFR 97.406(c)(3), 97.506(c)(3), 97.606(c)(3), 97.706(c)(3), and 97.806(c)(3), a unit's emissions occurring before its monitor certification deadline are not considered to have occurred during a control period and consequently are not included in the emission amounts used to determine NUSA allocations.

The preliminary lists of eligible units are set forth in Excel spreadsheets titled "CSAPR_NUSA_2020_NO_x_Annual_

2nd_Round_Prelim_Data," "CSAPR_NUSA_2020_NO_x_Ozone_Season_2nd_Round_Prelim_Data," and "CSAPR_NUSA_2020_SO₂_2nd_Round_Prelim_Data" available on EPA's website at <https://www.epa.gov/csapr/csapr-compliance-year-2020-nusa-nodas>. Each spreadsheet contains a separate worksheet for each state covered by that program showing each unit preliminarily identified as eligible for a second-round NUSA allocation. Each state worksheet also contains a summary showing (1) the quantity of allowances initially available in that state's 2020 NUSA, (2) the sum of the 2020 NUSA allowance allocations that were made in the first round to new units in that state, if any, and (3) the quantity of allowances in the 2020 NUSA available for second-round allocations to new units (or ultimately for allocations to existing units), if any.

Objections should be strictly limited to whether EPA has correctly identified the units eligible for second-round 2020 NUSA allocations according to the criteria established in the regulations and should be emailed to the address identified in **ADDRESSES**. Objections must include: (1) Precise identification of the specific data the commenter believes are inaccurate, (2) new proposed data upon which the commenter believes EPA should rely instead, and (3) the reasons why EPA should rely on the commenter's proposed data and not the data referenced in this notice.

EPA notes that an allocation or lack of allocation of allowances to a given unit does not constitute a determination that CSAPR does or does not apply to the unit. EPA also notes that under 40 CFR 97.411(c), 97.511(c), 97.611(c), 97.711(c), and 97.811(c), allocations are subject to potential correction if a unit to which NUSA allowances have been allocated for a given control period is not actually an affected unit as of the start of that control period.

(Authority: 40 CFR 97.411(b), 97.511(b), 97.611(b), 97.711(b), and 97.811(b).)

Director, Clean Air Markets Division, Office of Atmospheric Programs, Office of Air and Radiation.
